I. INTRODUCTION

Pretty Menu is a visual, drag-and-drop, fully customizable, and responsive menu builder for PrestaShop. This module supports different content types for menu and enables you to create an amazing mobile menu with a smooth browsing experience.

*"Pretty Menu" is compatible with PrestaShop 1.6.x, 1.7.x and PrestaShop 8.x

II. INSTALLATION

- Navigate to "Modules / Modules Manager" > click on "Upload a module / Select file".
- Select the module file "ets_prettymenu.zip" from your computer then click on
 "Open" to install.
- Click on **"Configure"** button of the module you just installed to open the module's configuration page.

III. CONFIGURATION

1. Pretty Menu's interface

From your installed module list (Located at "**Modules/Modules Manager/Installed modules**"), find "**Pretty Menu**" then click on the "**Configure**" button to open it. You will see the workspace used for creating a new menu with the live editor, manage menu elements, change menu layout, color, font, background, etc. as you wish. We can divide the interface of this module into 3 main components: sidebar, status bar, and menu window. Let's have a look at its interface.

1.1. Side bar

- Menus: display your menu in "Edit mode".
- Fonts: select a font and customize font size for specific menu elements.
- Colors: select color for specific menu elements.
- Transition: select a transition effect for your menu.
- Mobile: select a display mode for your mobile menu.
- Settings: general setting options for your menu.

1.2. Status bar

- Edit mode: live edit your menu.
- Preview mode: see how your menu will appear in the front office.
- Publish: all the changes you made in this mode will be directly applied to your menu.

- Unpublish: all the changes you made in this mode will not appear in the front office. Your site's default menu will appear in the front office instead.
- Desktop | Mobile: view how your menu will display on a desktop device or mobile device.
- Light mode/Dark mode: change the background screen to a light/dark color depending on your interests and your habits.

1.3. Menu window:

Display the menu you're working on.

2. Add a new menu

Pretty Menu enables you to build both horizontal menu and vertical menu on your PrestaShop store.

In this section, we will guide you on how to add a new menu to your online store. We have optimized **Pretty Menu** with a user-friendly interface to help you easily create an eyecatching mega menu.

Step 1: From **Pretty Menu** module's menu window, click on **"Add menu"** button.

Step 2: On "Add menu" pop up, select the menu you want to add.

"Mega menu templates" and **"Tab menu templates"** provide 6 pre-made mega menu templates with demo data for each horizontal menu and vertical menu. You can select the pre-made mega menu and then customize it as you want.

"Blank mega menu" and **"Tab blank menu"** also have 6 menu templates for each horizontal menu and vertical menu for you to choose and edit.

2. Sticky menu

When the user scrolls down, the sticky menu still is on the top of the page if you enable the sticky menu. You can find and change all setting options related to the sticky menu as you want here.

3. Other settings

You also can customize menu height, width, count down animation type, or choose to display shopping cart, search box, user links, etc on the main menu.

4. Import/Export

For convenience as well as risk prevention, we have built this module and allow you to import/export your entire menu content in one click. This is an advanced, unique feature in **Pretty Menu** which helps you to easily backup or transfer menu content when required.

Click on "import menu/export menu " to import or export your menu content.

VI. THANK YOU
