## I. INTRODUCTION

**Advanced Tiny MCE** allows you to add more functions to the text editor in PrestaShop (*icons, font size, font family, special character, find and replace, preview, etc.*). Give you more control over tools included in the PrestaShop text editor.

\***Advanced Tiny MCE** is compatible with PrestaShop 1.6.x, 1.7.x and PrestaShop 8.x

## II. INSTALLATION

- Navigate to **"Modules / Modules Manager"** > click on **"Upload a module / Select file"**.
- Select the module file **"etstinymce.zip"** from your computer then click on **"Open"** to install.
- Click on **"Configure"** button of the module you just installed to open the module's configuration page.

## III. CONFIGURATION

From your installed module list (located at **"Modules/Module Manager"**), find **"Advanced Tiny MCE"** and then click on the **"Configure"** button to open its configuration page.

On the **"Tiny MCE"** page, you can select the types of text formatting option to display on TinyMCE menu bar. Our module supports the following formatting tools:

- Source code
- Font size
- Font

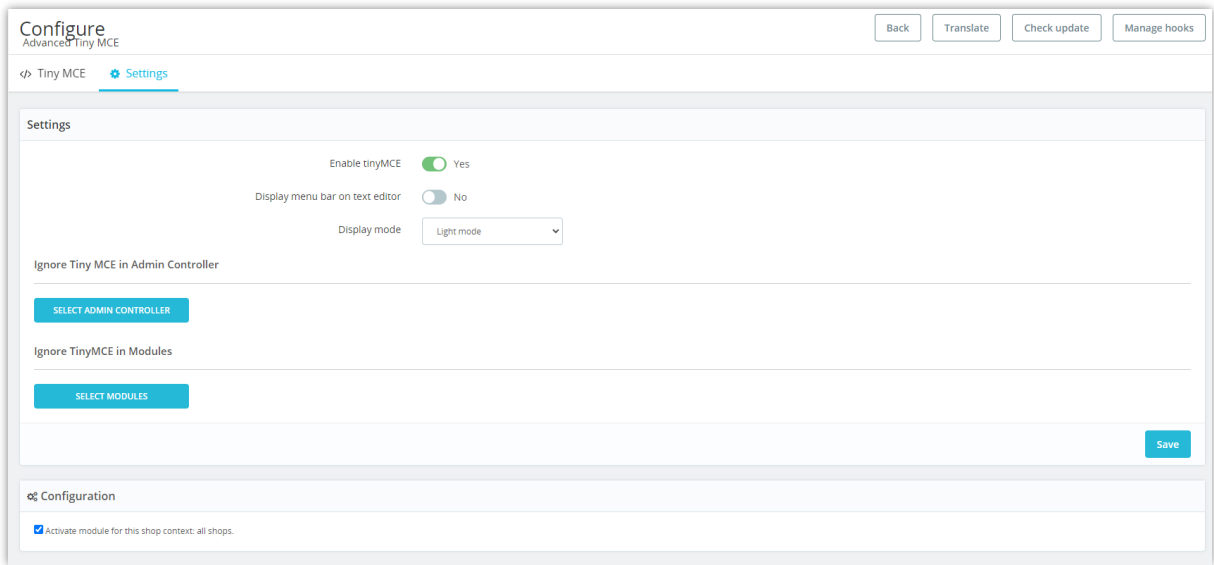

- Emoticons
- Anchor
- Bold
- Italic
- Underline
- Strikethrough
- Block quote
- Link
- Undo
- Redo
- Align
- Bullet list
- Numbered list
- Table
- Image
- Video
- Paragraph
- Special character
- Print
- Preview
- Find and replace
- Horizontal line
- Text color
- Background color
- Decrease indent
- Increase indent
- Clear formatting
- Fullscreen
- Insert/edit code sample

You can activate/disable the formatting tools you want. Drag and drop the arrow icon to sort the order of formatting tools.

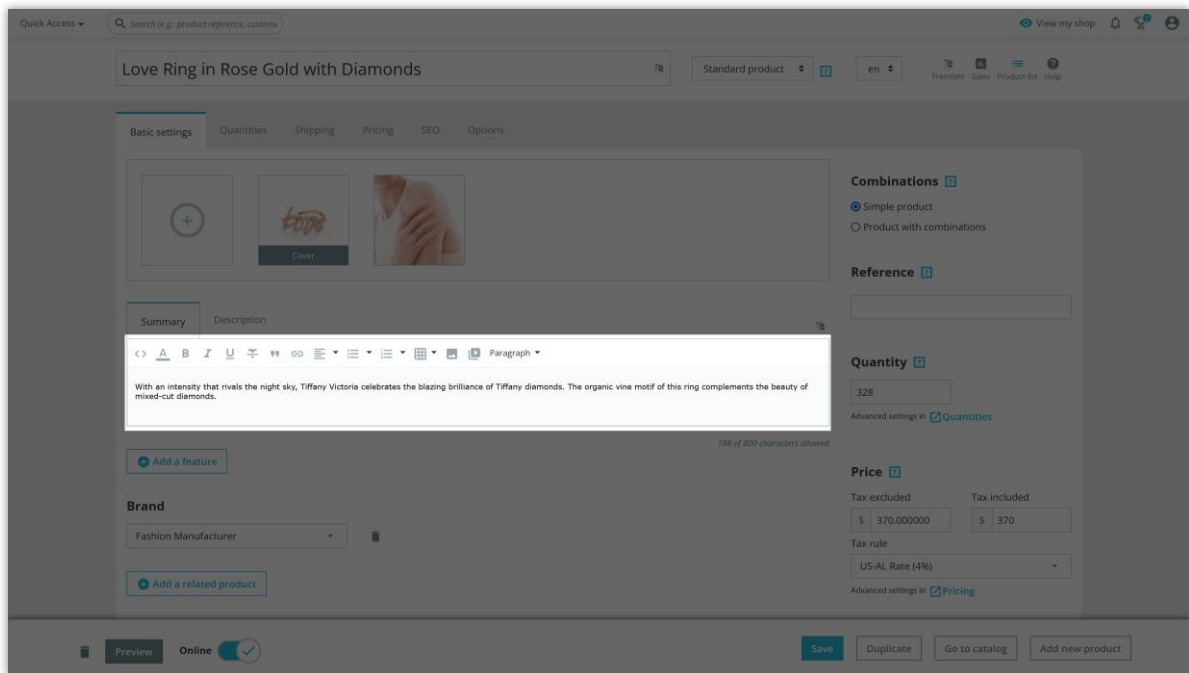

The screenshot shows the 'Configure Advanced Tiny MCE' interface. At the top, there are navigation buttons: 'Back', 'Translate', 'Check update', and 'Manage hooks'. Below this is a breadcrumb trail: '<> Tiny MCE' and a 'Settings' gear icon. The main content area is titled 'Tiny MCE' and contains a table with the following columns: 'Options', 'Icon', and 'Display'. A checkbox labeled 'Select all/Unselect all' is located at the top right of the table. The table lists 30 different formatting tools, each with a plus sign icon, a status toggle (On/Off), and a minus sign icon. The 'Save' button is located at the bottom right of the interface.

Options	Icon	Display
Source code	<>	+ On
Font size	Font size ▾	+ Off
Font	Font ▾	+ Off
Emoticons	☺	+ Off
Anchor	📌	+ Off
Bold	<b>B</b>	+ On

Text color	A	+ Off
Background color	■	+ Off
Decrease indent	☰	+ Off
Increase indent	☰	+ Off
Clear formatting	🧼	+ Off
Fullscreen	🖥️	+ Off
Insert/edit code sample	⌨️	+ Off

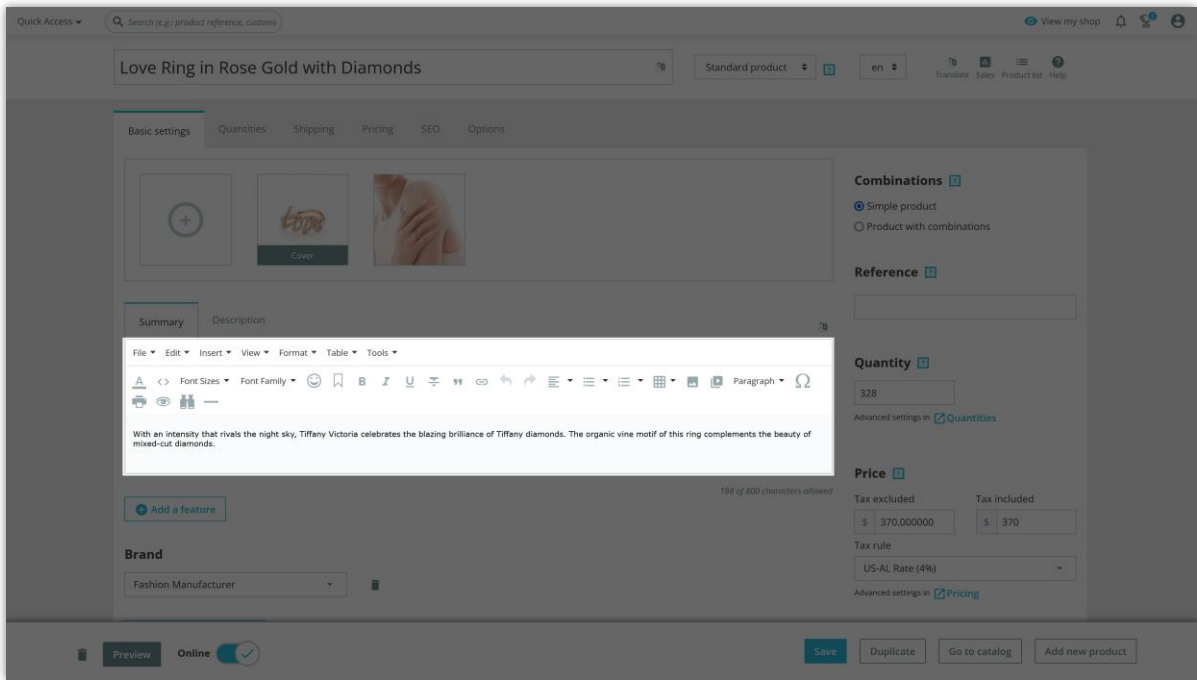

On the "**Settings**" page, you can configure how the TinyMCE formatting tools will be displayed on text editor area:

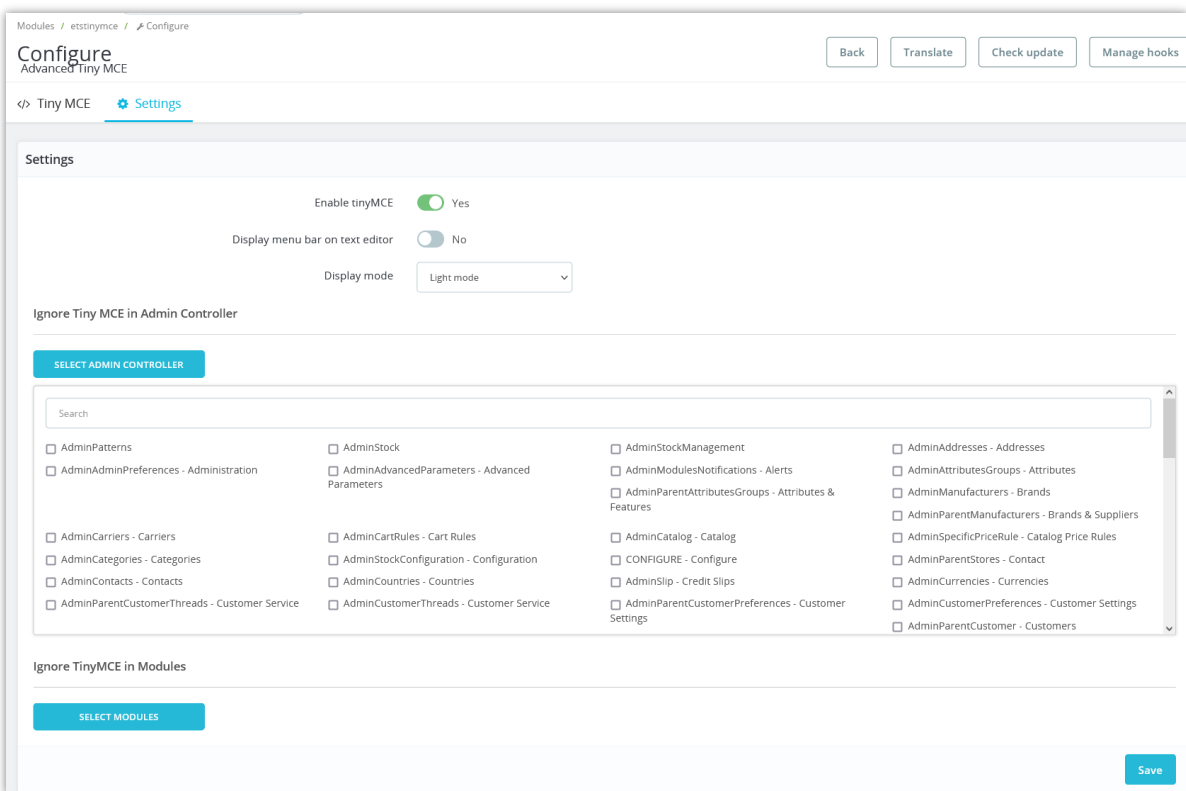

This is the default text editor of PrestaShop:

- **“Display menu bar on text editor”** option is enabled:

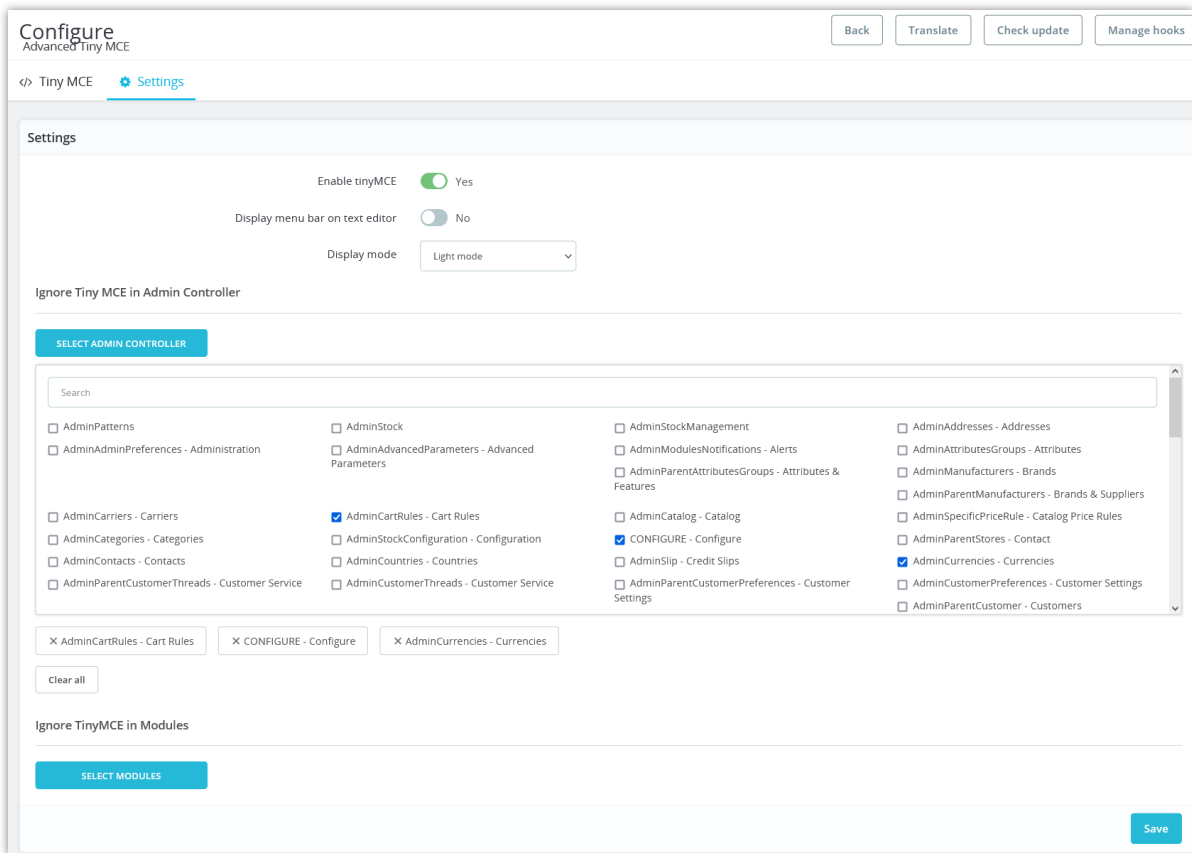

If you want to hide the Tiny MCE formatting tools for specific admin controller, click on **“Select admin controller”** button to show the list of admin controller:

- Use the search box to search for the controller you want to ignore.

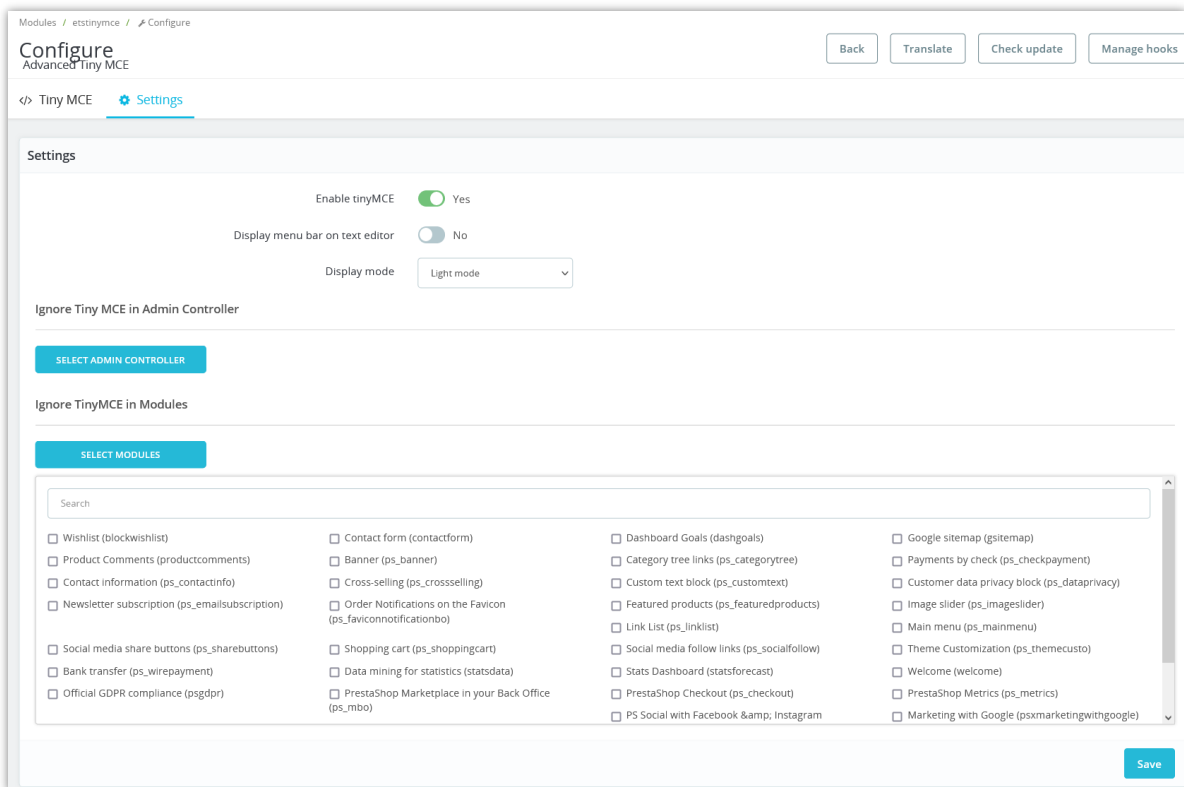

- You can select multiple controllers. The selected items will display under the list box.

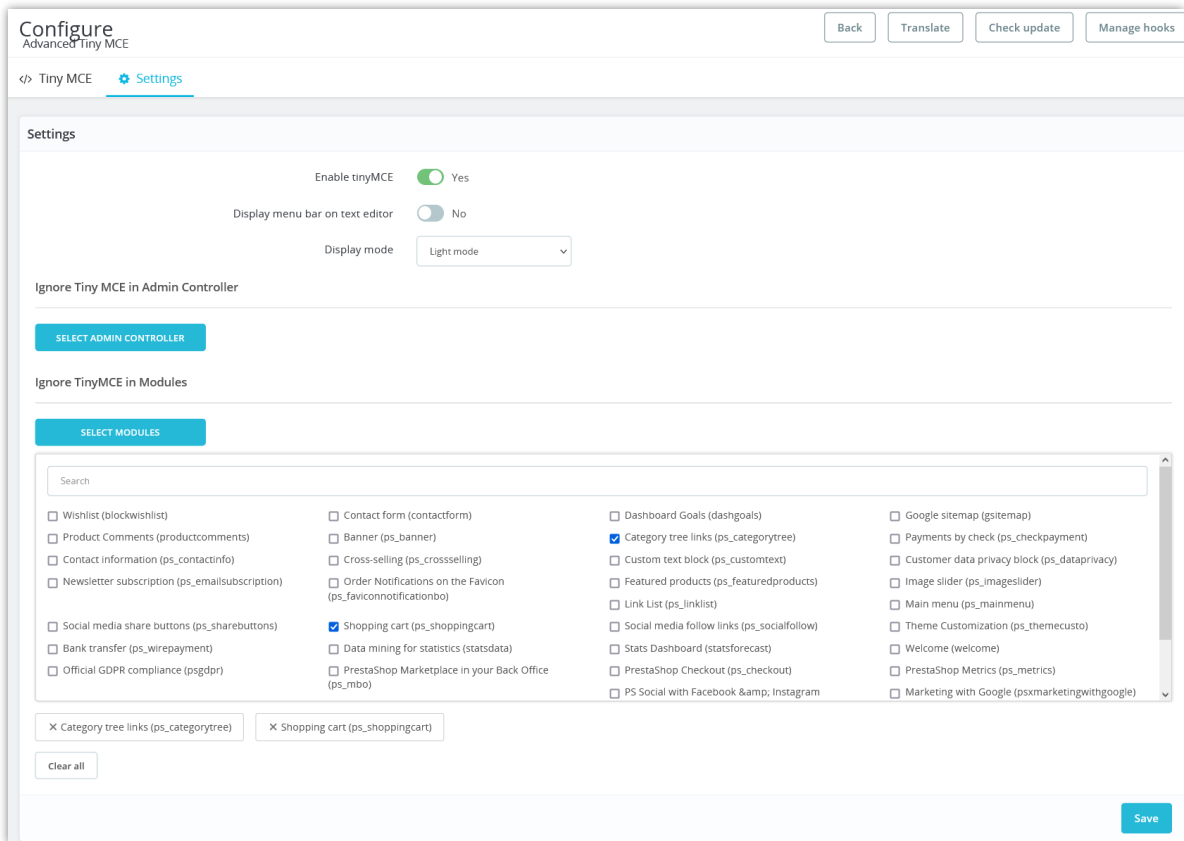

Click on **“Save”** button to finish.

If you want to hide the Tiny MCE formatting tools for specific modules, click on **“Select module”** button to show the list of installed modules:

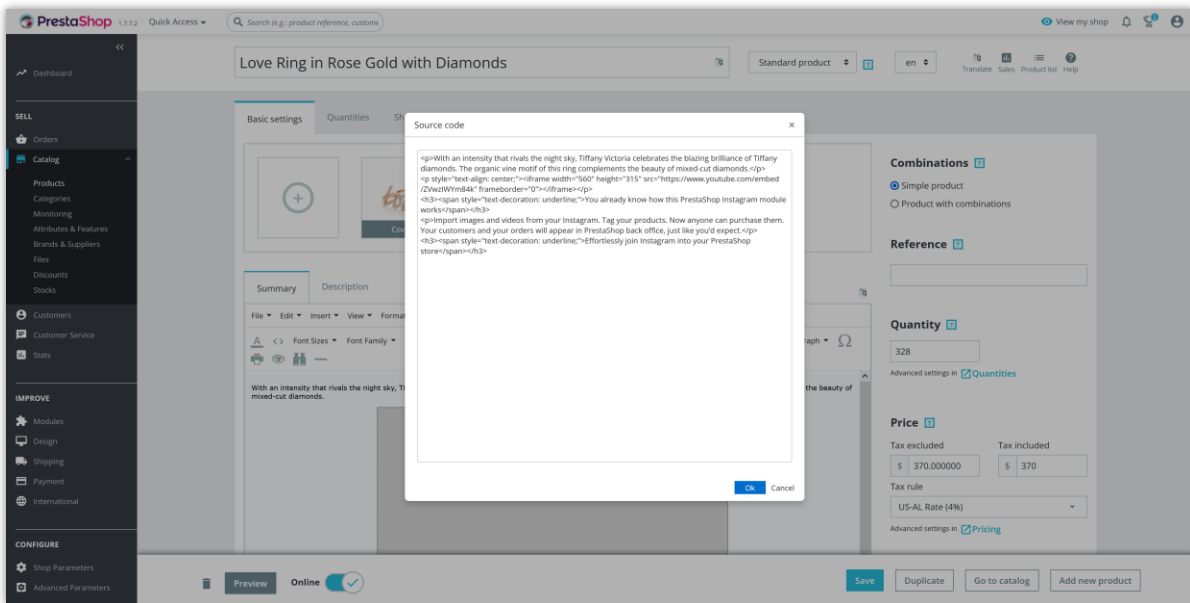

- Use the search box to search for the module you want to ignore.
- You can select multiple modules. The selected items will display under the list box.

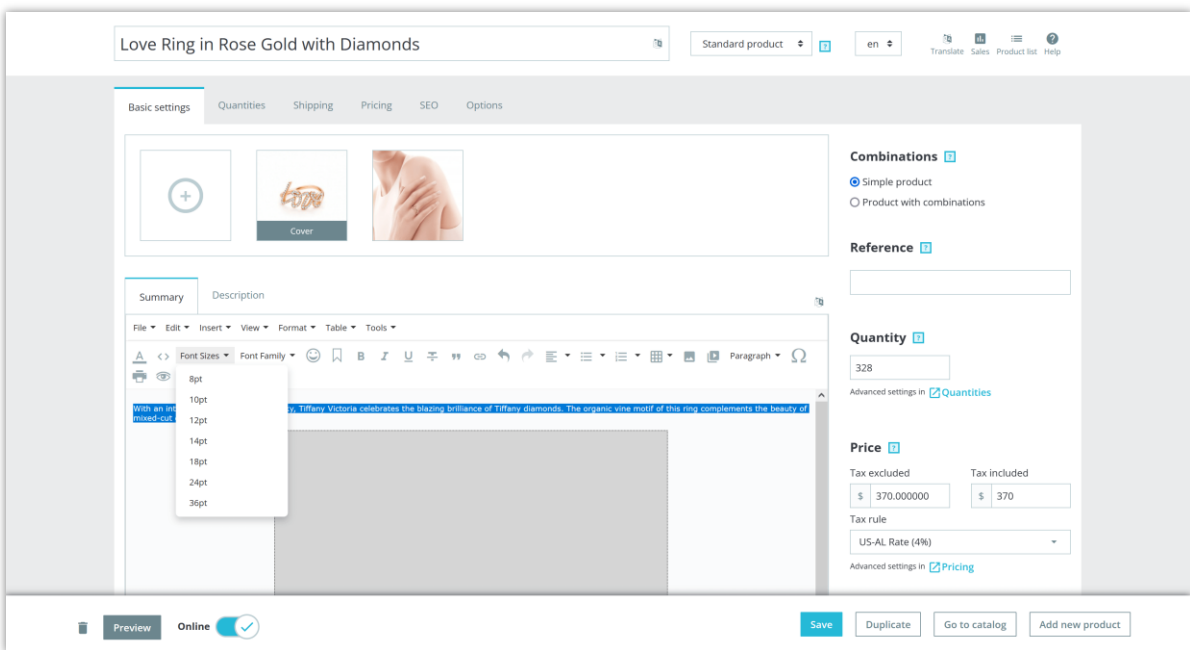

Click on **“Save”** button to finish.

## IV. TINY MCE FORMATTING TOOLS

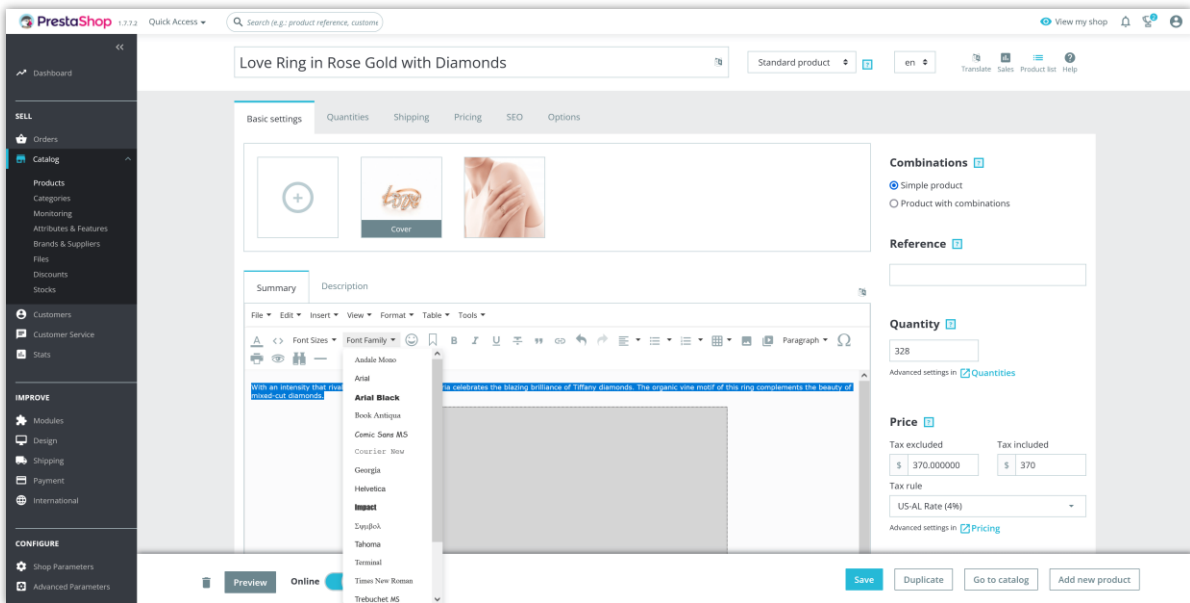

- **Source code:** this code editor makes it easier to modify the HTML, and it’s a very useful add-on for power users.

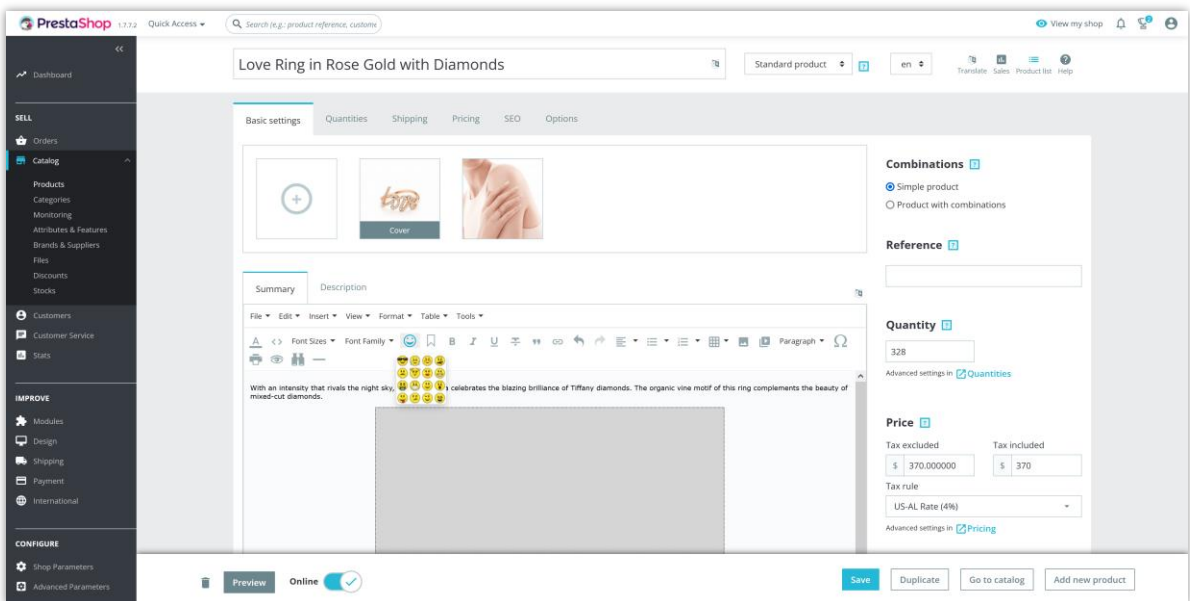

- **Font size:** the TinyMCE rich text editor comes with 7 font size options by default, ranging from 8pt to 36pt. Depending on how TinyMCE is configured, users can select a font from the menu bar or toolbar.

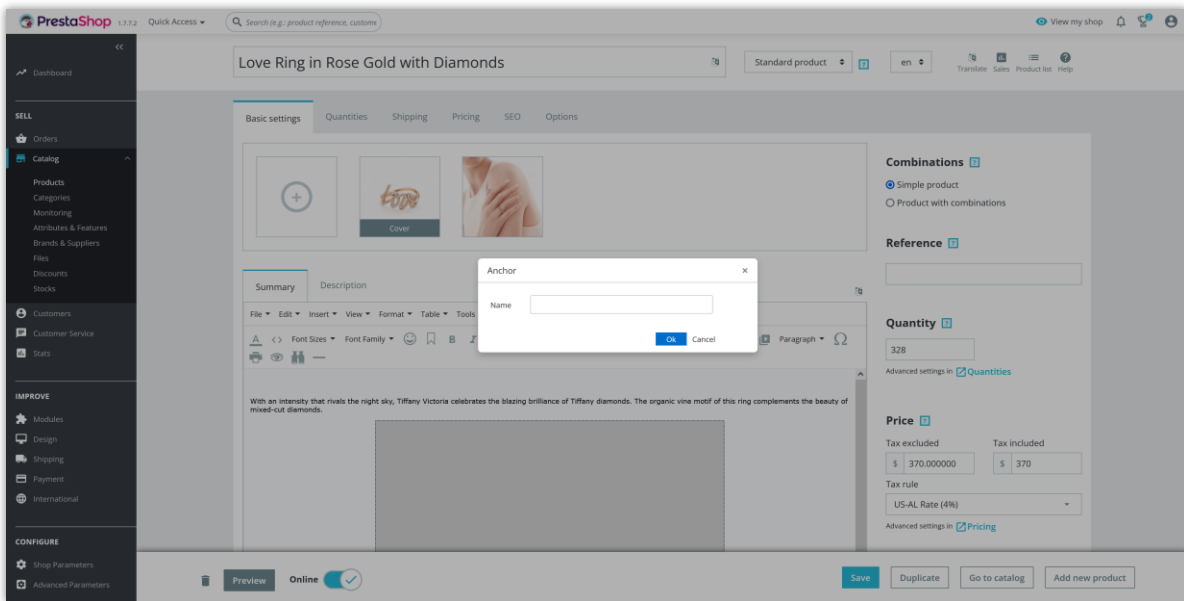

- **Font family:** TinyMCE comes with 17 font options by default. Depending on the editor configuration, users can select a font from the menu bar or the toolbar (via the font select dropdown).

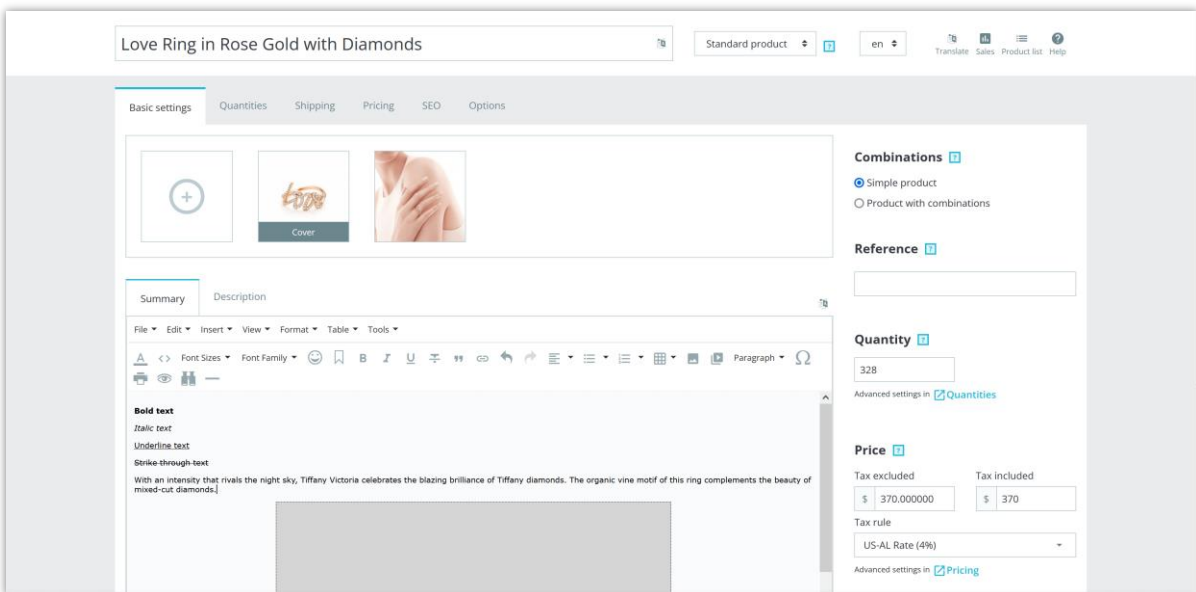

- **Emoticons:** lets users insert emoji into TinyMCE's editable area.

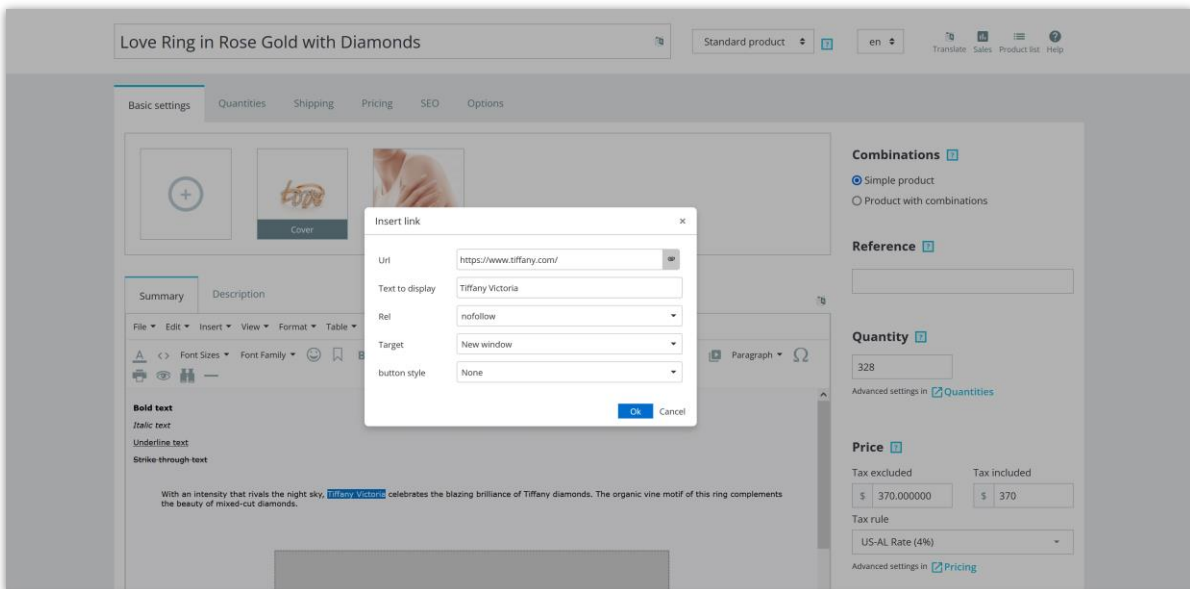

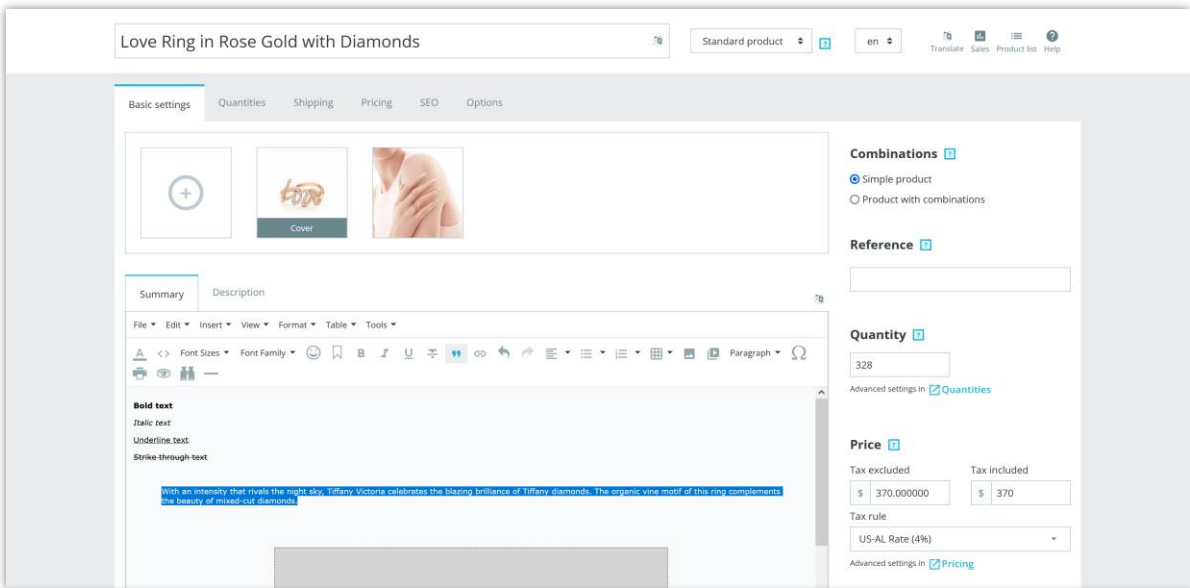

- **Anchor:** lets users specify a custom name for the anchor in the URL type ahead drop down.

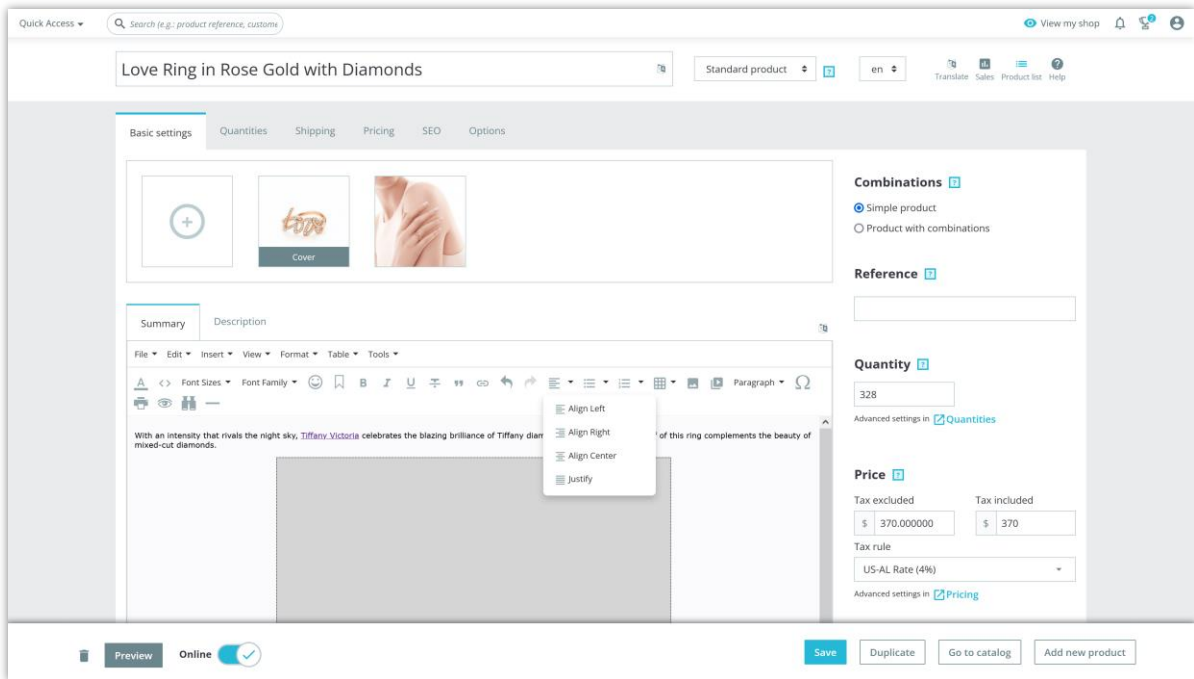

- **Text format tools:** bold, italic, underline, strike through.

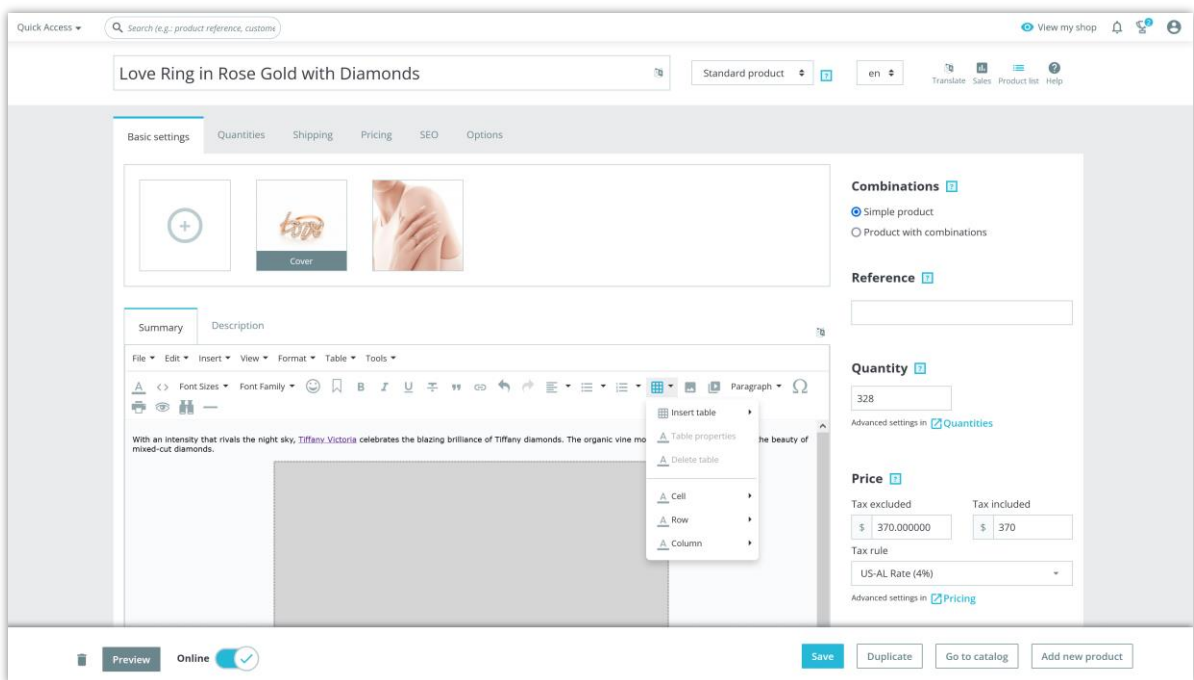

- **Block quote and link:** format a paragraph into a block quote. Insert a link into the paragraph.

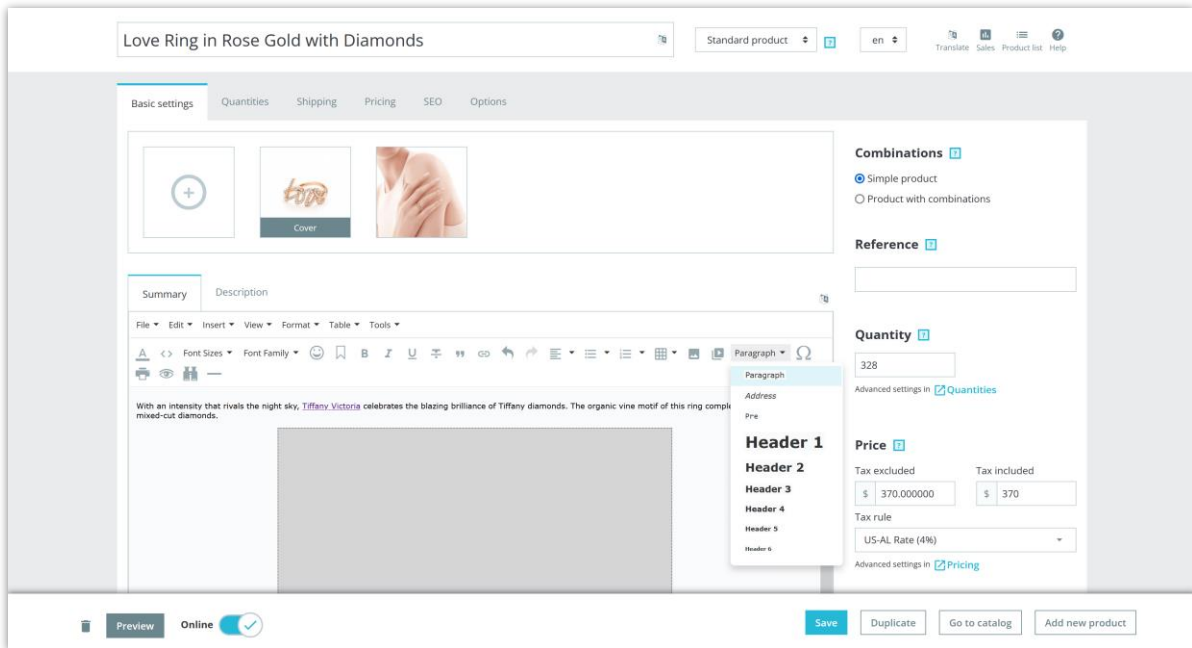

- Undo/redo tool.
- **Align tools:** align left, align right, align center, justify.

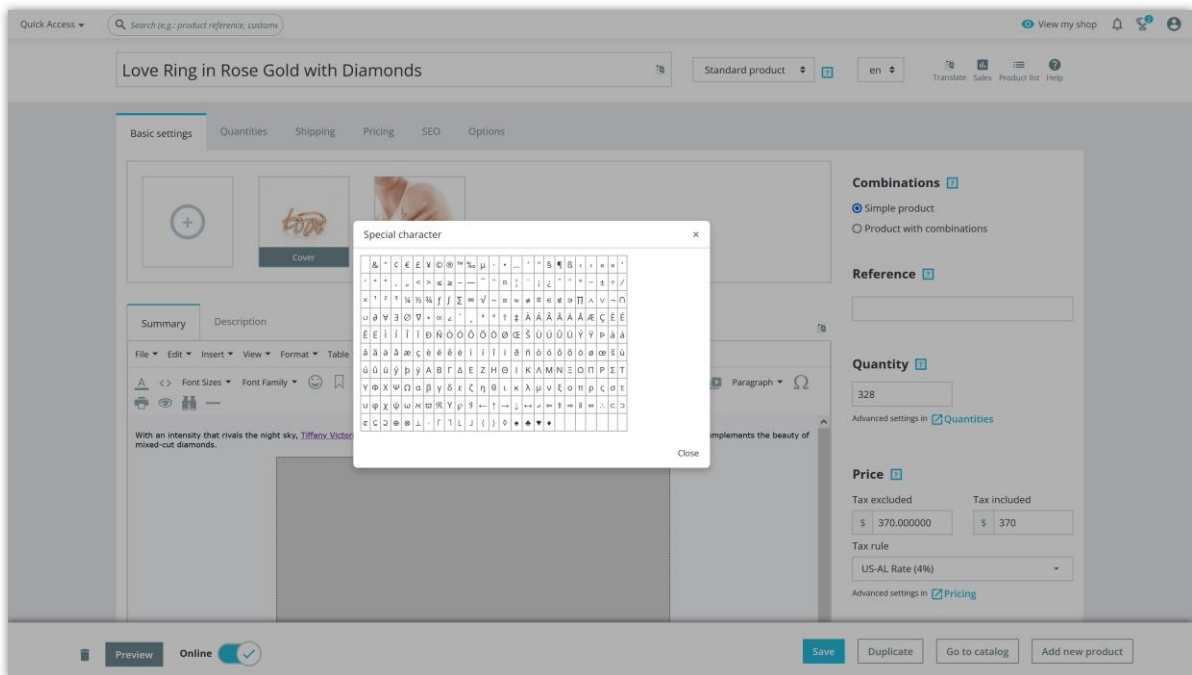

- **Bullet list:** default, circle, disc, square list.
- **Numbered list:** default, lower Alpha, lower Greek, lower Roman, upper Alpha, upper Roman.
- **Table manager tool:**

- Paragraph format tool:

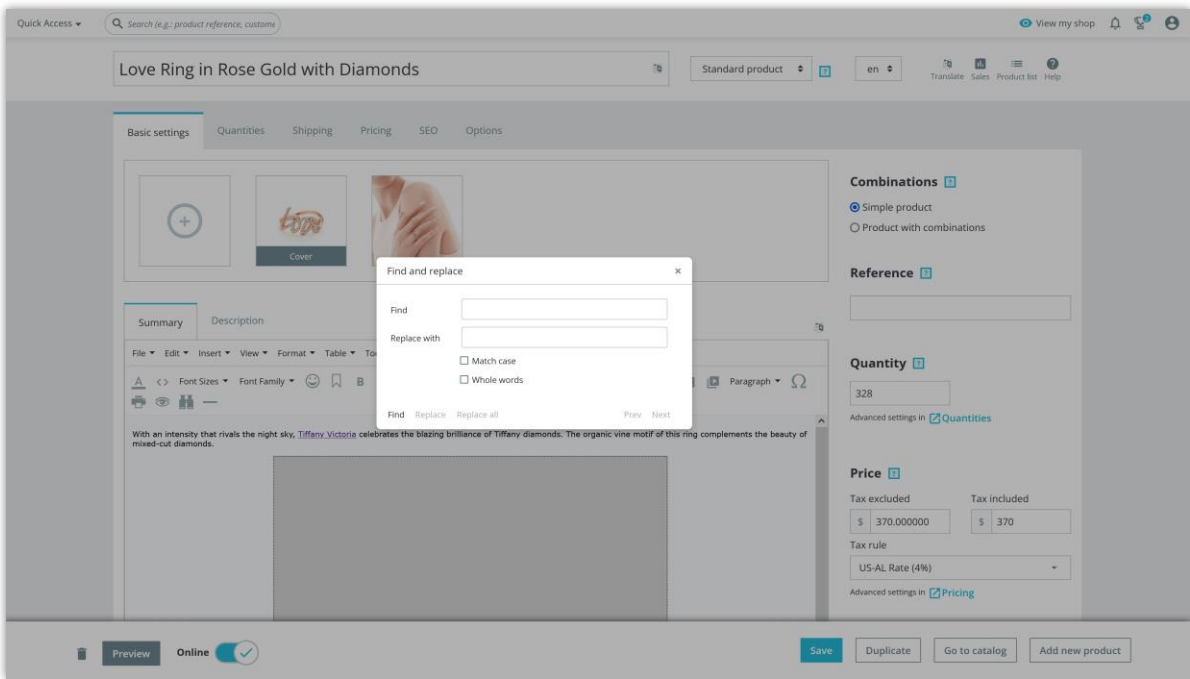

- Insert special character:

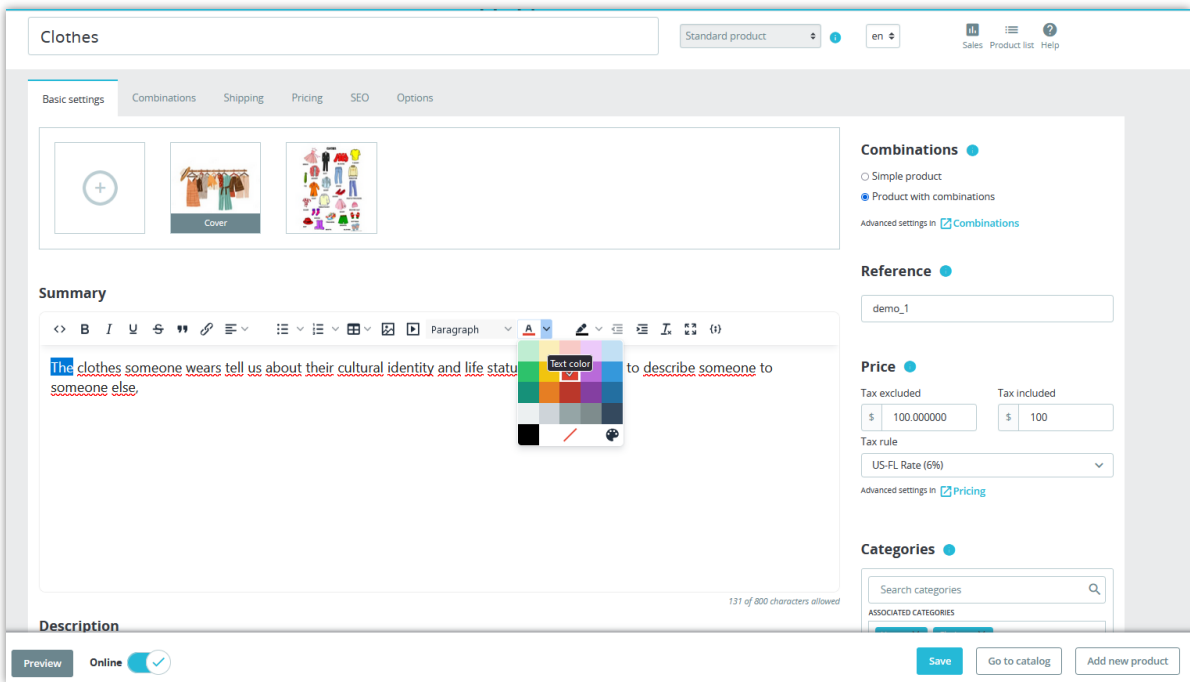

- Print
- Preview
- Find and replace
- Add horizontal line

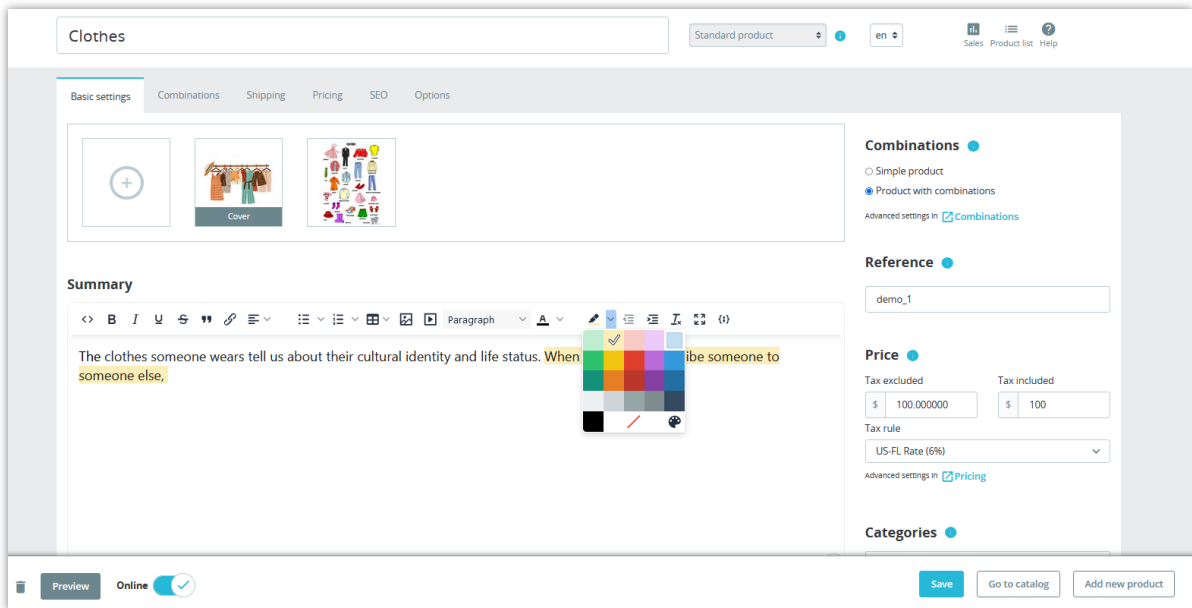

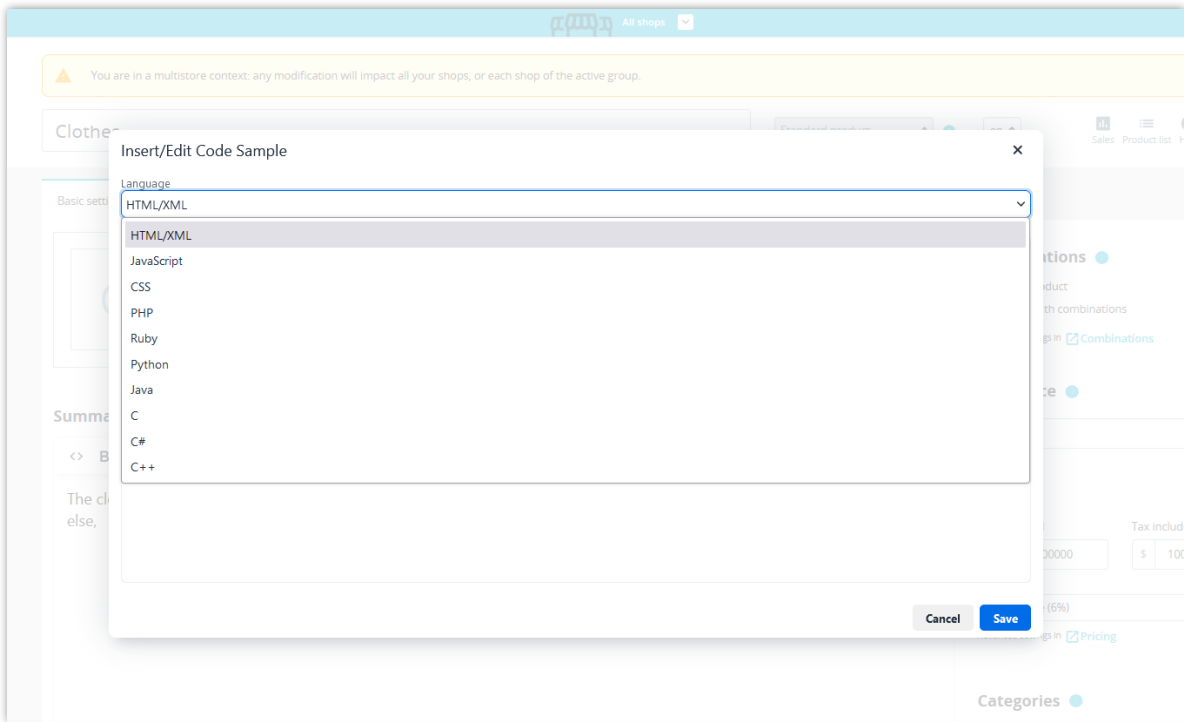

- Text color

- Background color

- Decrease indent
- Increase indent
- Clear formatting: You can easily clear all formatting (such as bold, underline, italics, color, superscript, subscript, and more) from your text and return your text to its default formatting styles.
- Fullscreen
- Insert/edit code sample

## V. THANK YOU

Thank you again for purchasing our product and going through this documentation. We hope this document is helpful and efficient in the installation and usage of **Advanced Tiny MCE** module. If you do have any questions for which the answer is not available in this document, please feel free to contact us.
