I. Introduction

Is your Prestashop store running successfully, giving you a desirable income? Having good sales in your business is great news. But have you handled all the problems that occur in your website that can drop your sales percentage little by little. A common problem is back orders, it happens when customer buys out of stock products on your website. Our **Product status update** is a free module that help you to **hide out of stock products in Prestashop** automatically.

If a customer orders a couple of out of stock products in an order, ultimately the order will be different to what they expected. And this may cause you to have back orders. To solve this issue we bring you a Prestashop module, Prestashop product status update which disable out of stock products automatically. This saves your time spent on manually checking and disabling each product from the backend. Download this module today for free and enjoy its benefits to improve the quality of your business and attract more and more customers.
