I. INTRODUCTION

Look book – Shopping image gallery is a PrestaShop lookbook module that supports selling and displaying products by collection, allows you to create a look book to show a shopping image gallery. Make it easier for your customers to browse and purchase products in sets.

***“Look book – Shopping image gallery”** is compatible with PrestaShop 1.6.x, 1.7.x and PrestaShop 8.x.

II. INSTALLATION

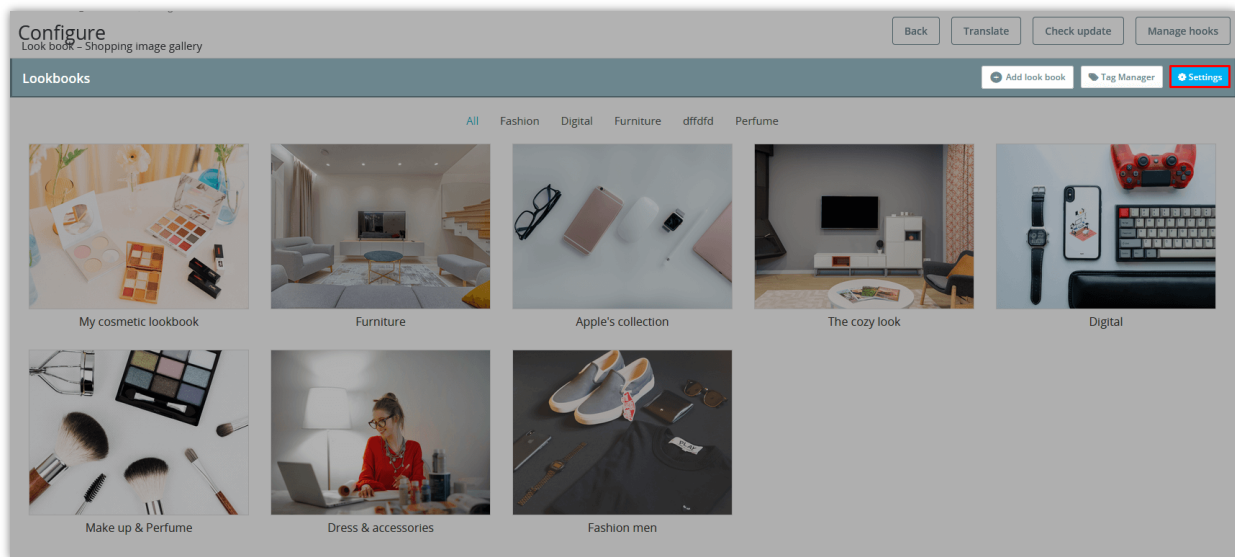

- Navigate to **“Modules/Modules Manager”** > click on **“Upload a module/Select file”**.
- Select the module file **“ets_lookbook.zip”** from your computer then click on **“Open”** to install.
- Click on **“Configure”** button of the module you just installed to open the module’s configuration page.

III. MODULE CONFIGURATION

1. General settings

From your installed module list (located at **“Modules/Module Manager”**), find **“Look book – Shopping image gallery”** then click on **“Configure”** button to open its configuration page.

Click on the **“Settings”** option in the upper right corner of the configuration page to open the **“Settings”** popup.

There are 3 types of lookbook layouts displayed on the home page:

- **Carousel slider**

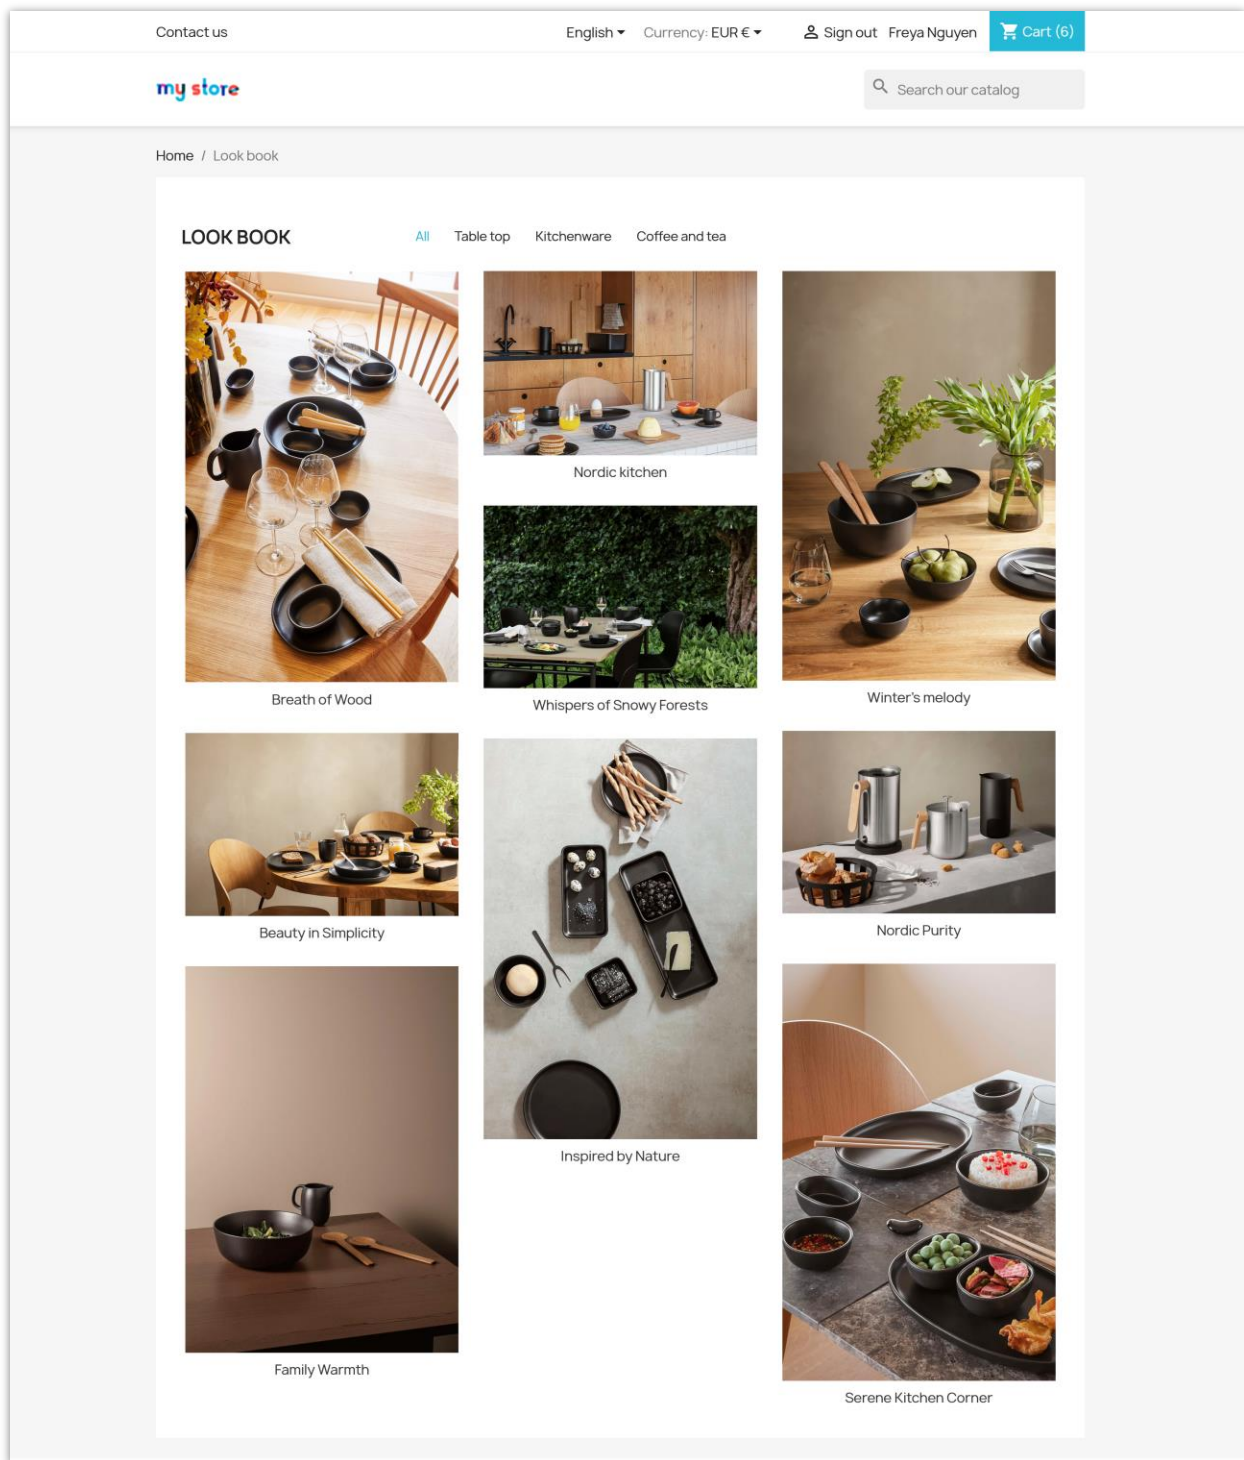

You can set up the slider's speed and the number of displayed item on different devices.

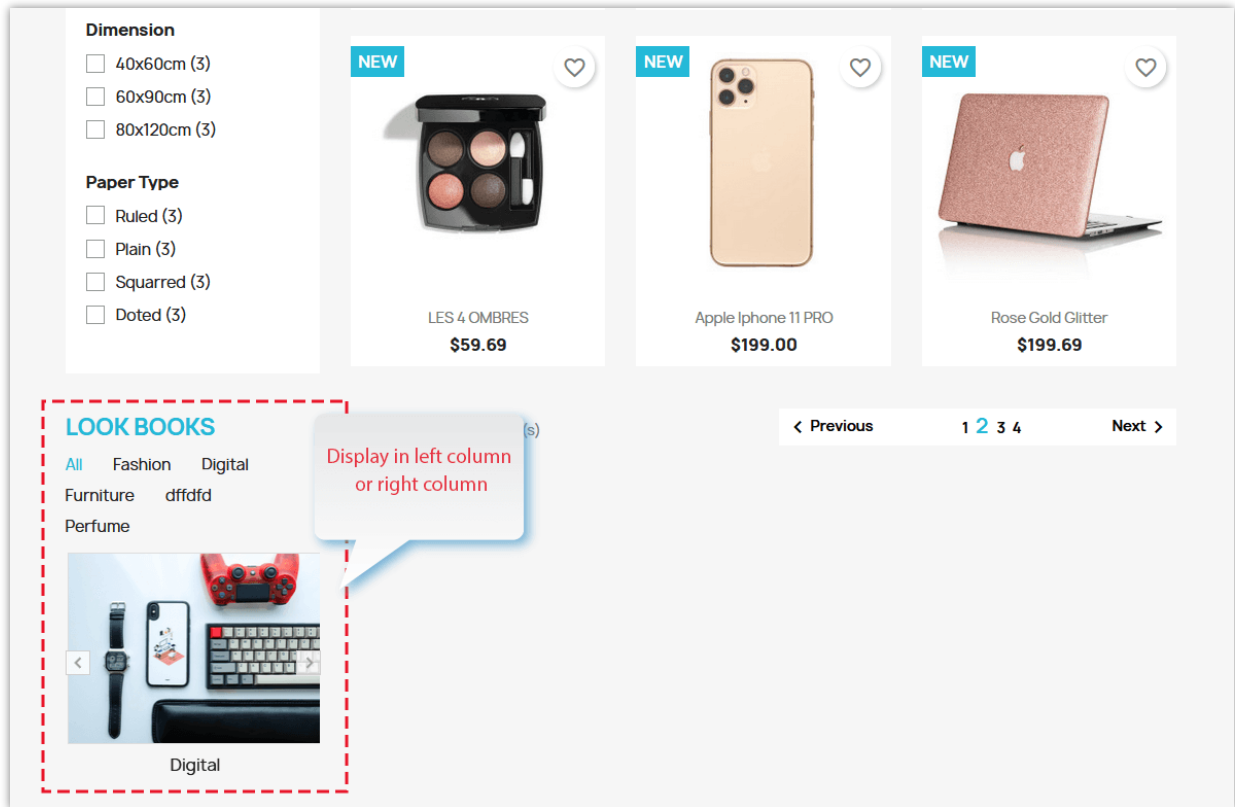

- **Grid view**

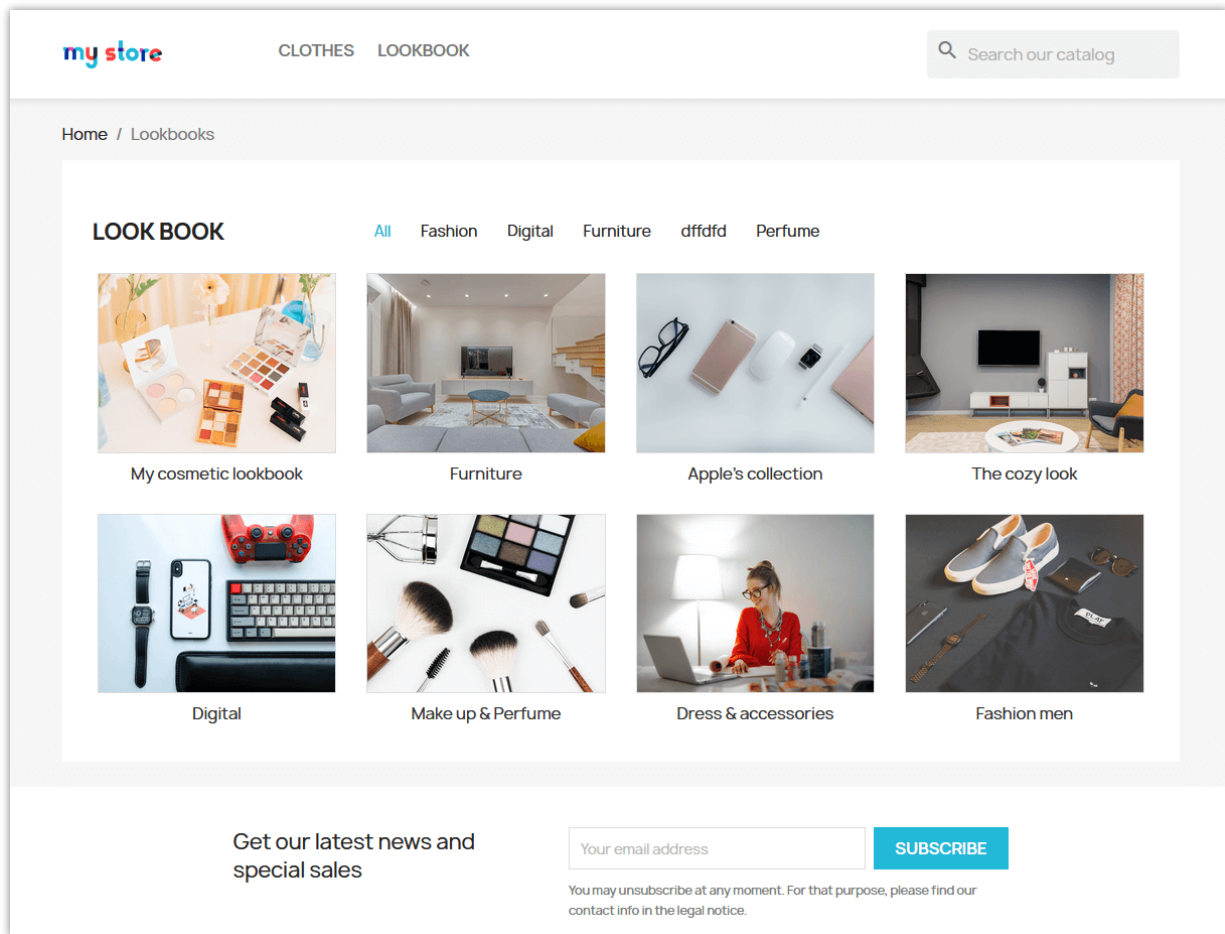

- **Masonry**

Besides, you can also display lookbook on the left column or right column on the **Categories** page.

Moreover, all lookbooks are also able to be shown on the lookbook listing page:

You can even display lookbook wherever you want on your website by using a custom hook. Just put `{hook h='displayLookBook'}` on your template tpl file where you want it to display.

```
231 <section id="main">
232     {block name="product_accessories"}
233     {if $accessories}
234     <section class="product-accessories clearfix">
235     <p class="m5 text-uppercase">{! $s'You might also like' d='Shop.Theme.Catalog'}</p>
236     <div class="products row">
237     {foreach from=$accessories items="product_accessory" key="position"}
238     {block name="product_miniature"}
239     {include file='catalog/_partials/miniatures/product.tpl' product=$product_accessory position=$position productClasses="col-xs-12 col-sm-6 col-lg-4"}
240     {/block}
241     {/foreach}
242     </div>
243     </section>
244     {/if}
245     {/block}
246     {hook h='displayLookBook'}
247
248     {block name="product_footer"}
249     {hook h='displayFooterProduct' product=$product category=$category}
250     {/block}
251
252     {block name="product_images_modal"}
253     {include file='catalog/_partials/product-images-modal.tpl'}
254     {/block}
255
256     {block name="page_footer_container"}
257     <footer class="page-footer">
258     {block name="page_footer"}
259     <!-- footer content -->
260     {/block}
261     </footer>
262     {/block}
263 </section>
264 {/block}
```

2. Create a new lookbook

Now start with adding a new lookbook:

- Click on the **“Add look book”** button.
- On the **“Add look book”** popup, fill in the information in the required field. You can enter the lookbook’s name and description in multiple languages.
- Add image/file you want and assign tags for the lookbook if needed.
- Set the column width for the lookbook if you choose to display the lookbook list in Masonry layout under the General settings section.
- Enable **“YES”** and save your settings.

How to display products?

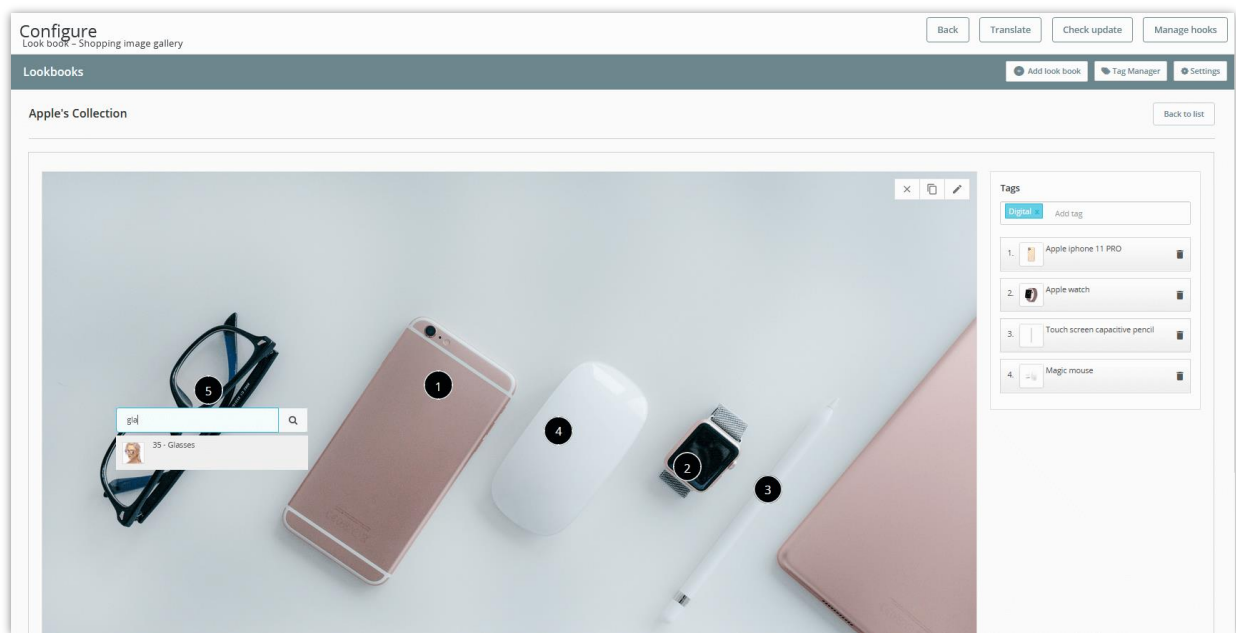

List layout ▼

Enabled ☒ Yes

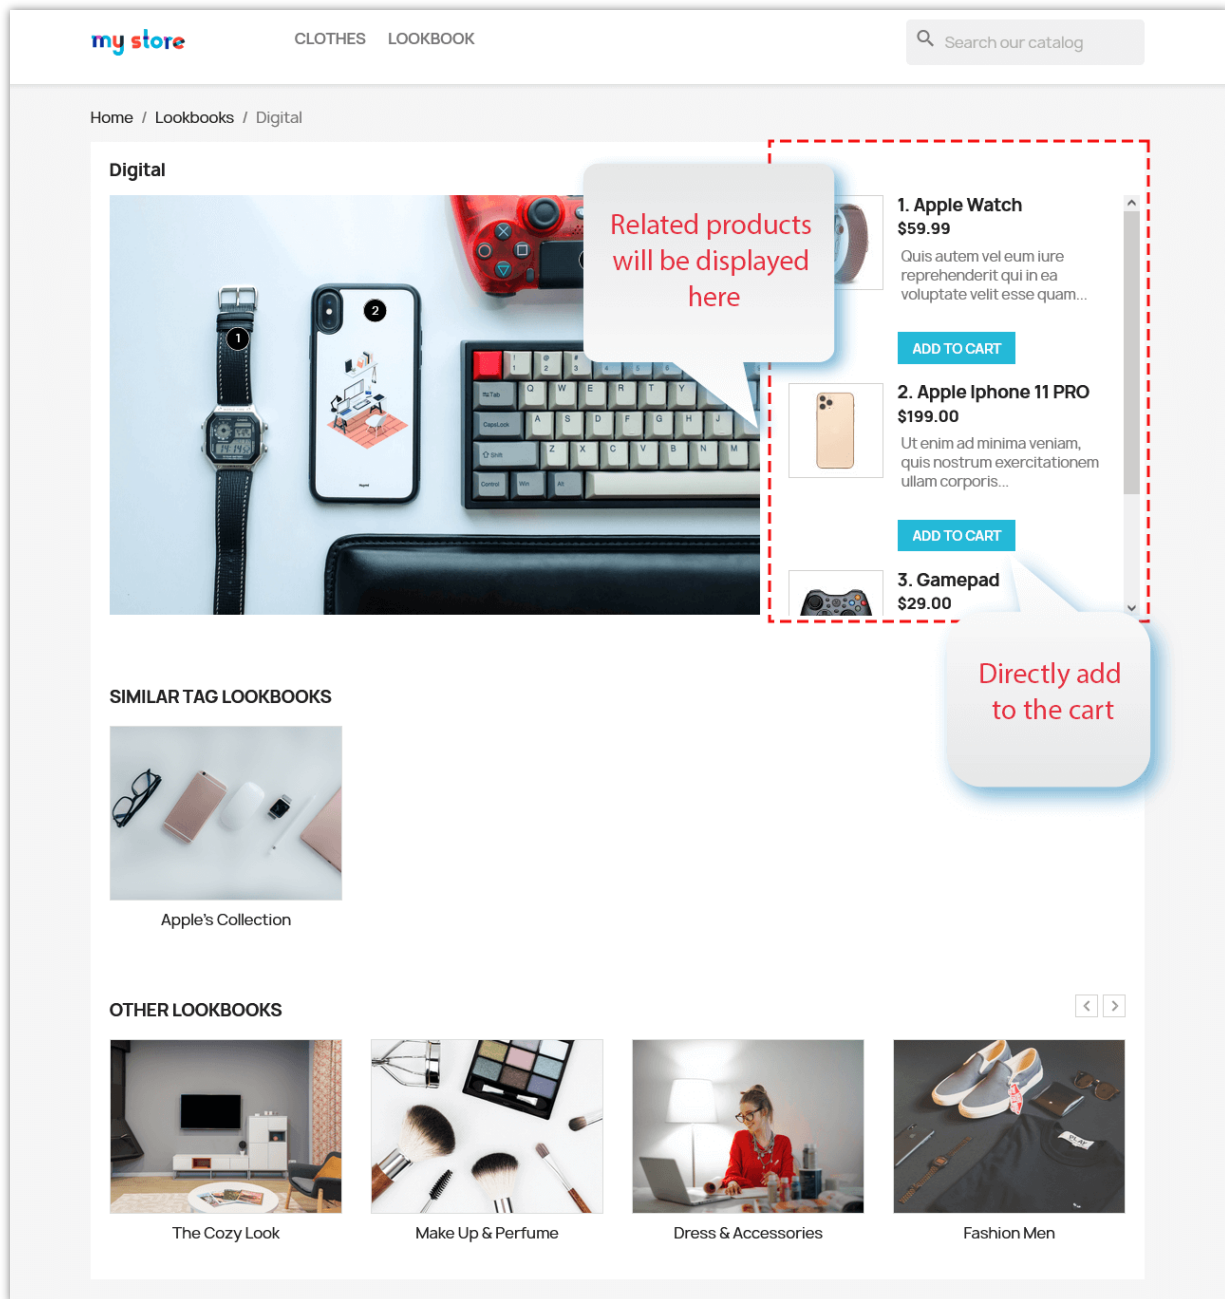

Save

After adding a new lookbook, the module allows you to edit, duplicate or delete the lookbook by hovering your mouse and clicking on the action icon you want in the upper right corner of that lookbook.

You also can search for products related to the lookbook from your back office, click on the product image on the photo and search for that product. The order number of products will be added and increased automatically as below:

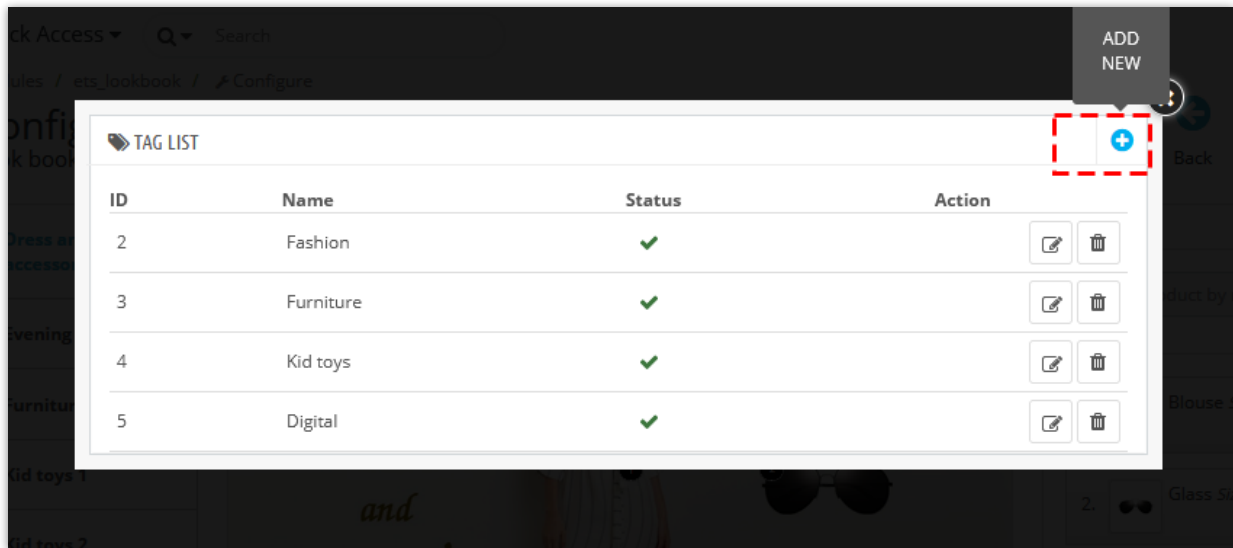

From there, when a customer clicks to view any look book, the related products will be displayed on the right of the look book on the front office in the correct order number that you added in the back office. In this way, your customers can see and buy products in sets easily without having to search for each product separately.

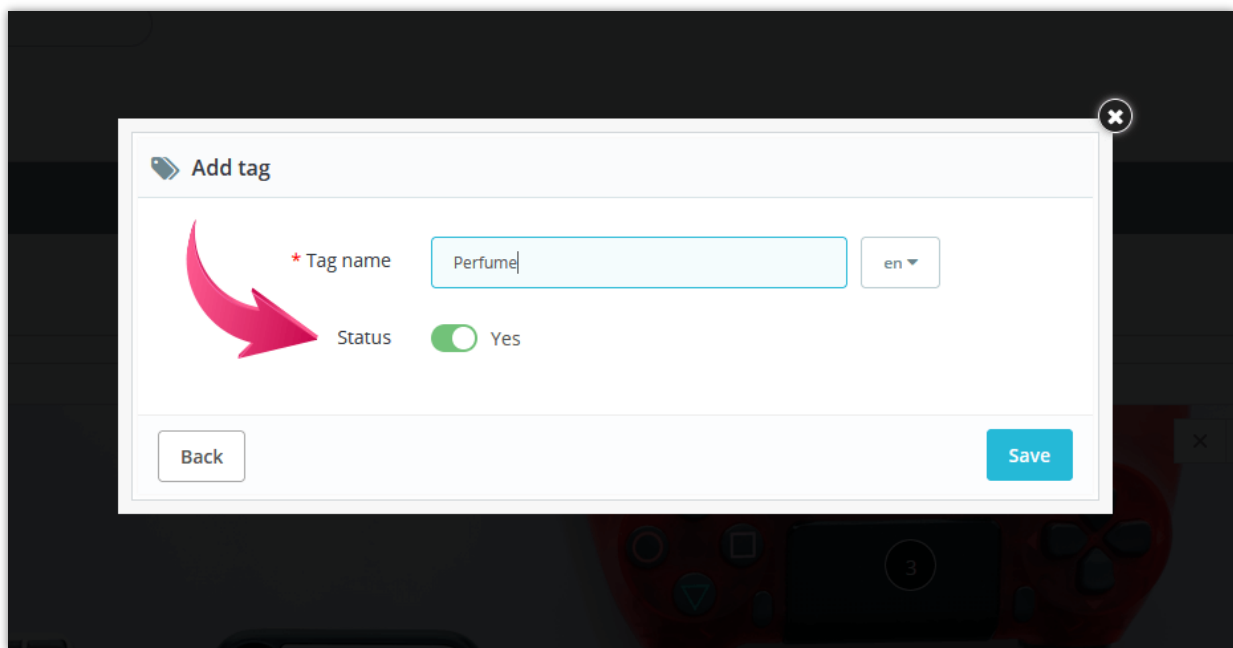

3. Create a new tag

This module allows you to assign tags for the lookbook. Here is the way to add a new tag:

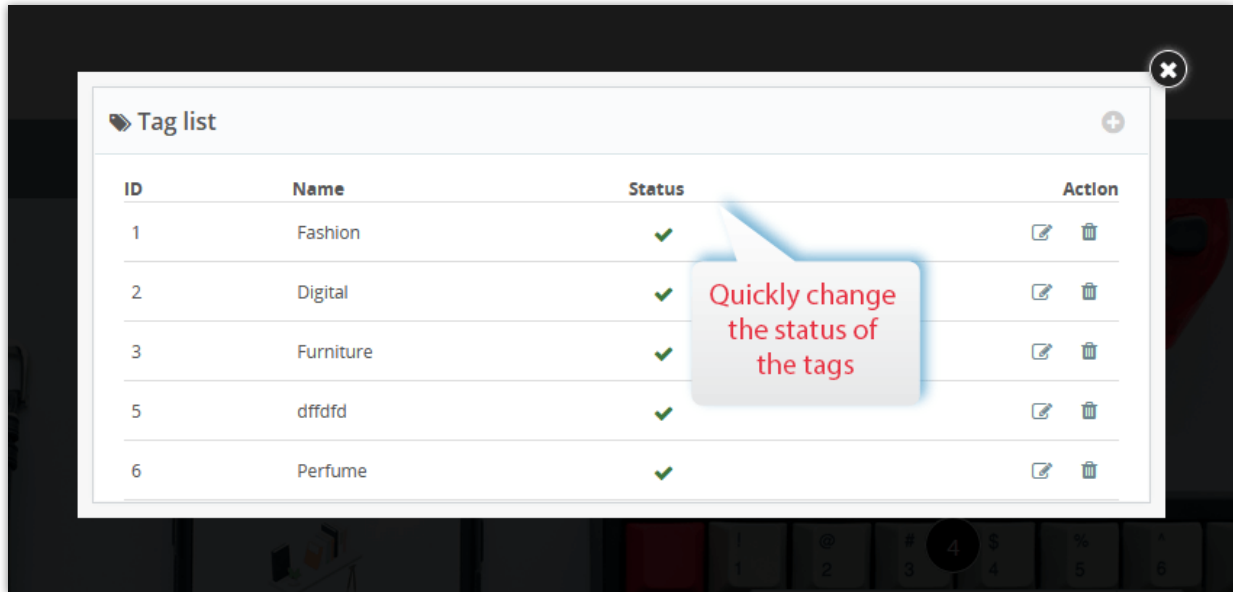

- Click on the **"Tag Manager"** on the module configuration page.
- On the **"Tag list"** popup, click on **"Add new"** icon to add a new tag.

- Fill in the **"Tag name"** field with multiple languages.
- Enable the **"Status"** option and save.

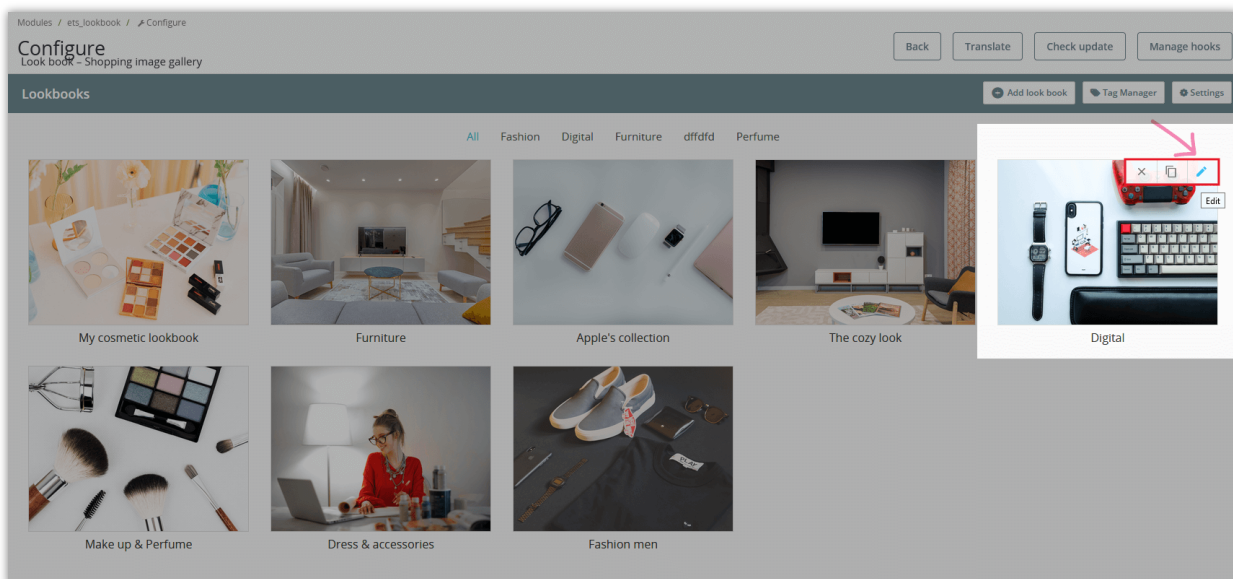

Besides, when you open **"Tag Manager"**, you can edit or delete tags by clicking on the icon of the action you want, you also can quickly change the status of the tags on the tag list.

4. Assign tags for a lookbook

After adding new tags, if you want to assign tags to a specific lookbook, you can click on the **"Edit"** icon of that lookbook on the configuration page and scroll down to the **"Tag"** option
=> select one or several tags then click **"Save"**.

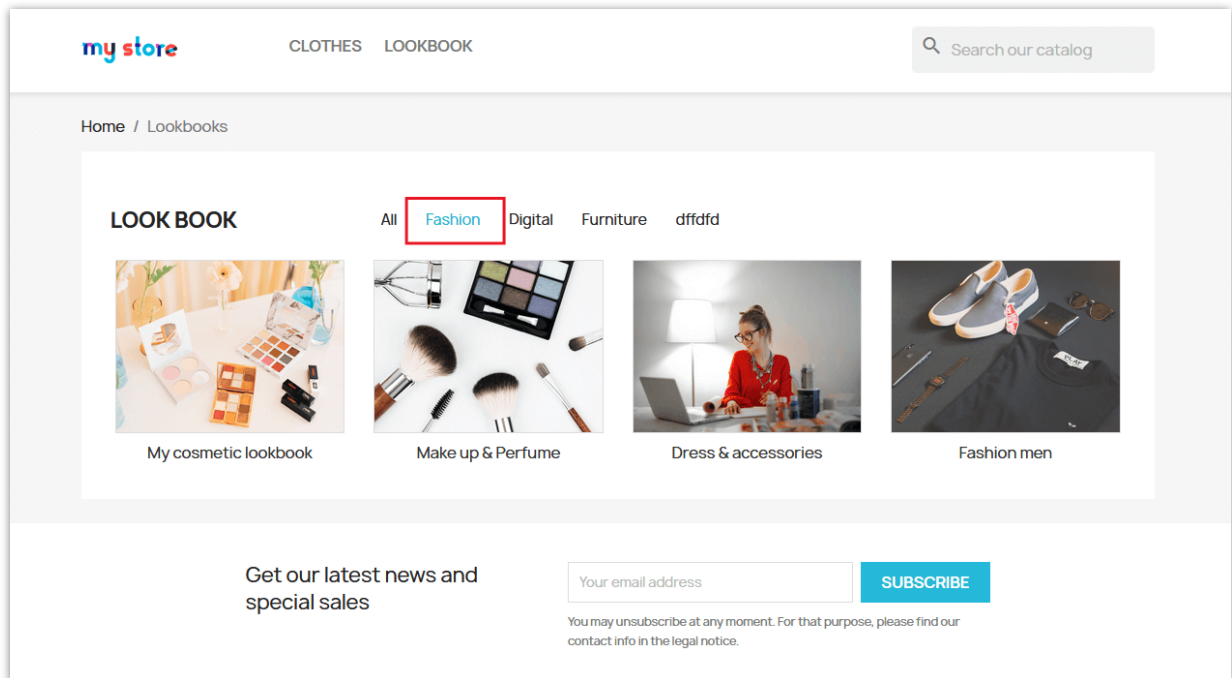

You also can choose pre-added tags or you can quickly create new tags by clicking "**Click here**" then follow the same steps as when adding a new tag above.

The screenshot shows the 'Edit lookbook' form with the following fields and elements:

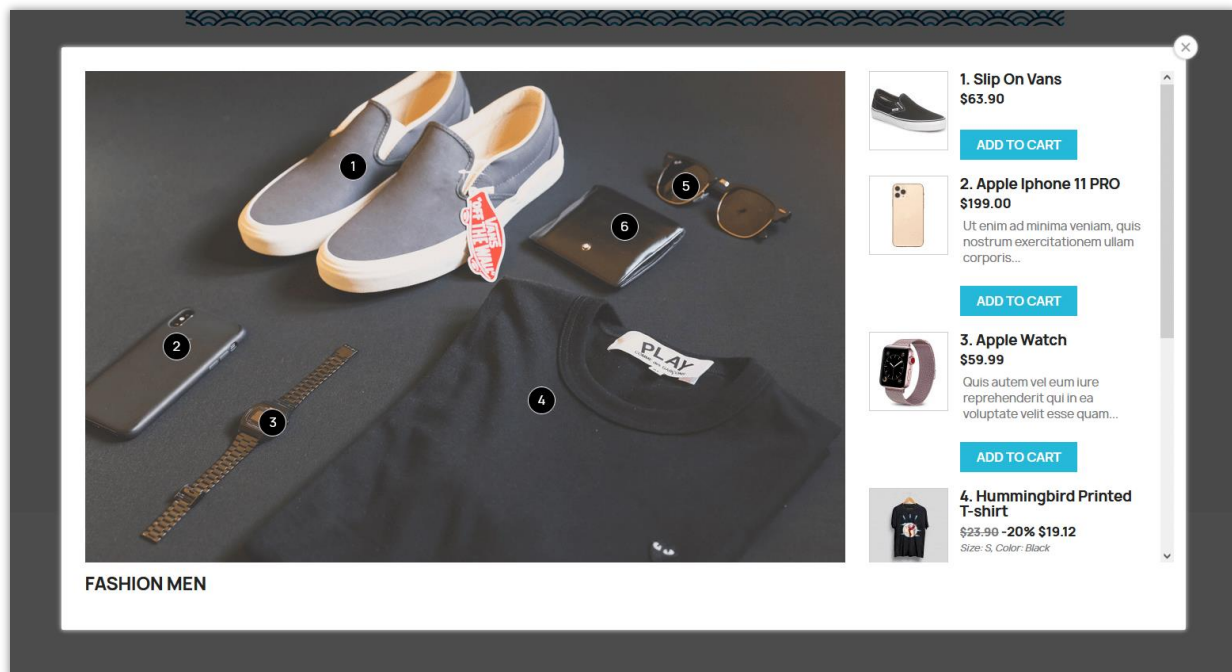

- Name:** A text input field containing 'Digital' and a language dropdown menu set to 'en'.
- Description:** A text input field and a language dropdown menu set to 'en'.
- Rewrite URL:** A text input field containing 'digital' and a language dropdown menu set to 'en'. Below it, the URL <https://demo2.ets-demos.com/lookbook/en/lookbook/5-digital> is displayed.
- Meta title:** A text input field and a language dropdown menu set to 'en'.
- Meta description:** A text input field and a language dropdown menu set to 'en'.
- Image:** A file upload area with an 'Add file' button. Below it, the text 'Accepted formats: jpg, jpeg, png, gif. Limit: 8Mb. Recommended size: 960x620.' is shown.
- Uploaded image:** A preview of the uploaded image showing a smartphone, a watch, a game controller, and a keyboard. A callout bubble points to the image with the text: 'Select one or several tags you want to add'.
- Tag:** A dropdown menu showing a list of tags: 'Fashion', 'Digital' (highlighted), 'Furniture', and 'dffd'. A callout bubble points to the dropdown with the text: 'Click here to quickly open "Tag list" popup and create a new tag'.
- Enabled:** A toggle switch that is currently turned on.
- Save:** A blue button at the bottom right of the form.

Lookbooks with the same tag will be displayed in one tab. For example, 2 lookbooks with the same "**Fashion**" tag are displayed on the "**Fashion**" tab as below:

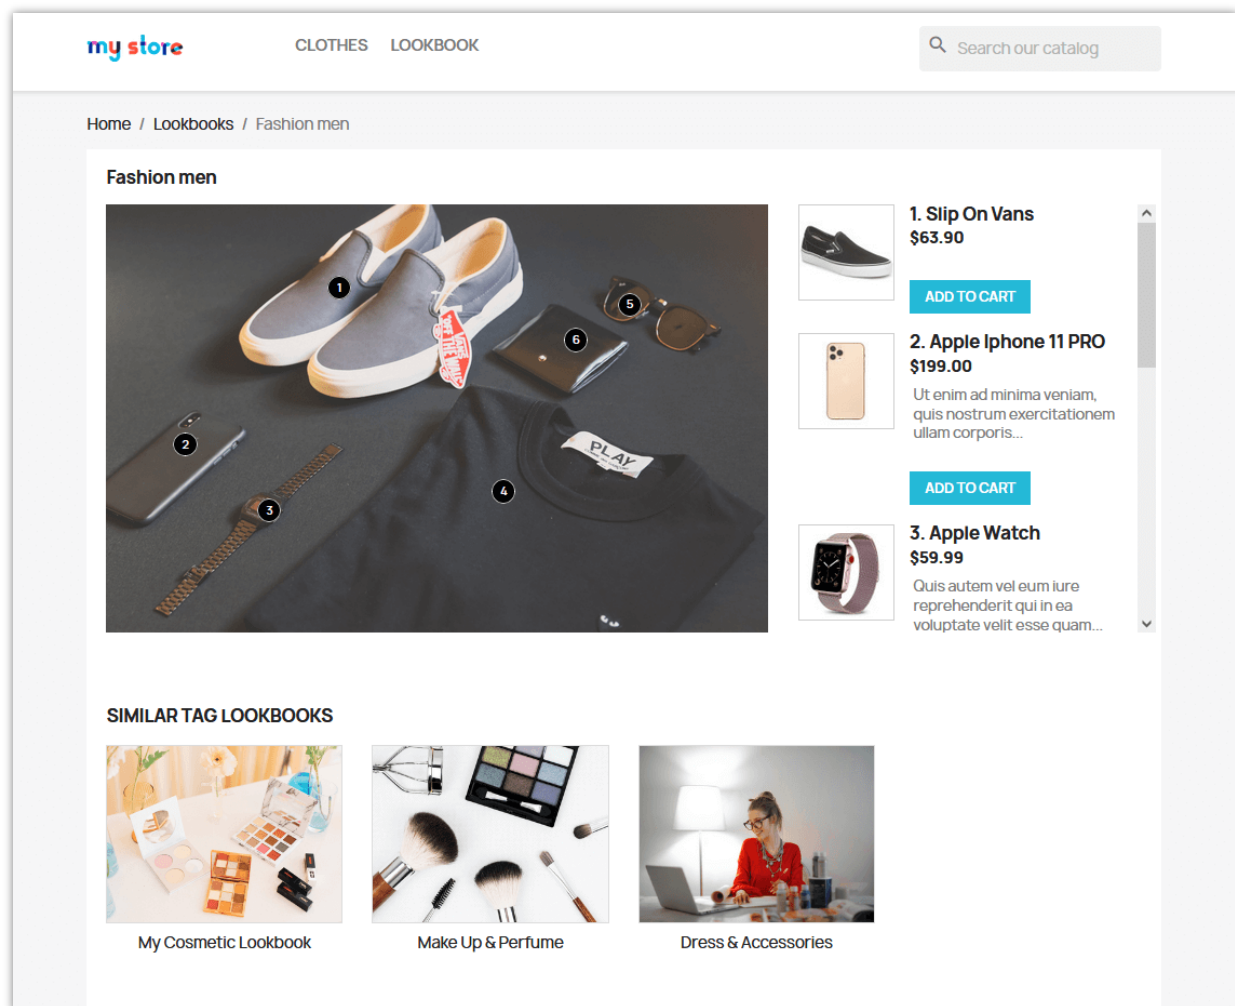

5. Lookbook detail display

When customers click on a specific lookbook to view more, lookbook detail will be displayed on a popup if you enable **“Open lookbook on popup”** on general settings.

Display look book detail in a separate page by disable the option “**Open look book on popup**” on general settings.

IV. THANK YOU

Thank you again for purchasing our product and going through this documentation. We hope this document is helpful and efficient in the installation and usage of **Lookbook – Shopping image gallery** module. If you do have any questions for which the answer is not available in this document, please feel free to contact us.
