I. WELCOME

Thank you for purchasing our product. We hope to guide you through all the aspects of the module installation and the module setup within this document. If you have any questions that are beyond the scope of this documentation, please feel free to contact us.

****Note:***

All instruction screenshots are taken from PrestaShop 1.7.5

II. INTRODUCTION

When it comes to checkout step, you will want to make the processes as convenient as possible for customers. **Payment With Fee** - PrestaShop payment fee module will let you **add extra fee/surcharge for other existing payment modules** and **create as many custom payment methods as you need** without having to install additional payment modules.

Payment With Fee is strongly **compatible with any other PrestaShop payment modules** (bank wire, cash on delivery – COD, etc.) and **all third-party payment APIs** such as PayPal, Stripe, etc. Therefore, you can be ensured that this payment fee module will work smoothly on your website allowing you to easily add extra fees to existing payment modules as well as create new payment methods with or without payment fees.

** "Payment With Fee" is compatible with PrestaShop 1.7.x and PrestaShop 8.x*

III. INSTALLATION

1. Navigate to **“Modules / Modules Manager”**, click on **“Upload a module”**
2. Select the module file **“ets_payment_with_fee.zip”** from your computer then click on **“Open”** to install
3. Click on **“Configure”** button of the module you just installed to open the module’s configuration page.

IV. CONFIGURATION

1. Set extra fee/surcharge for any existing payment method

Payment With Fee allows you to **add extra fees for existing payment methods** of your PrestaShop store, such as cash on delivery (COD), bank wire, PayPal, Stripe, etc.

Please follow the below instructions to set extra fees for existing payment methods:

Step 1: From the **Payment With Fee** module configuration page, click the cogwheels icon on the top right corner. Select the payment method you want to set the extra fee and click on the “Edit fee” button.

2. Create a new custom payment method

The **Payment With Fee** module also enables you to **create new custom payment methods with/without fees** into your online store. When creating a new custom payment method, you have all payment fee options (*fixed amount, percentage, minimum fee, maximum fee, etc.*) as when you add extra fees for other existing payment modules.

In addition, you have options to upload payment logos, select customer groups, countries, and carriers to be able to use the custom payment method, etc.

To create a new custom payment method, please follow these instructions:

Step 1: From the module backend configuration page, click on the **“Add new”** icon.

The screenshot shows the 'Configure Payment With Fee' interface. At the top right, there are buttons for 'Back', 'Translate', and 'Manage hooks'. Below these is a table titled 'Custom payment methods'. The table has columns for 'Id', 'Logo', 'Payment method name', 'Fee', 'Fee tax', 'Order status', 'Position', 'Enabled', and 'Action'. There are three rows of data. A red box and arrow point to the 'Add new' button in the top right corner of the table area.
