I. WELCOME

Thank you for purchasing our product. We hope to guide you through all the aspects of the module installation and the module setup within this document. If you have any questions that are beyond the scope of this documentation, please feel free to contact us.

***Note:**

All instruction screenshots are taken from PrestaShop 1.7, but installing and configuring this module on PrestaShop 1.5 and 1.6 is similar.

II. INTRODUCTION

Why should you add PrestaShop social login module to your store?

Increase registrations: according to a Web Hosting Buzz survey: 86% of users report being bothered by having to create new accounts on websites. Some of these users would rather leave your site than register, which means that providing social login to your PrestaShop store will increase the number of registrations to your website.

Email is verified: The social network provider is in charge of verifying the user's email. If the provider shares this information, you will get a real email address rather than the fake addresses that some users typically use to register in web applications. Additionally, the providers will handle the password recovery process.

Access richer user profiles: Social network providers can give you additional information about users, such as location, interests, birthday, and more. Using this data, you can target personalized content to the user.

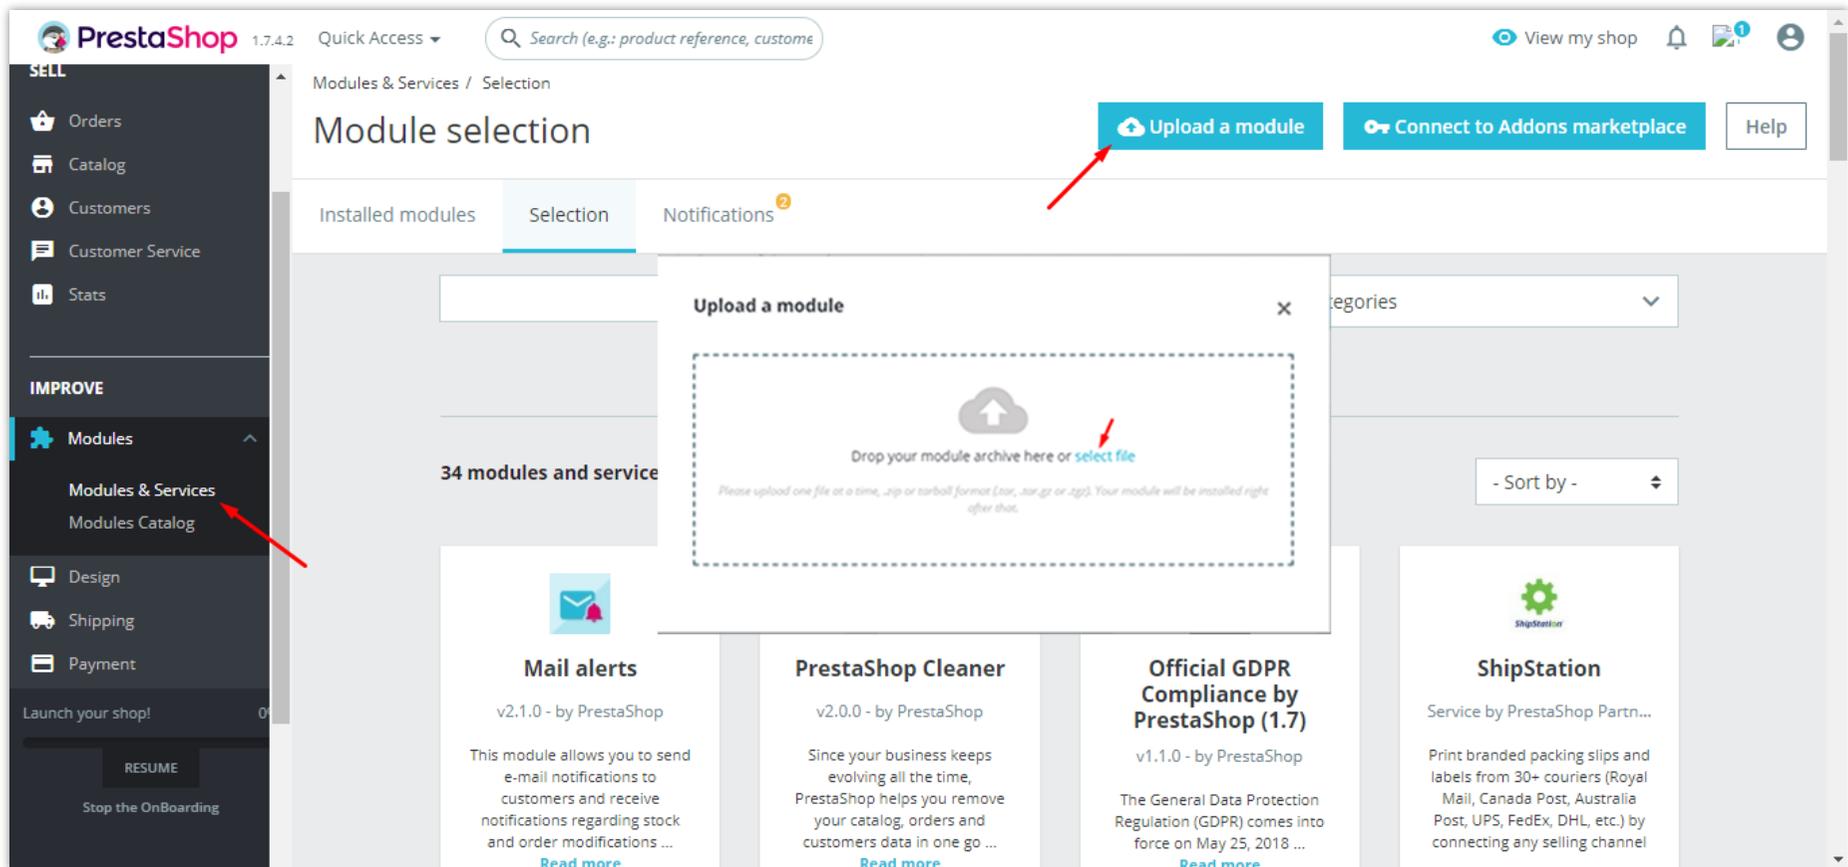

One-click return experience: After users register in your store using social login, their return experience will be very simple, as they will probably be logged into the social network, and just one click will be enough to login to your PrestaShop website.

With all these advantages, don't hesitate to purchase and install our PrestaShop login module – **SOCIAL LOGIN** to your website!

* **"SOCIAL LOGIN"** is compatible with PrestaShop 1.5.x, 1.6.x, 1.7.x and PrestaShop 8.x

III. INSTALLATION

1. Navigate to **"Modules / Modules & Services"**, click on **"Upload a module / Select file"**

2. Select the module file **“ets_sociallogin.zip”** from your computer then click on **“Open”** to install
- ❖ Click on **“Configure”** button of the module you just installed to open the module’s configuration page.

IV. CONFIGURATION

From your installed module list (Located at “**Modules/Modules & services/Installed modules**”), find “**SOCIAL LOGIN**” then click on the “**Configure**” button to open its configuration page.

From **Configuration** page, you will see these tabs below which will be used to manage **Social Login** module:

- ❖ Dashboard
- ❖ Positions
- ❖ Statistics
- ❖ Settings
- ❖ Social networks
- ❖ Discounts
- ❖ Social users

1. Social networks

Firstly, you will need to configure the social networks you want to associate with your PrestaShop store.

Click on the network icons to start configuring your preferred networks. **SOCIAL LOGIN** supports these following social networks:

- Amazon
- PayPal
- Facebook
- Google
- Twitter
- Tumblr

- Pinterest
- LinkedIn
- Yahoo
- Windows Live
- Dropbox
- WordPress
- Reddit
- Yandex
- Dribbble
- Foursquare
- Odnoklassniki
- Weibo
- Vimeo
- Mailru
- Vkontakte
- PixelPin
- Meetup
- Discord
- Disqus
- Line
- Blizzard
- GitHub
- GitLab
- BitBucket
- StackExchange

After choosing a network, you will have to fill in API key pairs for each social network. It consists of **Application ID** key and **Application Secret** key.

2.2. Login page

Similar to registration page, you can also modify how login buttons will appear on login page.

The screenshot shows a configuration interface for a login page. On the left is a sidebar with various page settings, each with a toggle switch:

- Registration page - on top: On
- Registration page - on bottom: On
- Login page: On
- My account login widget: On
- Side login widget: On
- Header - top navigation: Off
- Header - main header: Off
- Product page - additional info section: Off
- Product page - below product images: Off
- Product page - column right: Off
- Product page - column left: Off
- Checkout page: Off

The main configuration area is titled "LOGIN PAGE" and contains the following settings:

- Login button type: Icon and social network nam
- Border: Rounded
- Button Size: Medium (30px)
- Hide on mobile: YES (selected), NO
- Login title: Log in with social account (language: en)
- Additional description: (empty field, language: en)
- Social networks to use: All networks, Amazon, Paypal, Facebook

On the right is a preview area titled "PREVIEW LOGIN BUTTONS" showing a "LOG IN WITH SOCIAL ACCOUNT" section with buttons for Facebook, Google, Twitter, LinkedIn, Tumblr, Paypal, Amazon, and Pinterest. A note below the buttons reads: "* Drag & drop the social icons to change their order on the front office".

2.3. My account login widget

You can allow your customers to use the “My account” login widget. If a customer hovers his/her mouse over “Sign in” button on the top navigation or click at the “Sign in” button, a login widget will appear. He/she can login or register a new account using either social account or PrestaShop normal account with email address and password.

2.4. Side login widget

Your customers can also use the side login widget by clicking on the sticky sign in button appeared on left or right screen. You can adjust the appearance of this sticky “Sign in” button.

The image shows a configuration interface for a 'SIDE LOGIN WIDGET' on the left and a preview of the widget on the right.

SIDE LOGIN WIDGET Configuration:

- Login button type: Icon and social network name
- Border: Rounded
- Button Size: Medium (30px)
- Hide on mobile: YES (selected), NO
- Sticky sign in button background color: #2fb5d2
- Sticky sign in button hover color: #2592a9
- Sticky sign in button text color: #ffffff
- Widget position: Left, Right
- Open widget type: Hover on "Sign In" to open login widget, Click on "Sign in" to open login widget (Open login popup)
- Login title: Log in with social account
- Additional description: (empty)
- Social networks to use: All networks, Amazon, Paypal, Facebook

Preview of the Side Login Widget:

The preview shows a vertical sidebar with a 'Sign In' button at the top, highlighted with a red dashed box. Below it are social login options under the heading 'LOG IN WITH SOCIAL ACCOUNT':

- Log in with Facebook
- Log in with Google
- Log in with Twitter
- Log in with LinkedIn
- Log in with Tumblr
- Log in with Paypal
- Log in with Amazon
- Log in with Pinterest

Below the social login options is an 'OR' separator, followed by input fields for 'Enter your email...' and 'Enter your password...', a 'LOGIN' button, and links for 'Forgot your password?' and 'No account? Create one here'.

2.5. Header

You can display social login buttons on the top navigation or on the main header.

The image shows a configuration panel for the 'HEADER - MAIN HEADER' and its corresponding live preview on a website.

Configuration Panel:

- Login button type:** Image icon
- Hide on mobile:** YES NO
- Login title:** Log in with social account
- Additional description:** (empty field)
- Social networks to use:** All networks, Amazon, Paypal, Facebook

Live Preview:

- Text: **Log in with social account**
- Icons: Facebook, Google+, Twitter, Instagram, Tumblr, Pinterest, Amazon, and a red Pinterest icon.
- Navigation: Contact us, English, Currency: USD \$, Sign in, Cart (0)
- Footer: my store, CLOTHES, ACCESSORIES, ART, BLOG, INSTAGRAM, Search our catalog

A purple arrow points from the configuration panel to the social login buttons in the live preview.

2.6. Product page

SOCIAL LOGIN allows you to display social login buttons on 4 positions of product page:

- ❖ Additional info section

The image shows a product page editor interface. On the left, a configuration panel titled 'PRODUCT PAGE - ADDITIONAL INFO SECTION' is open. It contains the following settings:

- Login button type: Icon and social network nam
- Border: Rounded
- Button Size: Medium (30px)
- Hide on mobile: YES (selected), NO
- Login title: Log in with social account
- Additional description: (empty text area)
- Social networks to use: All networks, Amazon, Paypal, Facebook

On the right, the live product page is shown for 'HUMMINGBIRD PRINTED T-SHIRT'. The page includes a product image of a white t-shirt with a hummingbird graphic, a price of \$23.99 (discounted to \$19.12, 20% off), and an 'ADD TO CART' button. Below the product image, there is a 'Log in with social account' section highlighted with a red dashed box, containing buttons for Facebook, Google, Twitter, LinkedIn, Tumblr, Paypal, Amazon, and Pinterest. At the bottom of the page, there are links for Security policy, Delivery policy, and Return policy, all of which can be edited with the Customer Reassurance module.

3. Discount

Encourage your customers to connect their social network accounts with your PrestaShop store by giving them a discount code after they successfully registering or logging in. With **SOCIAL LOGIN**, you can turn on and use this feature to automatically create voucher/discount code.

❖ Discount code

There are 2 types of discount code you can create: fixed code or automatically generate.

- If you select “Fixed discount code”, you can enter one of the discount code existed in your PrestaShop store. (To see the discount codes, please navigate to **Catalog > Discounts**)

The screenshot shows a configuration box for discount options. It contains two radio buttons under the heading "Discount options": "Fixed discount code" (which is selected) and "Generate discount code automatically". Below this, there is a red asterisk followed by the label "Discount code" and a text input field containing the value "CDRER9I2".

- Or if you don't want to reuse any discount code, let **SOCIAL LOGIN** produce them for you.

Discount options Fixed discount code
 Generate discount code automatically

Free shipping YES NO

Apply a discount Percent (%)
 Amount
 ~~None~~

* Amount

* Discount availability day(s)

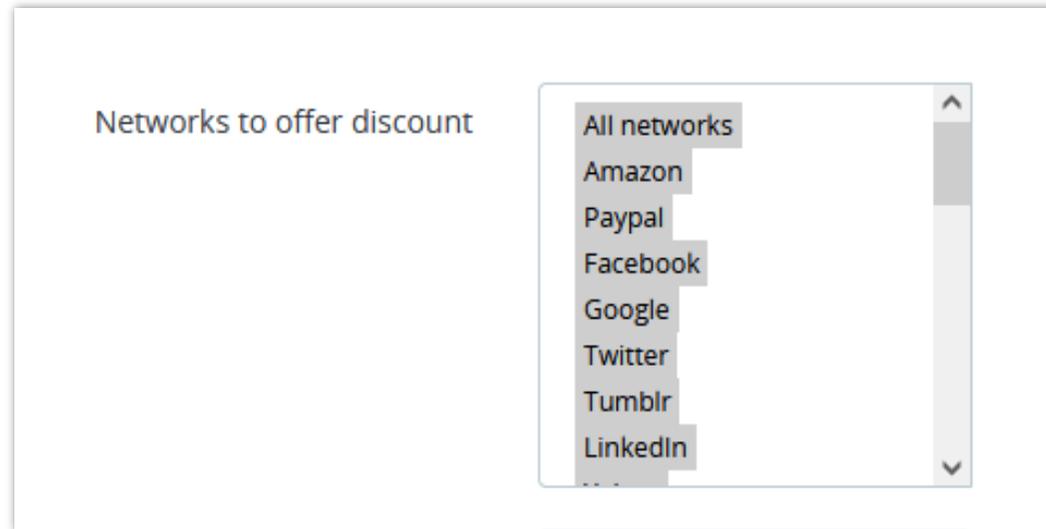

Discount prefix

* Voucher description

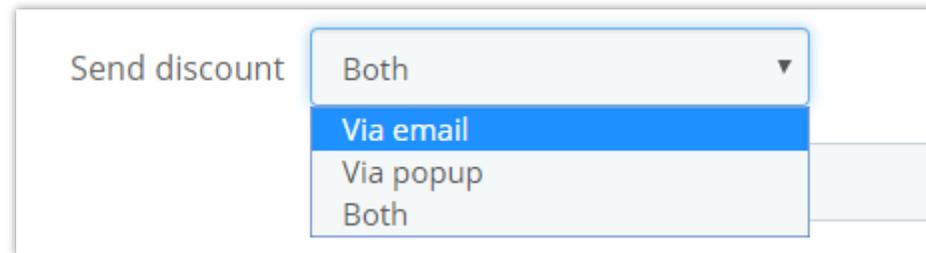

You can apply a discount by percent (it does not apply to the shipping costs), by amount (in USD, include or exclude tax) or nothing. You can also set the availability for your discount code (by default, it will be 30 days), customize discount prefix and the voucher description.

❖ **How to send discount code**

- The first step is selecting the network by which your customers can receive discount code when register or login. You can pick the entire social networks or some of them.

- Next, decide to send discount code via email, pop-up notification or both.

Whichever you choose, **SOCIAL LOGIN** also enables you to adjust the email subject/pop-up title and its content.

Email subject: Here is your discount!

Email content:

Congratulations! You get our discount.

 Thanks for registering to our website. We'd like to give you a discount code for your next order on the website.

[discount_code]

 Enter the discount code when you checkout to get **[percentage]** off for your next order.

 The discount only available **[available_from]** to **[available_to]**.

Shortcodes: [discount_code] , [available_from] , [available_to] , [percentage] , [amount]

Popup title: You get discounted for your next order

Popup content:

Congratulations! You get our discount.

 Thanks for registering to our website. We'd like to give you a discount code for your next order on the website.

[discount_code]

 Enter the discount code when you checkout to get **[percentage]** off for your next order.

 The discount only available **[available_from]** to **[available_to]**.

Shortcodes: [discount_code] , [available_from] , [available_to] , [percentage] , [amount]

Finally, click **“Save”** button to complete your settings.

4. Statistics

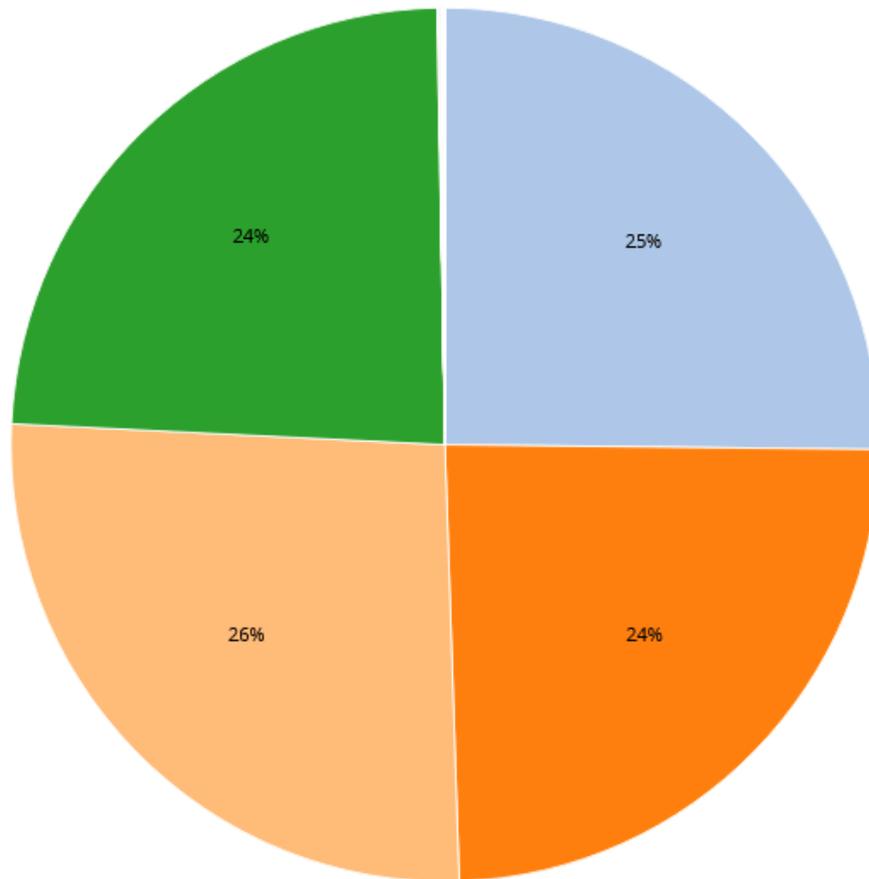

- ❖ Traffic change chart: **SOCIAL LOGIN** offers you the statistical data about the number of customer logs in/registers into your PrestaShop store by each kind of social network.

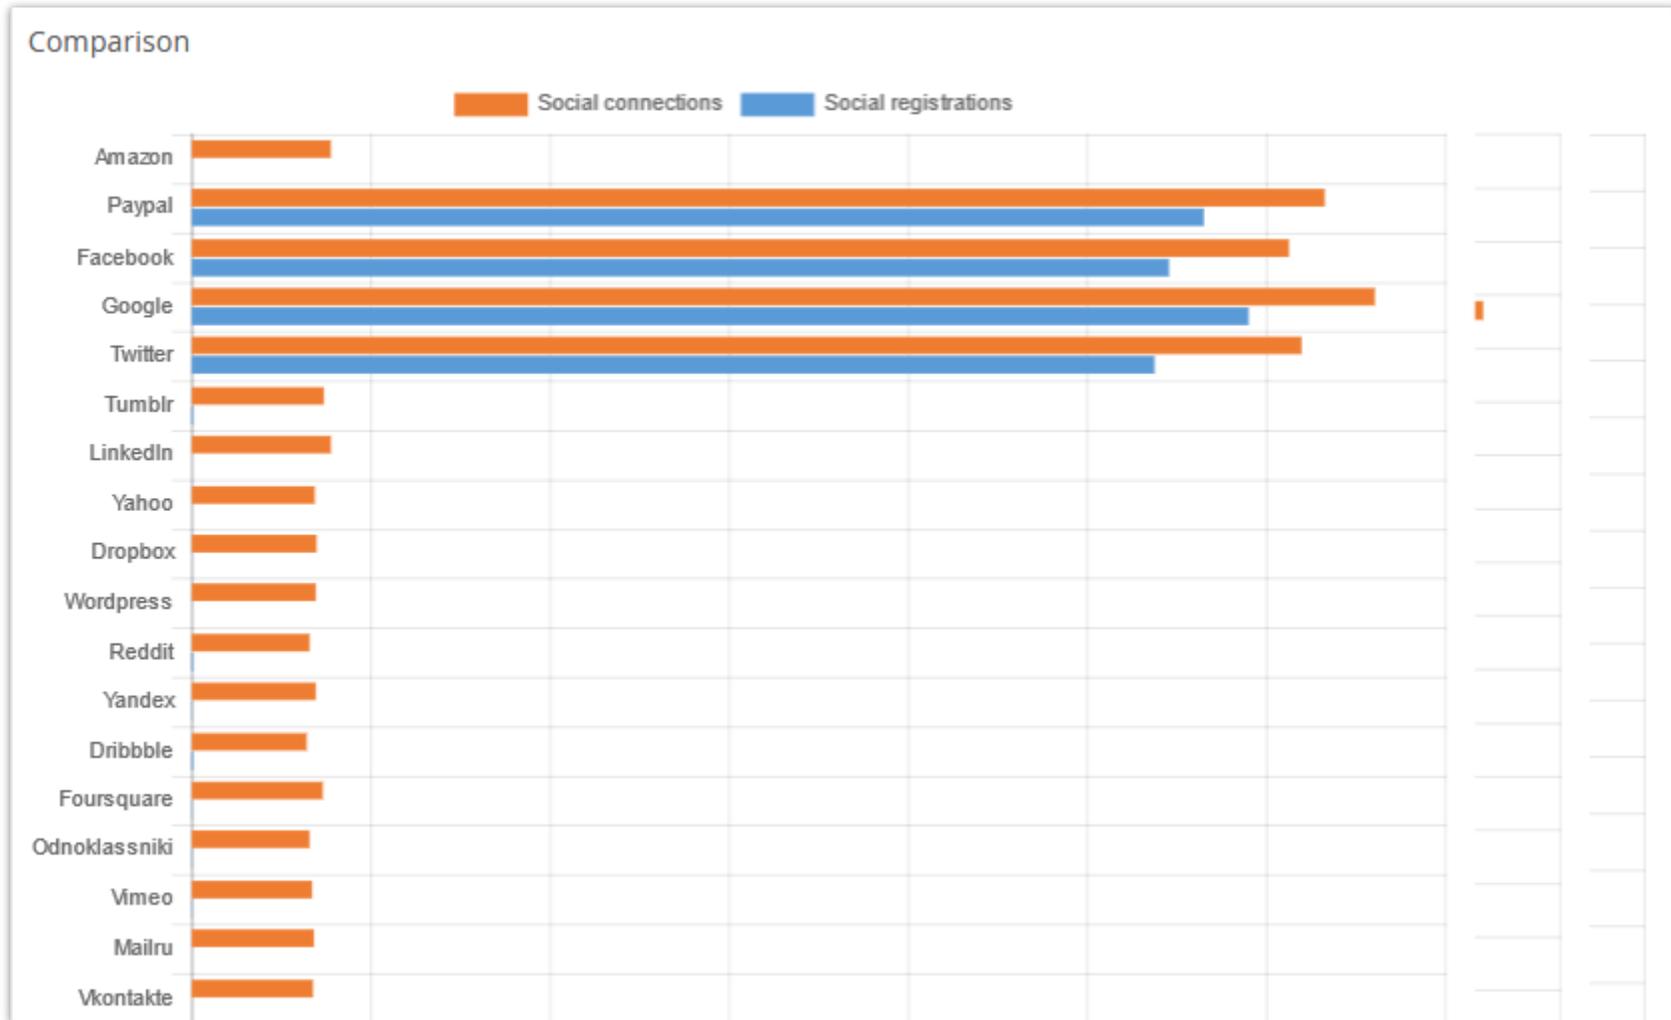

❖ Traffic ratio chart: the rate of social network which customer uses for logging in or registering.

Traffic ratio chart

- Amazon
- Paypal

6. Settings

❖ Customer groups

When a customer registers to your PrestaShop store using social network account, you can assign this person to 1 of these following group: visitor, guest and customer.

❖ **Enable “Social network” menu in my account page**

Turn on this option to allow your customers to see their social network connection status. On the “My Account” page, your customer will see a new area:

They can check their social network info:

my store Search our catalog

Home / My account / Social networks

Your social networks

Social network	Last login time	Status
 Google	2023-02-08 at 21:52:29	✓
 GitLab	2021-07-13 at 03:48:53	✓
 Facebook	Never connected	✓
 Twitter	Never connected	✓
 LinkedIn	Never connected	✓

❖ **Send password to customer**

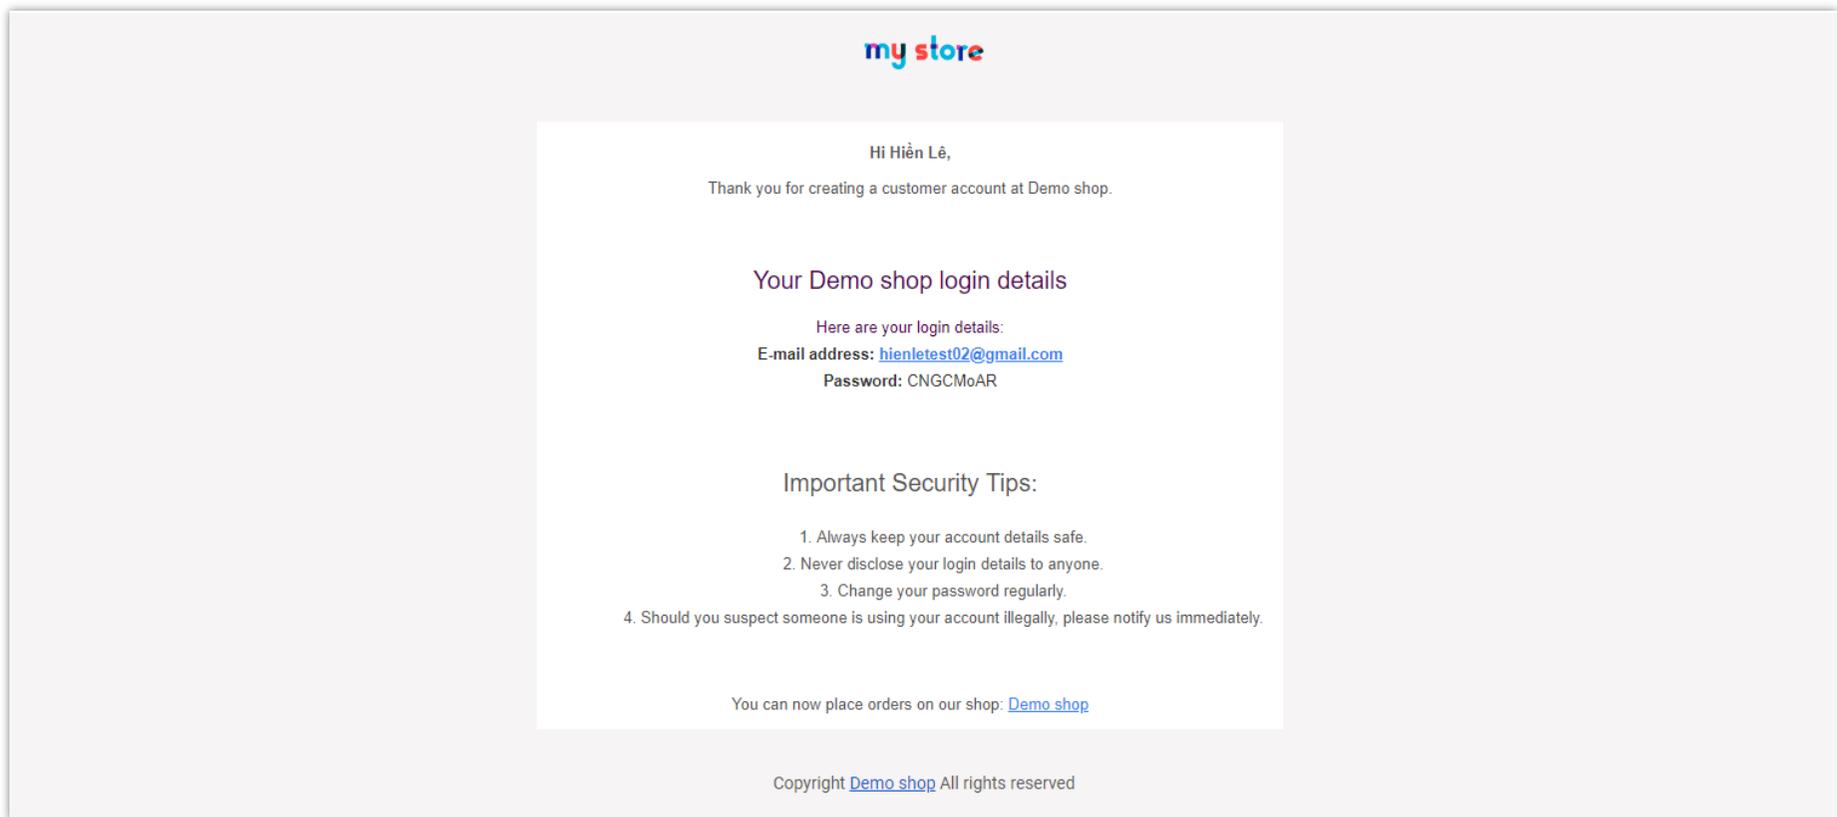

When a customer register a new account or login with his/her social network account, **SOCIAL LOGIN** will send him/her a notification email with information about his/her login detail.

Send password to customer

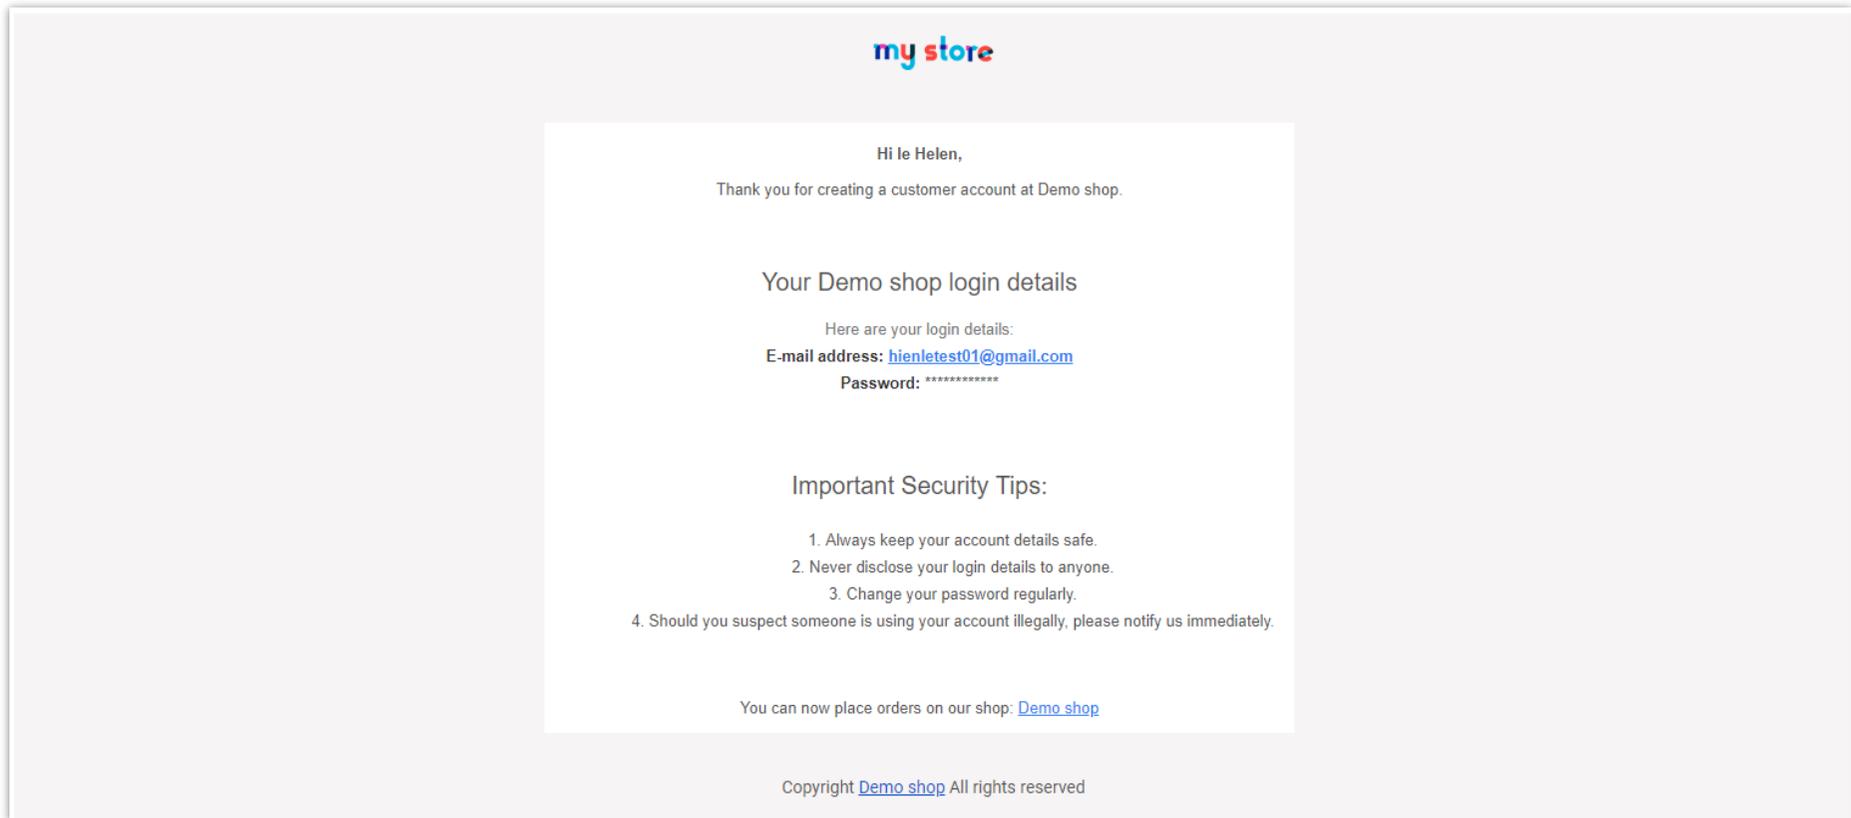

YES

NO

If you enable this option, your customers will receive an email with their email address and visible password as you can see on the below picture:

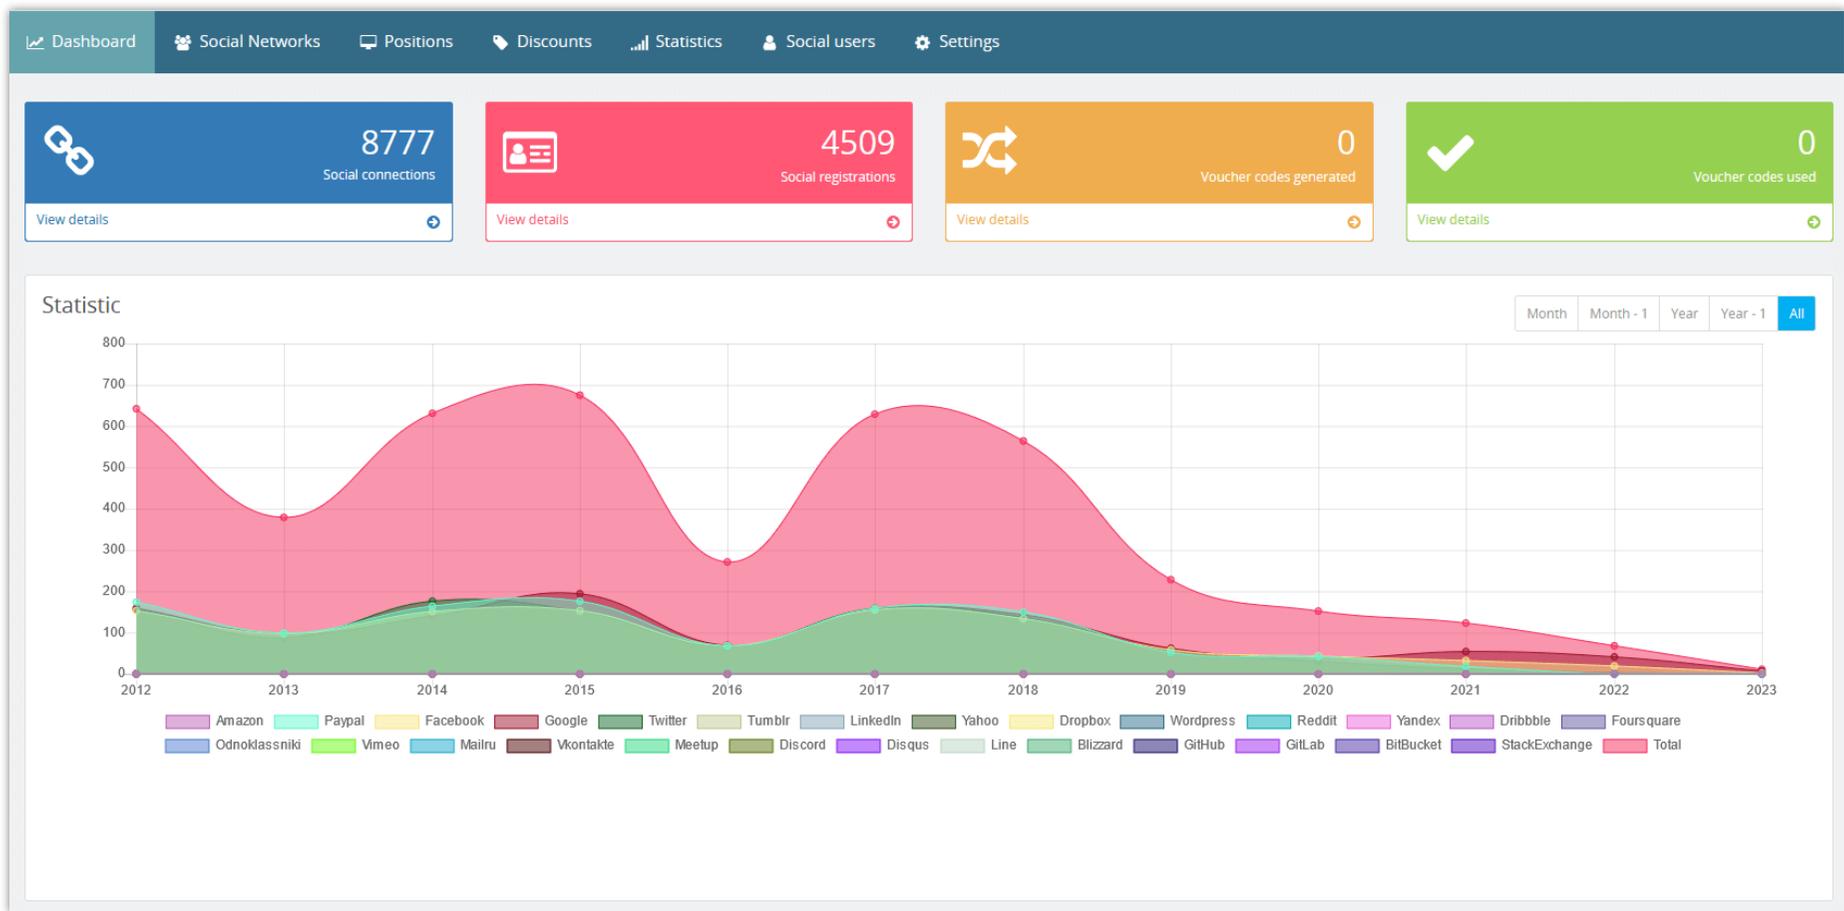

If you disable this option, your customers will still receive a notification email but the password is hidden.

7. Dashboard

To help you have an overview about **SOCIAL LOGIN** activities, this module dashboard is divided into 3 parts.

❖ Part 1: Statistic chart

❖ Part 2: Each social network's connection and registered number

 140 CONNECTIONS 0 REGISTERED	 139 CONNECTIONS 0 REGISTERED	 132 CONNECTIONS 2 REGISTERED	 139 CONNECTIONS 1 REGISTERED
