I.	INTRODUCTION	3

I. INTRODUCTION

Products on CMS or anywhere is a free PrestaShop module that allows you to display selected products on CMS pages, product description, or .tpl file using short code.

*"**Product on CMS or anywhere**" is compatible with PrestaShop 1.7.x

II. INSTALLATION

- Navigate to "Modules / Modules Manager" > click on "Upload a module / Select file".
- Select the module file "ph_products_cms.zip" from your computer then click on "Open" to install.
- Click on "**Configure**" button of the module you just installed to open the module's configuration page.

III. CONFIGURATION

1. Add new product

From your installed module list (located at **"Modules/Module Manager"**), find **"Products on CMS or anywhere"** then click on **"Configure**" button to open its configuration page.

Products on CMS or anywhere module allows you to add an unlimited number of products on the CMS page or anywhere you want using short code. Clicking the "+" button to start adding a new product.

• As I said above, you can display products anywhere by pasting the short code into the .tpl file. For example, on check out page:

2. General settings

Let go back to the module configuration page. After adding some new products, we can search, quickly edit, manage them from the product list on the configuration page.

From there, you can easily search a group product by ID, title. Besides, you can also sort them from A-Z, from small to large or vice versa.
