## I. WELCOME

Thank you for purchasing our product. We hope to guide you through all the aspects of the module installation and the module setup within this document. If you have any questions that are beyond the scope of this documentation, please feel free to contact us.

## II. INTRODUCTION

### **Why should you add PrestaShop social login module to your store?**

*Increase registrations:* according to a Web Hosting Buzz survey: 86% of users report being bothered by having to create new accounts on websites. Some of these users would rather leave your site than register, which means that providing social login to your PrestaShop store will increase the number of registrations to your website.

*Email is verified:* The social network provider is in charge of verifying the user's email. If the provider shares this information, you will get a real email address rather than the fake addresses that some users typically use to register in web applications. Additionally, the providers will handle the password recovery process.

*Access richer user profiles:* Social network providers can give you additional information about users, such as location, interests, birthday, and more. Using this data, you can target personalized content to the user.

One-click return experience: After users register in your store using social login, their return experience will be very simple, as they will probably be logged into the social network, and just one click will be enough to login to your PrestaShop website.

With all these advantages, don't hesitate to purchase and install our PrestaShop login module – **SOCIAL LOGIN** to your website!

\* **"SOCIAL LOGIN"** is compatible with PrestaShop 1.5.x, 1.6.x, 1.7.x and PrestaShop 8.x

### III. INSTALLATION

1. Navigate to **"Modules / Modules & Services"**, click on **"Upload a module / Select file"**.
2. Select the module file **"ets\_sociallogin.zip"** from your computer then click on **"Open"** to install.
3. Click on **"Configure"** button of the module you just installed to open the module's configuration page.

### IV. CONFIGURATION

From your installed module list (Located at “**Modules/Modules & services/Installed modules**”), find “**SOCIAL LOGIN**” then click on the “**Configure**” button to open its configuration page.

From **Configuration** page, you will see these tabs below which will be used to manage **Social Login** module:

- ❖ Dashboard
- ❖ Positions
- ❖ Statistics
- ❖ Settings
- ❖ Social networks
- ❖ Discounts
- ❖ Social users

## 1. Social networks

---

Firstly, you must configure the social networks you want to associate with your PrestaShop store.

Click on the network icons to start configuring your preferred networks. **SOCIAL LOGIN** supports the following social networks:

- Amazon
- PayPal
- Facebook
- Google
- X (formerly Twitter)
- Tumblr
- Pinterest
- LinkedIn
- Yahoo
- Windows Live

- Dropbox
- WordPress
- Reddit
- Yandex
- Dribbble
- Foursquare
- Odnoklassniki
- Weibo
- Vimeo
- Mailru
- TikTok
- Vkontakte
- Meetup
- Discord
- Disqus
- Line
- Battle.net (from Blizzard Entertainment)
- GitHub
- GitLab
- BitBucket
- StackExchange

After choosing a network, you need to fill in API key pairs for each social network. It consists of **Application ID** key and **Application Secret** key.

\* Application Secret   
[Where do I get this info?](#)

Return URL   
Copy and paste this Return URL to get your social network API key pair

Amazon requires that you create an external application linking your website to their API. To know how to create this application click on "Where do I get this info?" and follow steps.

Save

To check the instructions for getting these API key pairs, please navigate to our online documentation via *"Where do I get this info?"* link.

Enter your API key pairs and click **Save** to activate a network.

## 2. Positions

### 2.1. Registration page

You can place the social login buttons at the top, bottom, or both of the registration page.

The image displays two side-by-side screenshots of a registration page titled "Create an account".

**Left Screenshot:** The social login buttons are positioned at the top of the registration form, enclosed in a pink rectangular box. Below them is a "Log in with social account" section with buttons for Facebook, Google, X, LinkedIn, Tumblr, Yahoo, PayPal, and Amazon. The main registration form includes fields for Social title (Mr./Mrs.), First name, Last name, Email, Password (with a "SHOW" button), and Birthdate (MM/DD/YYYY, Optional). There are also checkboxes for "Receive offers from our partners", "Customer data privacy", "Sign up for our newsletter", and "I agree to the terms and conditions and the privacy policy". A "SAVE" button is at the bottom right.

**Right Screenshot:** The social login buttons are positioned at the bottom of the registration form, also enclosed in a pink rectangular box. The top of the form has a link "Already have an account? Log in instead!". The registration form fields and checkboxes are identical to the left screenshot. A "SAVE" button is at the bottom right.

To enable your desired position, turn on the switch next to each position. For each position on the registration page, you can adjust how to display the social login buttons.

You can drag and drop the social icons on the preview panel to change their appearance order on the front office.

**SOCIAL LOGIN** module supports 4 different types of login buttons:

- Image icon
- Flat icon
- Icon & social network name
- Icon & custom text

And 3 button sizes:

- Small (24 x 24 pixel)
- Medium (30 x 30 pixel)
- Large (45 x 45 pixel)

## 2.2. Login page

Similar to the registration page, you can also modify how login buttons will appear on the login page.

The screenshot shows a dashboard with a dark blue header containing navigation links: Dashboard, Social Networks, Positions, Discounts, Statistics, Social users, and Settings. On the left, a sidebar lists various settings, with 'Login page' selected and highlighted in blue. The main content area is titled 'Login page' and contains several configuration options:

- Login button type:** A dropdown menu set to 'Icon and social network name'.
- Border:** A dropdown menu set to 'Rounded'.
- Button Size:** A dropdown menu set to 'Medium (30px)'.
- Hide on mobile:** A toggle switch set to 'No'.
- Login title:** A text input field containing 'Log in with social account' and a language dropdown set to 'en'.
- Additional description:** A text area and a language dropdown set to 'en'.
- Social networks to use:** A list of social networks with checkboxes, including Amazon, Paypal, Facebook, Google, X, Tumblr, LinkedIn, and Yahoo.
- Style:** Radio buttons for 'Light' (selected) and 'Dark'.

On the right side, there is a 'Preview login buttons' section titled 'LOG IN WITH SOCIAL ACCOUNT'. It displays a vertical stack of social login buttons: Facebook, Google, X, LinkedIn, Tumblr, Yahoo, Paypal, and Amazon. A note at the bottom of this section reads: '\* Drag & drop the social icons to change their order on the front office'.

### 2.3. "My account" login widget

You can allow your customers to use the "My Account" login widget. If a customer hovers his/her mouse over the "Sign in" button on the top navigation or click at the "Sign in" button, a login widget will appear. He/she can log in or register a new account using either a social account or a PrestaShop normal account with an email address and password.

## 2.9. Custom hook

To use "Custom hook", copy and paste this line on the template file (.tpl file) you want to show the social login button: `{hook`

`h="displaySoLoSocialLogin"};`

The screenshot displays the configuration interface for the "Custom hook" feature. On the left, a sidebar lists various page sections with toggle switches, all of which are currently turned "On". The main configuration area is titled "Custom hook" and includes the following settings:

- Login button type:** A dropdown menu set to "Icon and social network name".
- Border:** A dropdown menu set to "Rounded".
- Button Size:** A dropdown menu set to "Medium (30px)".
- Hide on mobile:** A toggle switch set to "No".
- Login title:** A text input field containing "Log in with social account" and a language dropdown menu set to "en".
- Additional description:** A text input field and a language dropdown menu set to "en".
- Social networks to use:** A multi-select list containing "All networks", "Amazon", "Paypal", "Facebook", "Google", "X", "Tumblr", "LinkedIn", and "Yahoo".
- Style:** Radio buttons for "Light" and "Dark", with "Dark" selected.

On the right side, a "Preview login buttons" section shows a list of social login buttons under the heading "LOG IN WITH SOCIAL ACCOUNT". The buttons are for Facebook, Google, X, LinkedIn, Tumblr, Yahoo, Paypal, and Amazon. A note at the bottom of the preview section states: "\* Drag & drop the social icons to change their order on the front office".

### 3. Discount

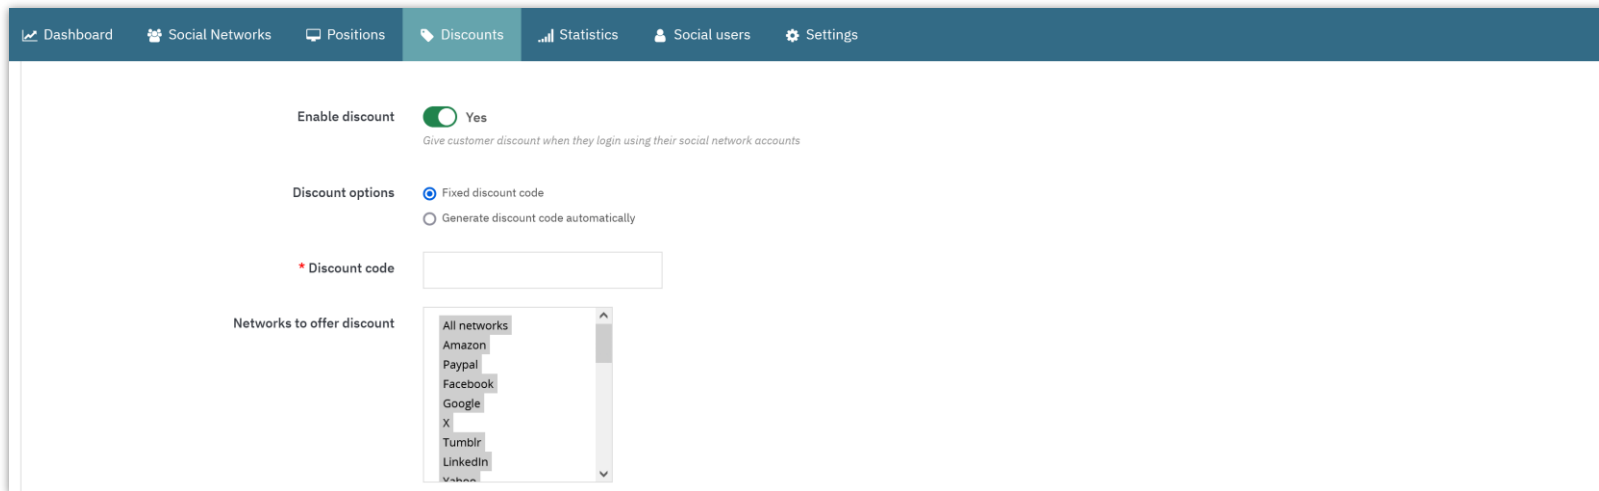

---

Encourage your customers to connect their social network accounts with your PrestaShop store by giving them a discount code after they successfully register or log in. With **SOCIAL LOGIN**, you can activate and use this feature to automatically create voucher/discount codes.

#### ❖ Discount code

There are 2 types of discount code you can create: fixed code or automatically generate.

- If you select “Fixed discount code”, you can enter one of the discount codes existed in your PrestaShop store. (To see the discount codes, please navigate to **Catalog > Discounts**)

The screenshot shows the PrestaShop administration interface for the 'Social Login' settings. The top navigation bar includes 'Dashboard', 'Social Networks', 'Positions', 'Discounts', 'Statistics', 'Social users', and 'Settings'. The 'Discounts' section is active, showing the following configuration options:

- Enable discount:** A toggle switch is turned on, labeled 'Yes'. Below it, the text reads: 'Give customer discount when they login using their social network accounts'.
- Discount options:** Two radio buttons are present. The first, 'Fixed discount code', is selected. The second, 'Generate discount code automatically', is unselected.
- \* Discount code:** A text input field is provided for entering a specific discount code.
- Networks to offer discount:** A dropdown menu is open, showing a list of social networks: 'All networks', 'Amazon', 'Paypal', 'Facebook', 'Google', 'X', 'Tumblr', 'LinkedIn', and 'Yahoo'.

- Or if you don't want to reuse any discount code, let **SOCIAL LOGIN** produce them for you.

Dashboard Social Networks Positions Discounts Statistics Social users Settings

\* Voucher description  en

You can apply a discount by percentage (it does not apply to the shipping costs), by amount (in USD, including or excluding tax), or nothing. You can also set the availability for your discount code (by default, it will be 30 days), customize the discount prefix and the voucher description.

#### ❖ How to send discount code

- The first step is selecting the network by which your customers can receive discount codes when register or login. You can pick all social networks or some of them.

- Next, decide to send a discount code via email, pop-up notification, or both.

Whichever you choose, **SOCIAL LOGIN** also enables you to adjust the email subject/pop-up title and its content.

The screenshot shows a configuration interface for social login discount notifications. It includes several sections:

- Networks to offer discount:** A dropdown menu with options: All networks, Amazon, Paypal, Facebook, Google, X, Tumblr, LinkedIn, and Yahoo.
- Send discount:** A dropdown menu with the option: Both.
- Email subject:** A text input field containing "Here is your discount!" and a language dropdown menu set to "en".
- Email content:** A rich text editor with a toolbar (bold, italic, underline, link, list, table, image, video) and a language dropdown menu set to "en". The content area contains the following text:

Thanks for registering to our website. We'd like to give you a discount code for your next order on the website.  
**[discount\_code]**  
Enter the discount code when you checkout to get **[percentage]** off for your next order.  
The discount is only available **[available\_from]** to **[available\_to]**.

Shortcodes: *[discount\_code]* , *[available\_from]* , *[available\_to]* , *[percentage]* , *[amount]*
- Popup title:** A text input field containing "Congratulations! You get our discount" and a language dropdown menu set to "en".
- Popup content:** A rich text editor with a toolbar and a language dropdown menu set to "en". The content area contains the following text:

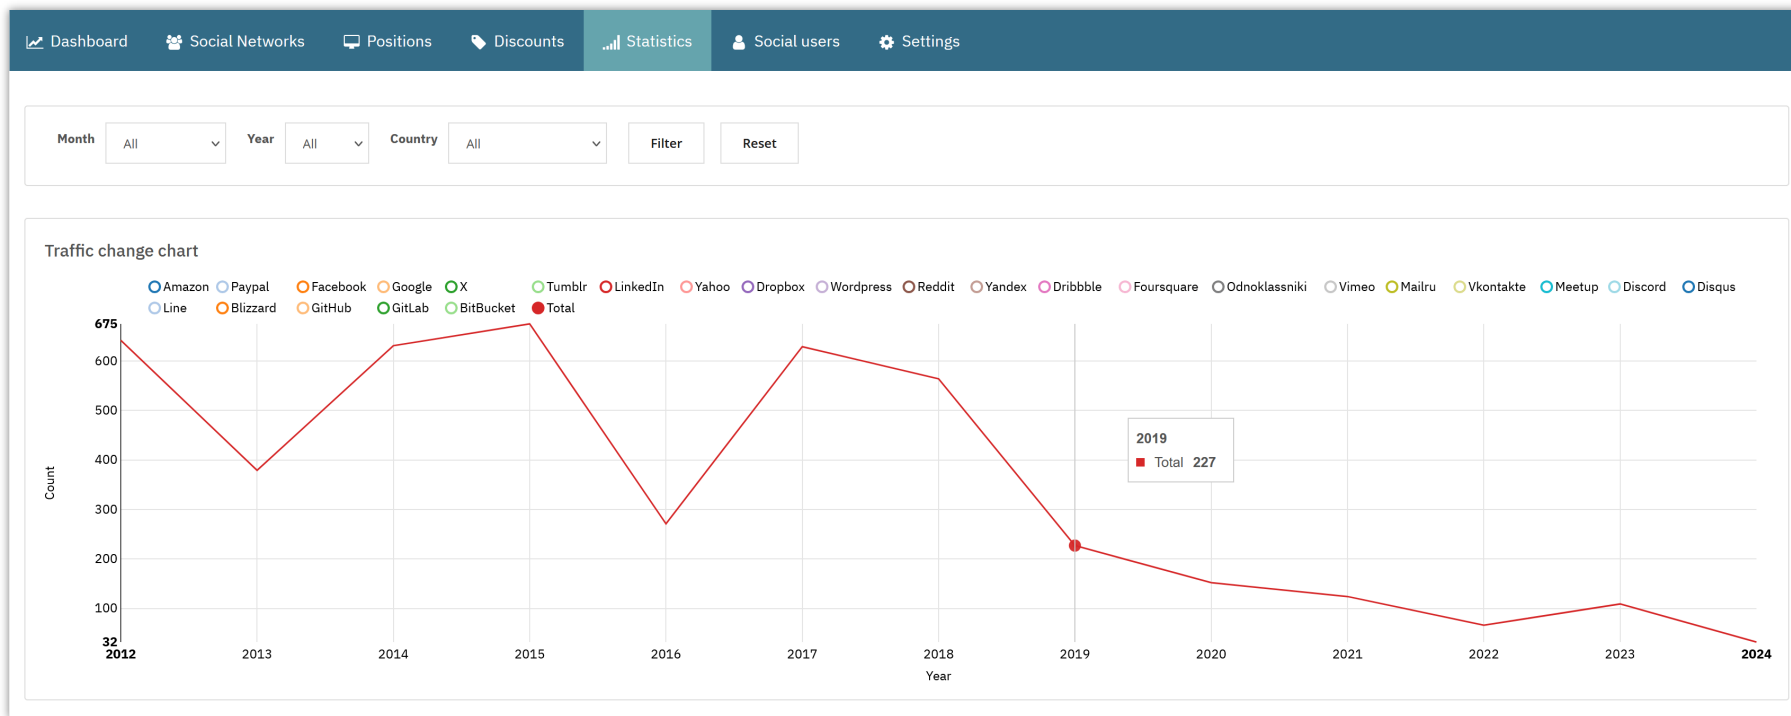

Thanks for registering to our website. We'd like to give you a discount code for your next order on the website.  
**[discount\_code]**  
Enter the discount code when you checkout to get **[percentage]** off for your next order.  
The discount is available from **[available\_from]** to **[available\_to]**.

Shortcodes: *[discount\_code]* , *[available\_from]* , *[available\_to]* , *[percentage]* , *[amount]*

Finally, click **“Save”** button to complete your settings.

## 4. Statistics

- ❖ Traffic change chart: **SOCIAL LOGIN** offers you statistical data about the number of customers who login/register into your PrestaShop store by each kind of social network.

- ❖ Traffic ratio chart: the rate of social network which customer uses for logging in or registering.
- ❖ Comparison: Compare the social connections and social registration number of social networks.

## 5. Social users

---

Our social login module also offers a list of customers with their social network accounts. In this tab, you can see their general information and plan your promotion campaign.

- User ID
- Profile picture

## 6. Settings

---

### ❖ Customer groups

When a customer registers to your PrestaShop store using a social network account, you can assign this person to 1 of the following groups: visitor, guest, and customer.

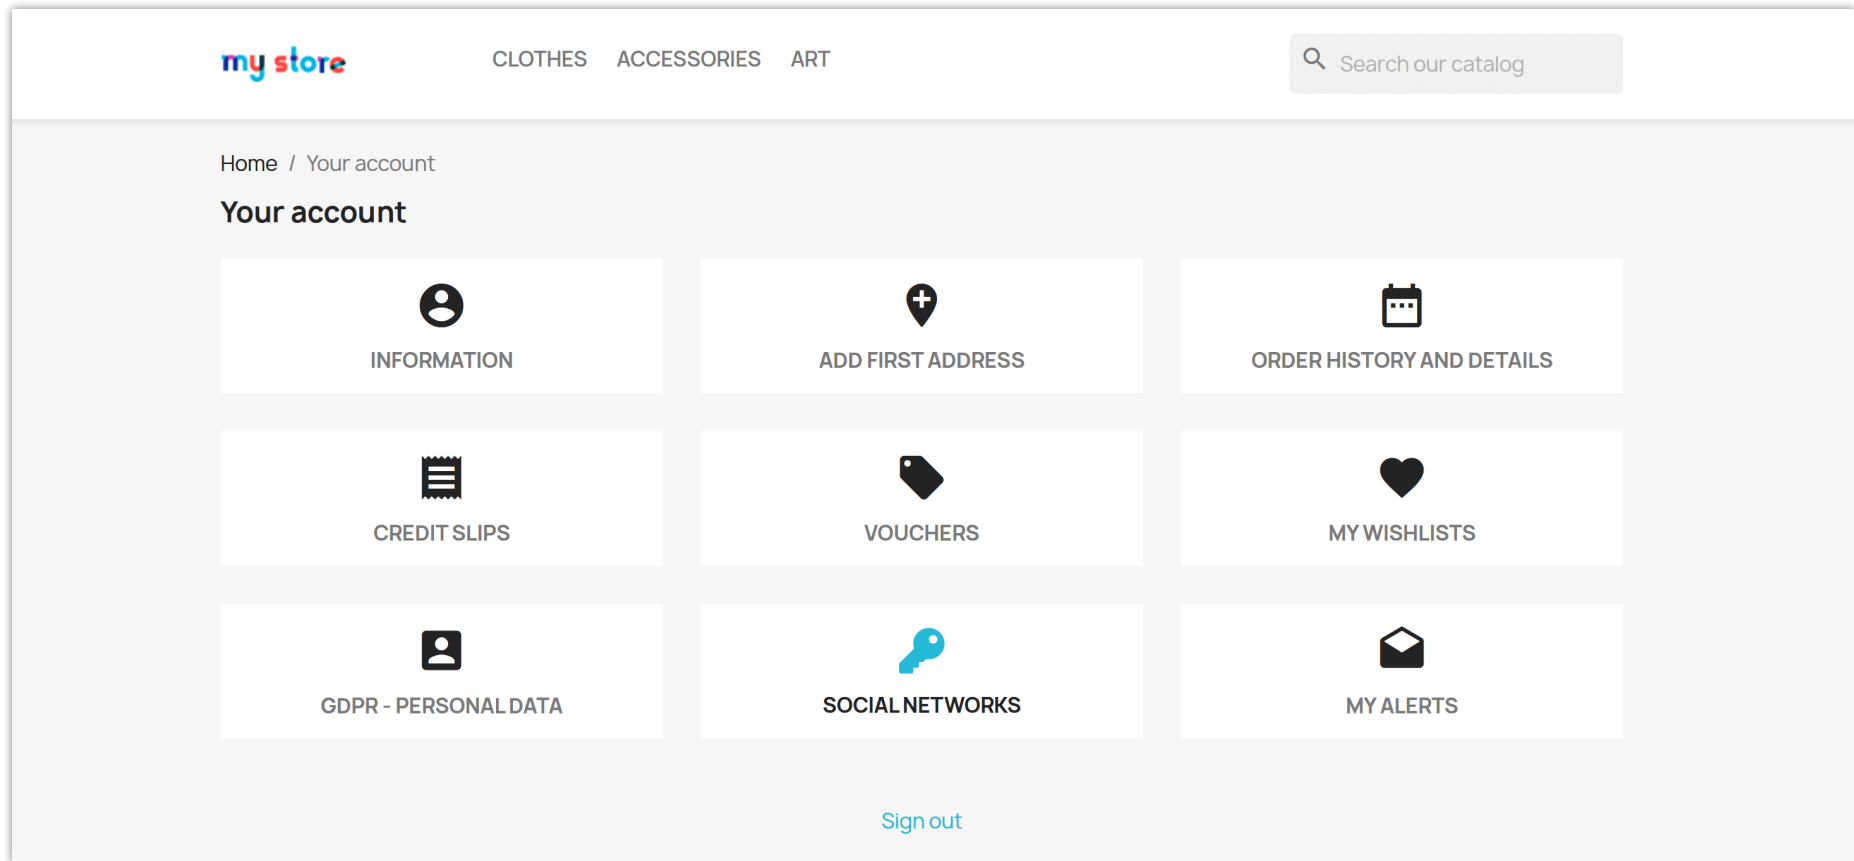

The screenshot shows the PrestaShop administration interface. The top navigation bar includes links for Dashboard, Social Networks, Positions, Discounts, Statistics, Social users, and Settings. The main content area is titled "Settings" and contains three configuration options:

- Customer group:** A dropdown menu set to "Customer". Below it, the text reads: "Assign customer to this group when they register using social buttons".
- Enable "Social Networks" menu in my account page:** A toggle switch is turned on (Yes). Below it, the text reads: "Allow customer to see their social network connection status".
- Send password to customer:** A toggle switch is turned on (Yes). Below it, the text reads: "Send a plain password to customer via email".

A "Save" button is located in the bottom right corner of the settings area.

### ❖ Enable "Social network" menu on my account page

Turn on this option to allow your customers to see their social network connection status. On the “My Account” page, your customer will see a new area:

They can check their social network info:

### Your social networks

Social network	Last login time	Connect your social account

## Important Note:

*Customers who already have a website account (created without Social Login) need to link it to their social network account to use Social Login seamlessly in the future. By connecting these accounts, customers can log in quickly with a single click using their social network, without needing to enter their username and password each time.*

*If they do not complete this connection, they will not be able to use the Social Login feature to access their account. This connection enables faster, more convenient access while ensuring their existing account information remains intact.*

*Here's a simple guide for connecting an existing website account to a social network for easy future logins:*

- *Log into your website account as usual.*
- *Go to **"My Account >> Social Networks"**.*

- *Select the social network you want to link for future logins and click **“Connect”**.*

- *Enter the login credentials for that social network.*

The image shows the Facebook login interface. At the top, there is a dark blue navigation bar with the Facebook logo on the left and a green button labeled 'Create New Account' on the right. Below this bar is a light gray background. In the center, there is a white rectangular box containing the login form. The form is titled 'Log in to Facebook'. It features two input fields: the first is labeled 'Email address or phone number' and the second is labeled 'Password'. Below these fields is a prominent blue button with the text 'Log in'. At the bottom of the white box, there are two links: 'Forgotten account?' and 'Sign up for Facebook', followed by a 'Not now' link.

- *Complete any required verification steps for the social network, then click “**Continue**” to finish.*

*After successfully linking a social network, the connected network will be displayed on the customer’s account. For future logins, the customer can simply select this connected social network to access their account directly.*

### Your social networks

Social network	Last login time	Connect your social account
 Facebook	2024-10-25 at 03:31:18	<a href="#">Disconnect</a>
 Google	Never connected	<a href="#">Connect</a>
 X	Never connected	<a href="#">Connect</a>
 LinkedIn	Never connected	<a href="#">Connect</a>
 Wordpress	Never connected	<a href="#">Connect</a>
 Tumblr	Never connected	<a href="#">Connect</a>
 Yahoo	Never connected	<a href="#">Connect</a>
 Reddit	Never connected	<a href="#">Connect</a>

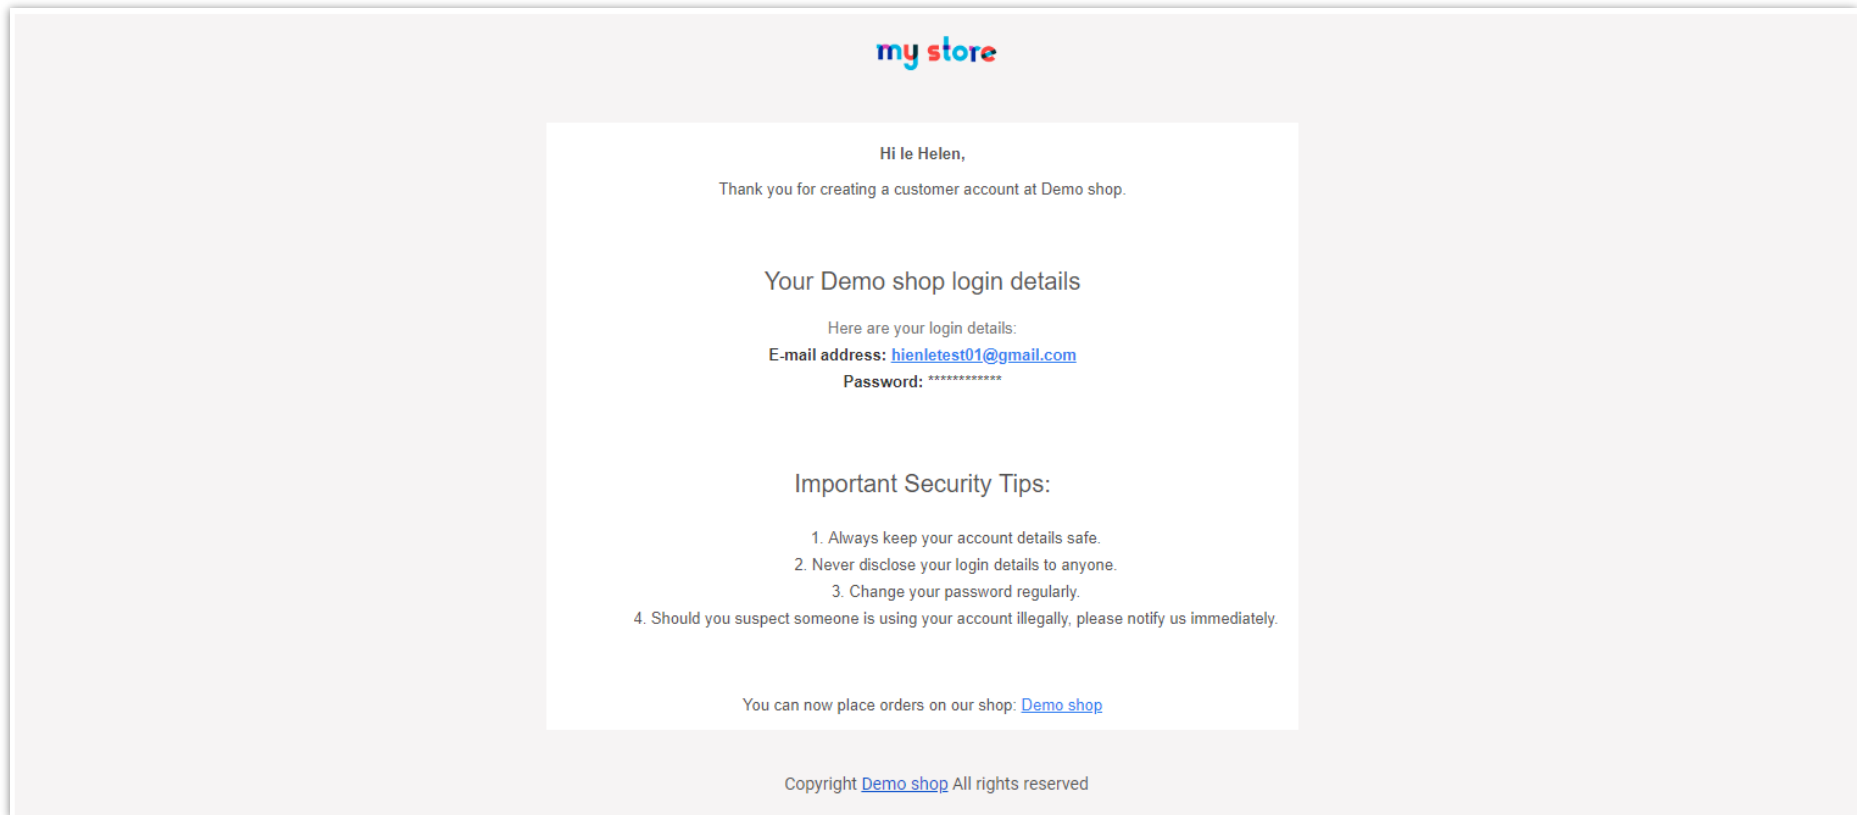

**Note:** If a customer connects with Gmail, they must use the same email address that was registered on the website.

## ❖ Send password to customer

When a customer registers a new account or login with his/her social network account, **SOCIAL LOGIN** will send him/her a notification email with information about his/her login details. If you enable this option, your customers will receive an email with their email address and visible password as you can see in the below picture:

If you disable this option, your customers will still receive a notification email but the password is hidden.

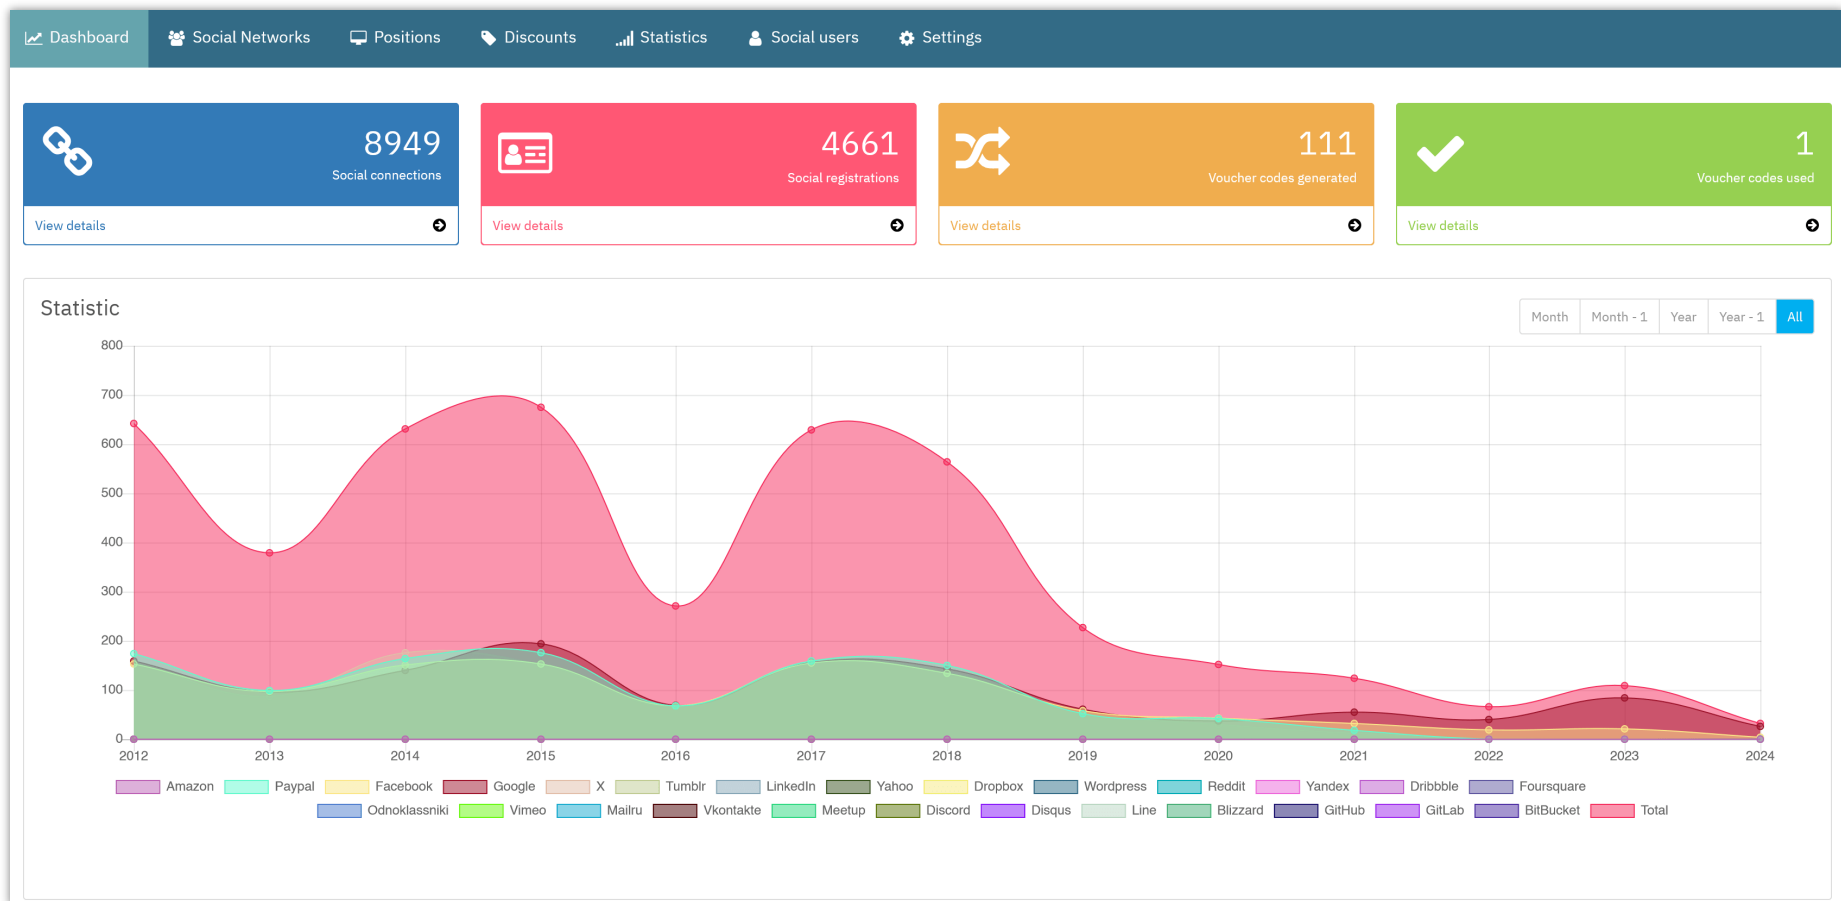

## 7. Dashboard

---

To help you have an overview of **SOCIAL LOGIN** activities, this module dashboard is divided into 3 parts.

❖ Part 1: Statistic chart

❖ Part 2: Each social network's connection and registered number

 <b>156</b> <small>CONNECTIONS</small>	 <b>0</b> <small>REGISTERED</small>	 <b>1266</b> <small>CONNECTIONS</small>	 <b>1131</b> <small>REGISTERED</small>	 <b>1264</b> <small>CONNECTIONS</small>	 <b>1115</b> <small>REGISTERED</small>	 <b>1442</b> <small>CONNECTIONS</small>	 <b>1283</b> <small>REGISTERED</small>
 <b>1242</b> <small>CONNECTIONS</small>	 <b>1076</b> <small>REGISTERED</small>	 <b>149</b> <small>CONNECTIONS</small>	 <b>2</b> <small>REGISTERED</small>	 <b>159</b> <small>CONNECTIONS</small>	 <b>1</b> <small>REGISTERED</small>	 <b>139</b> <small>CONNECTIONS</small>	 <b>1</b> <small>REGISTERED</small>
 <b>140</b> <small>CONNECTIONS</small>	 <b>0</b> <small>REGISTERED</small>	 <b>141</b> <small>CONNECTIONS</small>	 <b>0</b> <small>REGISTERED</small>	 <b>134</b> <small>CONNECTIONS</small>	 <b>3</b> <small>REGISTERED</small>	 <b>139</b> <small>CONNECTIONS</small>	 <b>1</b> <small>REGISTERED</small>
