I. INTRODUCTION

Make it easier to create discount combinations or combine cart rules on PrestaShop with our advanced **PrestaShop discount combination module**!

*"**Advanced discount combination**" is compatible with PrestaShop 1.7.x and PrestaShop 8.x

II. INSTALLATION

- Navigate to "Modules / Modules Manager" > click on "Upload a module / Select file".
- Select the module file "**ets_discountcombinations.zip**" from your computer then click on "**Open**" to install.
- Click on "**Configure**" button of the module you just installed to open the module's configuration page.

III. CONFIGURATION

From your installed module list (located at **"Modules/Module Manager"**), find **"Advanced discount combination"** then click on the **"Configure**" button to open its configuration page.

On the "**Configuration**" page, you can set up global settings for all cart rules combinations that you have created. Our module provides 4 cart rule combination options. Select an option that you want to set as the default.

There are 5 options for you to quickly choose from:

- Default behavior: if you select this option, this shopping cart rule will be combined by the default that you have set on the "Configuration" page. If you want to change the default cart rule combination, click "Configure here" to be directed to the module's Configuration page and make the change you need.
- **Combinable with all cart rules:** combine this cart rule with all existing cart rules in the store.
- Not combinable with all cart rules: do not combine this cart rule with all existing cart rules in the store.
- **Only combinable with specific cart rule:** select this option when you only want to combine this cart rule with some specific cart rules quickly by searching and entering the ID, code, or name of the cart rule.
