I. WELCOME

Thank you for downloading our theme. We hope to guide you through all the aspects of the theme installation and the theme setup within this document. But if you have any questions that are beyond the scope of this documentation, please feel free to contact us via Prestahero.com or our email address.

II. SERVER REQUIREMENTS

PHP configuration:

- "memory_limit" need to be at least "64M"
- "upload_max_filesize" need to be at least "16M"
- "allow_url_fopen" need to be set to "on"
- "register global" should be set to "off"
- "safe_mode" should be set to "off"

Extensions required:

- GD
- cURL
- SimpleXML
- SOAP

File permissions:

- All files need to be "664"
- All folders need to be "755"

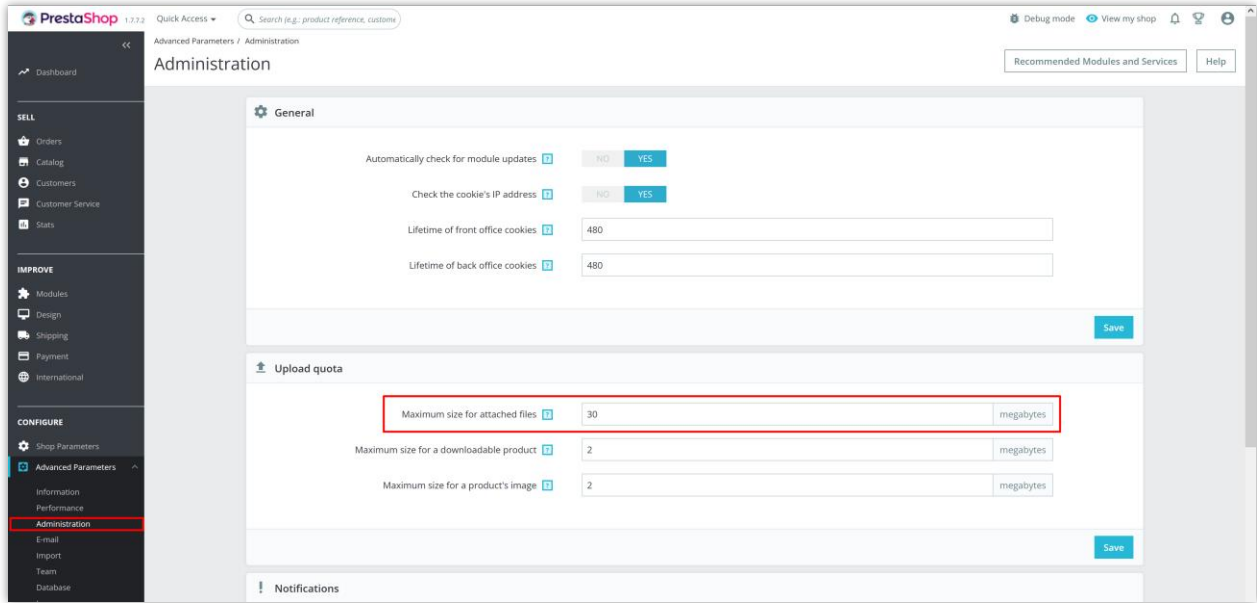

III. INSTALLATION

Thank you for downloading our theme. We hope to guide you through all the aspects of the theme installation and the theme setup within this document. But if you have any questions that are beyond the scope of this documentation, please feel free to contact us via Prestahero.com or our email address.

Before installing the theme, you need to install a Prestashop 1.7.x website on your server. For more information of how to install Prestashop, you can check [here](#)

NOTE:

- Since the install package is larger than 2MB, therefore you should increase the **"Maximum size for attached files"** value of your site (**"Configure"** > **"Advanced Parameters"** > **"Administration"** page). We recommend the minimum value of 30 MB.
- After successfully uploading the install package, you can change this parameter back to the initial value.
- You can also contact the host manager to increase the **"max_upload_filesize"** value of your server to be able to upload larger file.

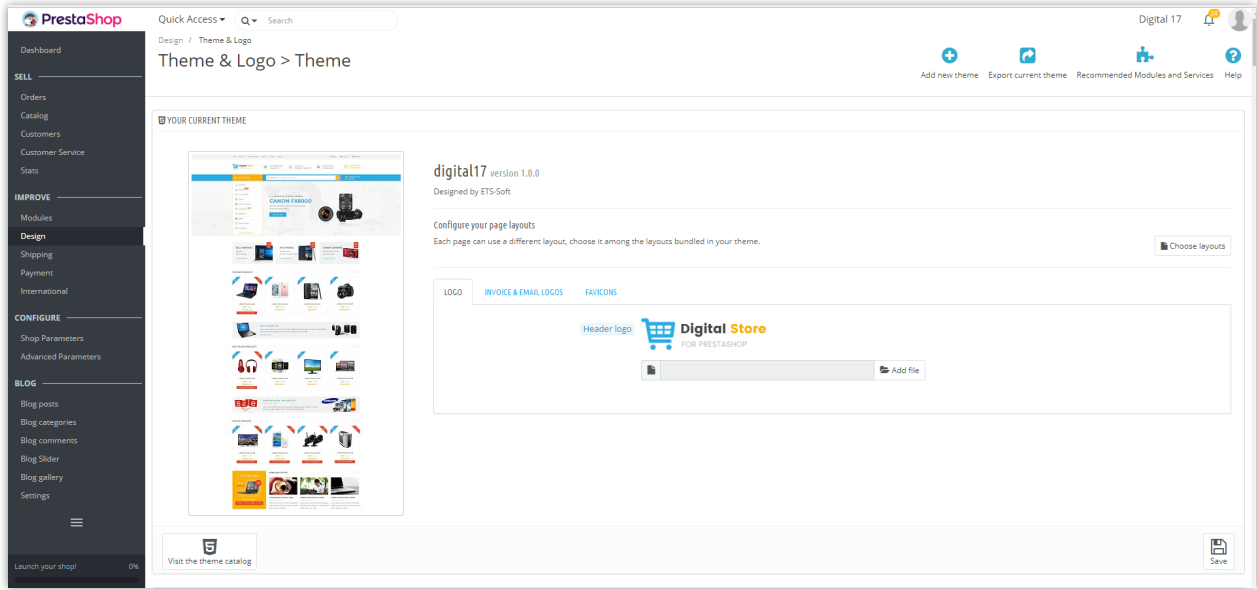

UPLOAD THEME

Follow these steps to install our theme manually:

- Login to your backoffice and navigate to **Design / Theme & logo** and click on **Add new theme**.
- Choose your theme file (digitalstore_for_1.7.x.zip) from the theme folder in the download file and click **Save**.
- Choose the theme you uploaded and click **“Use this theme”**

UPLOAD LOGO

Navigate to **Design / Theme & logo**, select and upload your website logo

IMAGE

Make sure your image sizes are configured as below

The screenshot shows the 'Image Settings' configuration page in PrestaShop. It features a table with columns for ID, Name, Width, Height, Products, Categories, Brands, Suppliers, and Stores. Each row represents a different image size configuration with checkboxes indicating its availability for various site elements. A 'Bulk actions' button is located at the bottom left of the table.

ID	Name	Width	Height	Products	Categories	Brands	Suppliers	Stores	
1	car_default	130 px	130 px	✓	✗	✗	✗	✗	Edit
2	small_default	100 px	100 px	✓	✓	✓	✓	✗	Edit
3	medium_default	452 px	452 px	✓	✗	✓	✓	✗	Edit
4	home_default	450 px	450 px	✓	✗	✗	✗	✗	Edit
5	large_default	800 px	800 px	✓	✗	✓	✓	✗	Edit
6	category_default	850 px	226 px	✗	✓	✗	✗	✗	Edit
7	stores_default	170 px	115 px	✗	✗	✗	✗	✓	Edit

Set up image quality that you prefer to use on your website

IMAGES GENERATION OPTIONS

? JPEG images have a small file size and standard quality. PNG images have a larger file size, a higher quality and support transparency. Note that in all cases the image files will have the .jpg extension.
 WARNING: This feature may not be compatible with your theme, or with some of your modules. In particular, PNG mode is not compatible with the Watermark module. If you encounter any issues, turn it off by selecting "Use JPEG".

Image format Use JPEG.
 Use PNG only if the base image is in PNG format.
 Use PNG for all images.

* JPEG compression: 90

* PNG compression: 7

Generate images based on one side of the source image: Automatic (longest side)

* Maximum file size of product customization pictures: 8388608 bytes

* Product picture width: 64 pixels

* Product picture height: 64 pixels

Generate high resolution images: YES NO
 Enable to optimize the display of your images on high pixel density screens.

Save

Regenerate image thumbnails

REGENERATE THUMBNAILS

? Regenerates thumbnails for all existing images
 Please be patient. This can take several minutes.
 Be careful! Manually uploaded thumbnails will be erased and replaced by automatically generated thumbnails.

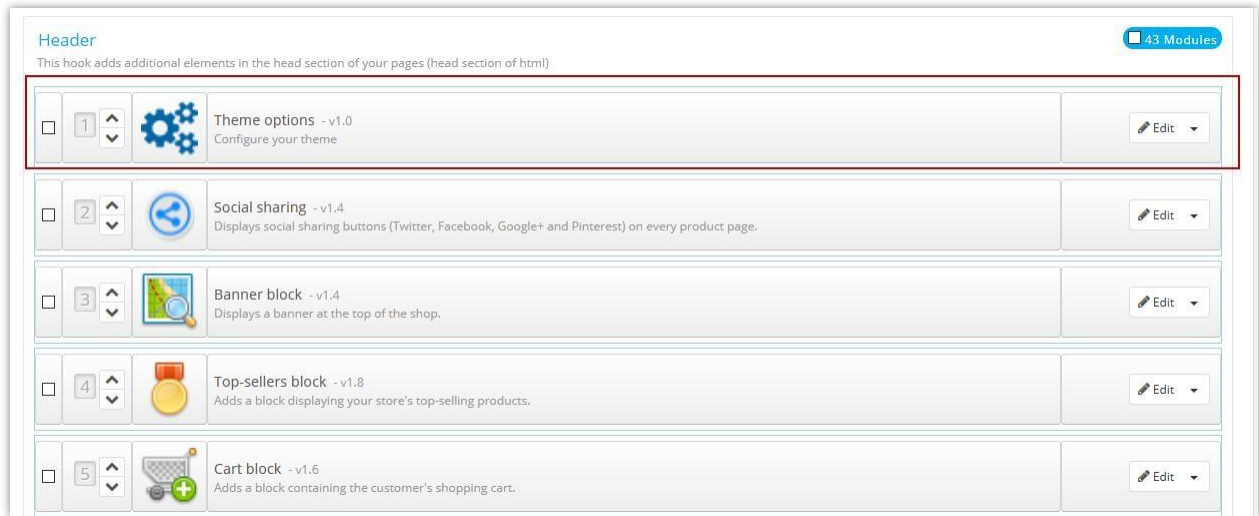

Select an image: All

Erase previous images: YES NO
 Select "No" only if your server timed out and you need to resume the regeneration.

Regenerate thumbnails

MODULE POSITIONS

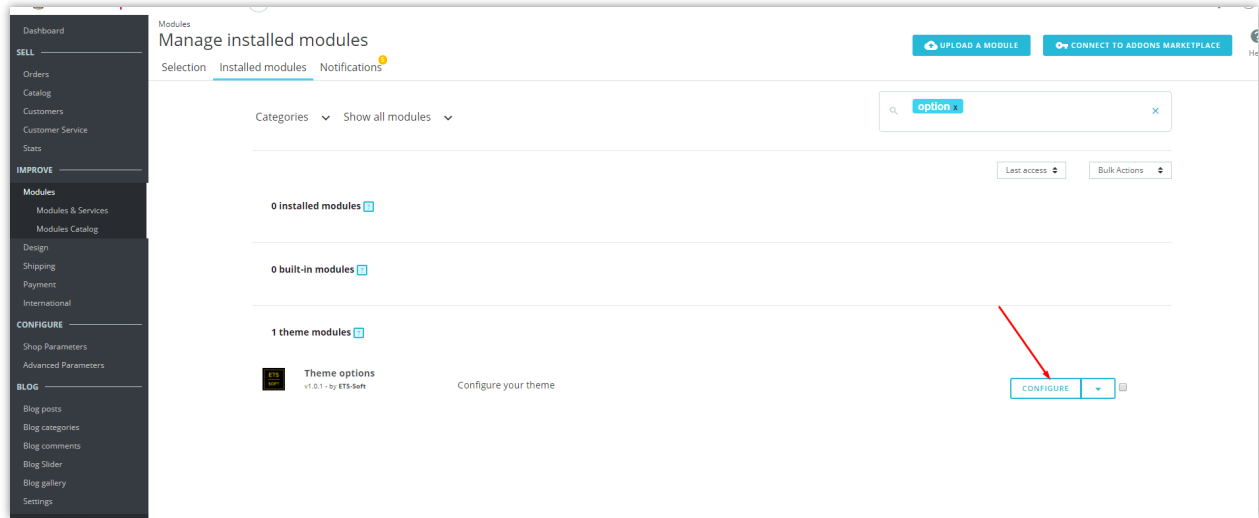

Navigate to **"Modules and services" / "Positions"**, here you can see the orders of your modules in each Prestashop hook, check a hook called **"Header"**, make sure **"Theme options"** is on the top of the module list

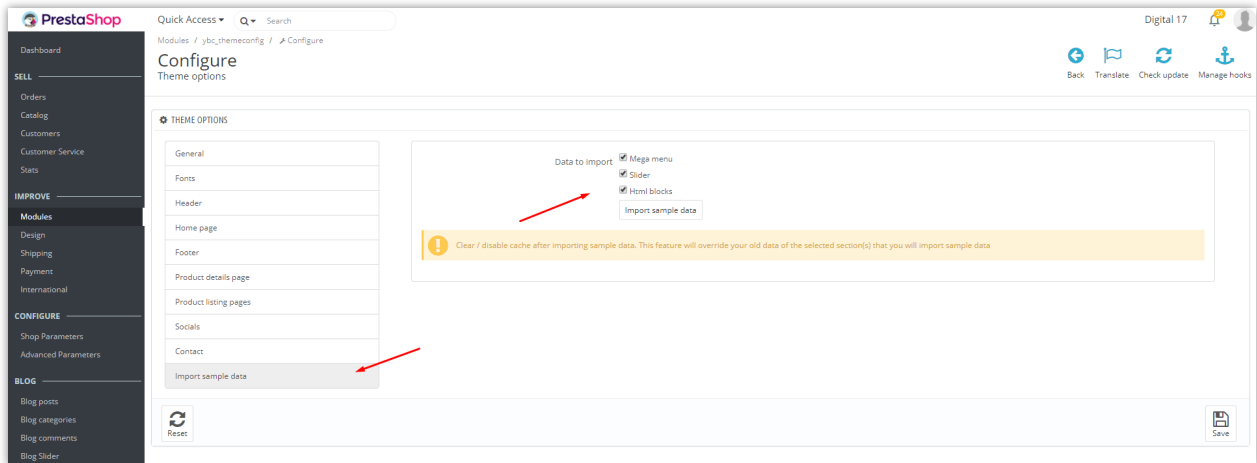

IV. IMPORT SAMPLE DATE

You can quickly import our sample data to your Prestashop website to make it the same as our demo websites.

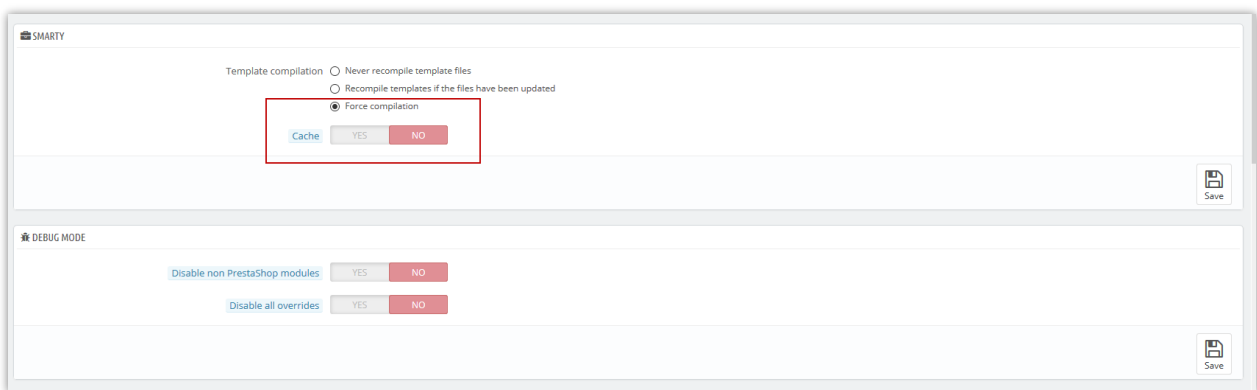

Go to **"Modules & services / Installed modules"**, click on **"Configure"** of **"Theme options"** module

Open tab **"Import sample data"**, choose type of data that you want to import.

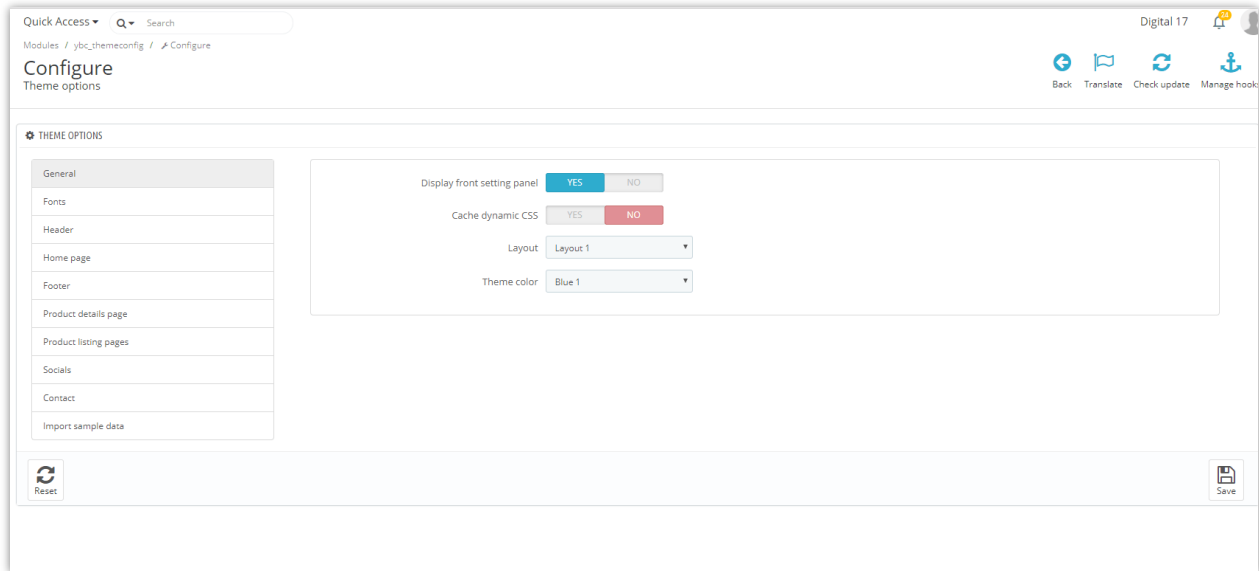

Note: This option is recommended when you install the theme on a fresh Prestashop website. Clear your website cache (or turn it off) after importing sample data.

V. THEME OPTIONS

This is a powerful Prestashop theme, it offers many useful features that help you to manage the theme easily.

Navigate to **Modules / Modules and Services / Installed modules** then select "**Theme options**" from module list

- After selecting a theme layout, you should reimport sample data to make your website like our live demos then start to replace the images/text by your real data (make sure your image sizes are the same as the sizes of our sample images)
- You can define your custom color set by selecting **"Custom color"** from **"Theme color"**
- Cache dynamic CSS should be enabled for live website
- This theme supports Google font, you can setup your custom font as below

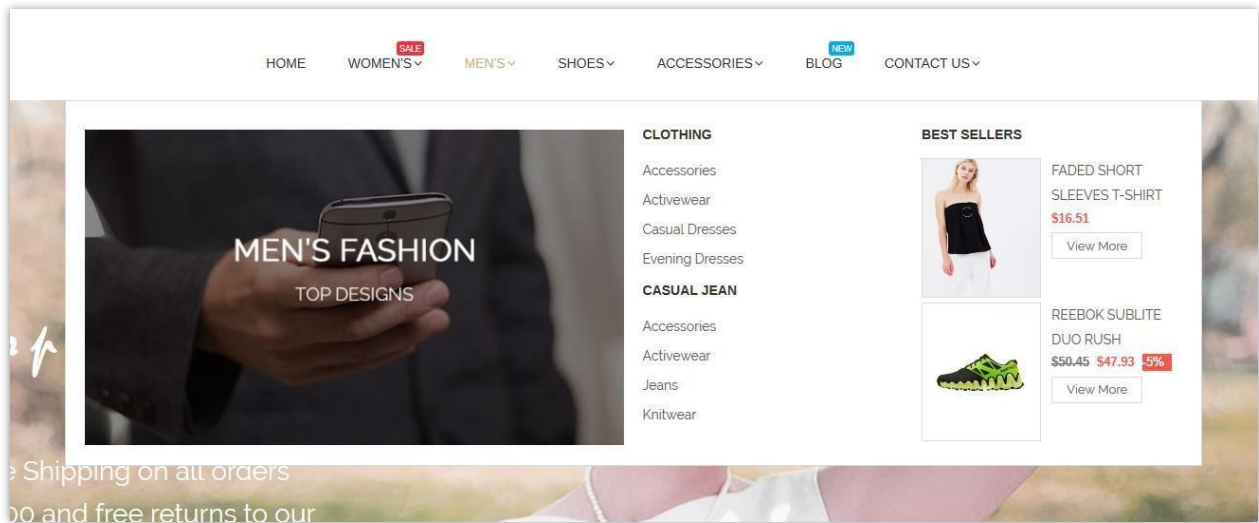

General font name	Open Sans <small>Leave blank to use default font</small>
General font data	https://fonts.googleapis.com/css?family=Open+Sans
Heading font name	 <small>Leave blank to use default font</small>
Heading font data	
Other font name	 <small>Leave blank to use default font</small>
Other font data	

Setup your Instagram API at **"Instagram"** tab

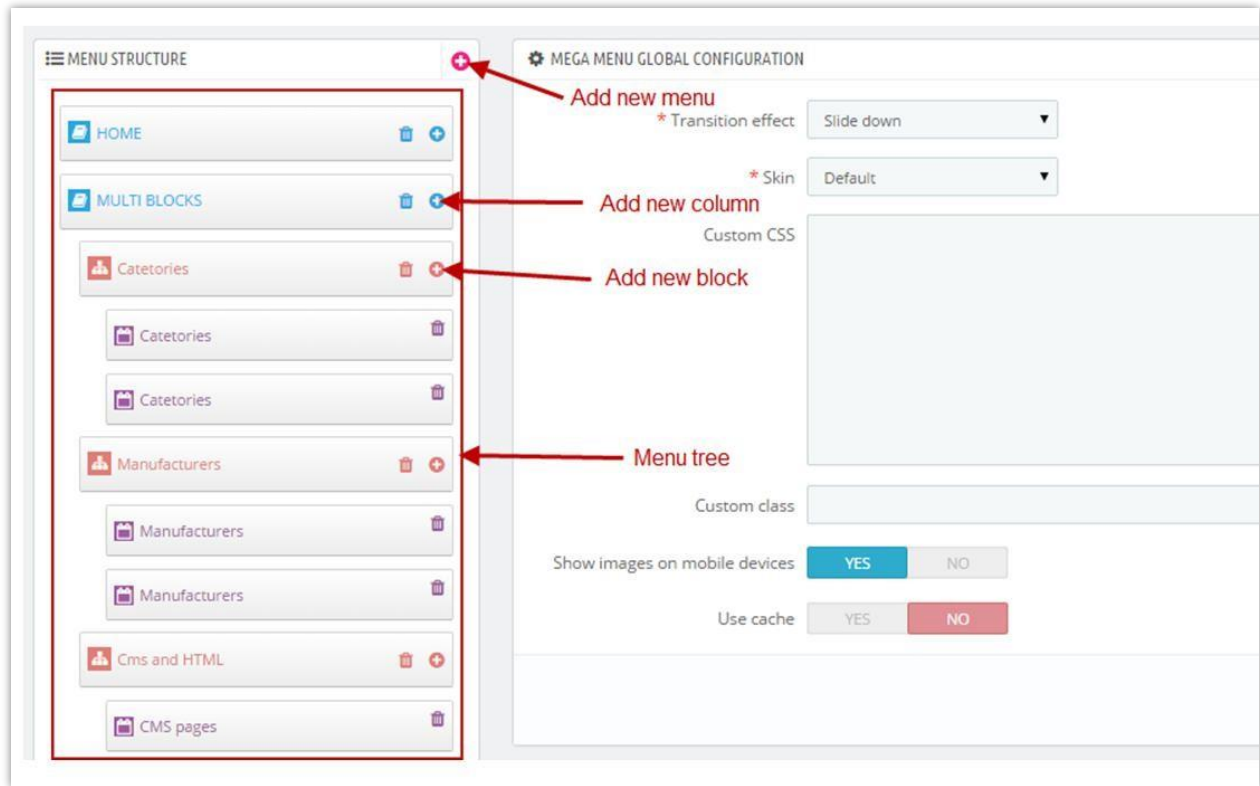

For more reference of how to get Instagram user ID and access token, check [here](#)

VI. MEGA MENU MODULE

Our mega menu is organized by 3 main elements: menus, columns and blocks which will give you easy and flexible ways to create different types of simple or complex structures for your top menu.

To manage your mega menu, go to **Modules / Modules & Services / Installed modules** then select **"Mega Menu"** from the module list.

***Note:** if you are transferring your site to new hosting service or domain, the **"Use cache"** option should be deactivated by selecting the **"no"** option and should be reactivated once the website is transferred, by selecting the **"yes"** option. **"Use cache"** helps to load your site faster when you have a complex menu structure.

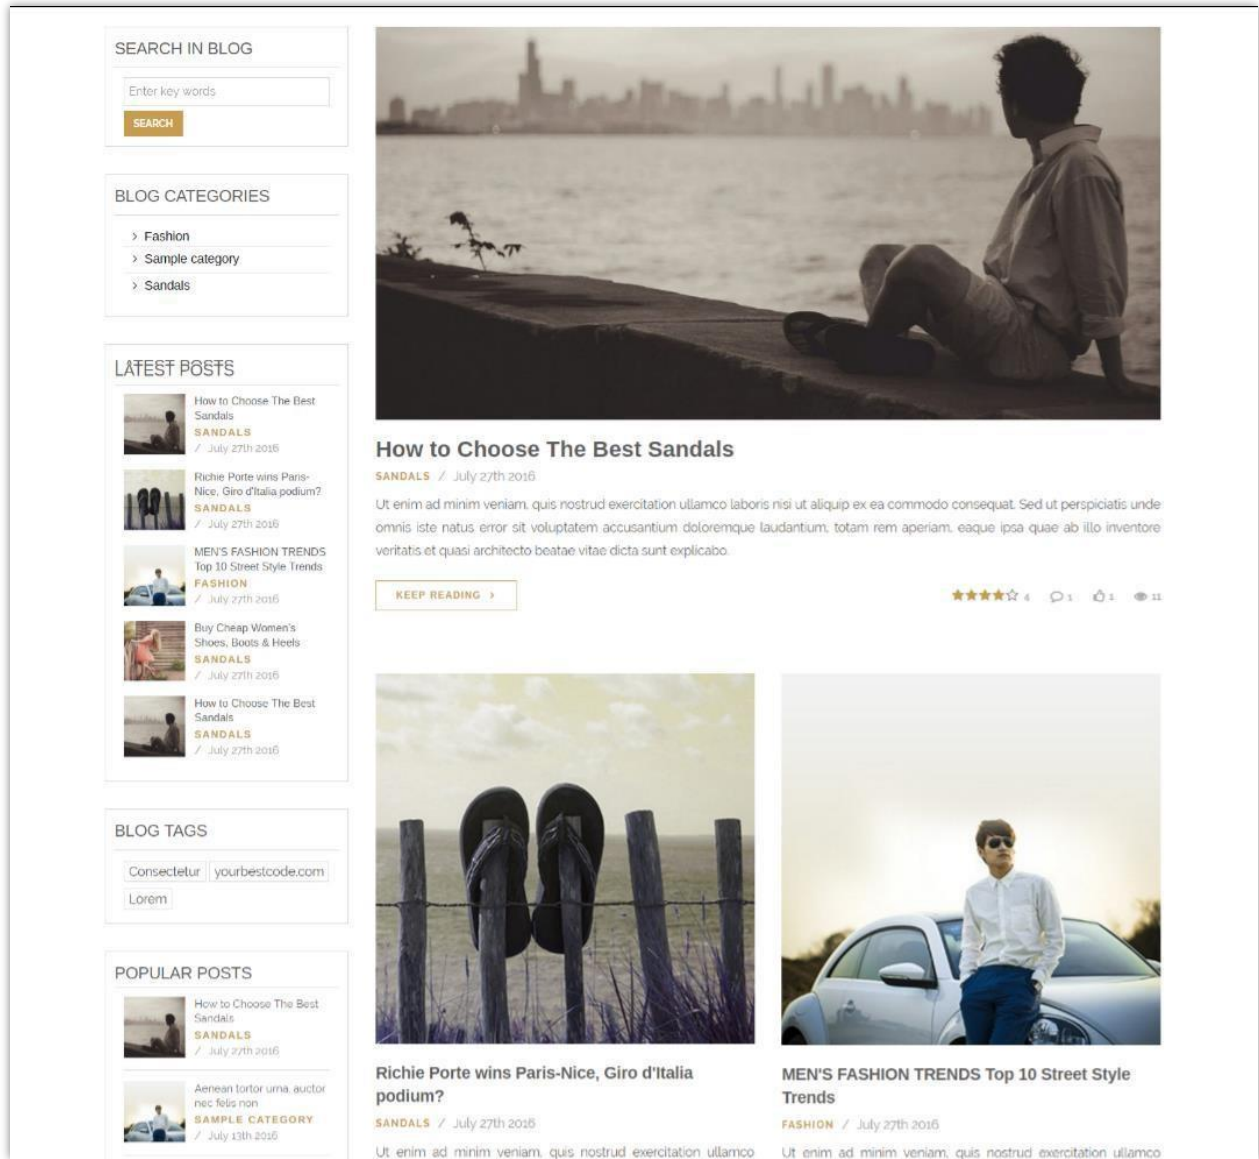

VII. BLOG MODULE

With this theme you have one of the most powerful Prestashop blog modules in the market place! You have a separated menu to manage your blog in the backoffice. This menu helps you manage your blog posts, categories, comments, slider, gallery and settings.

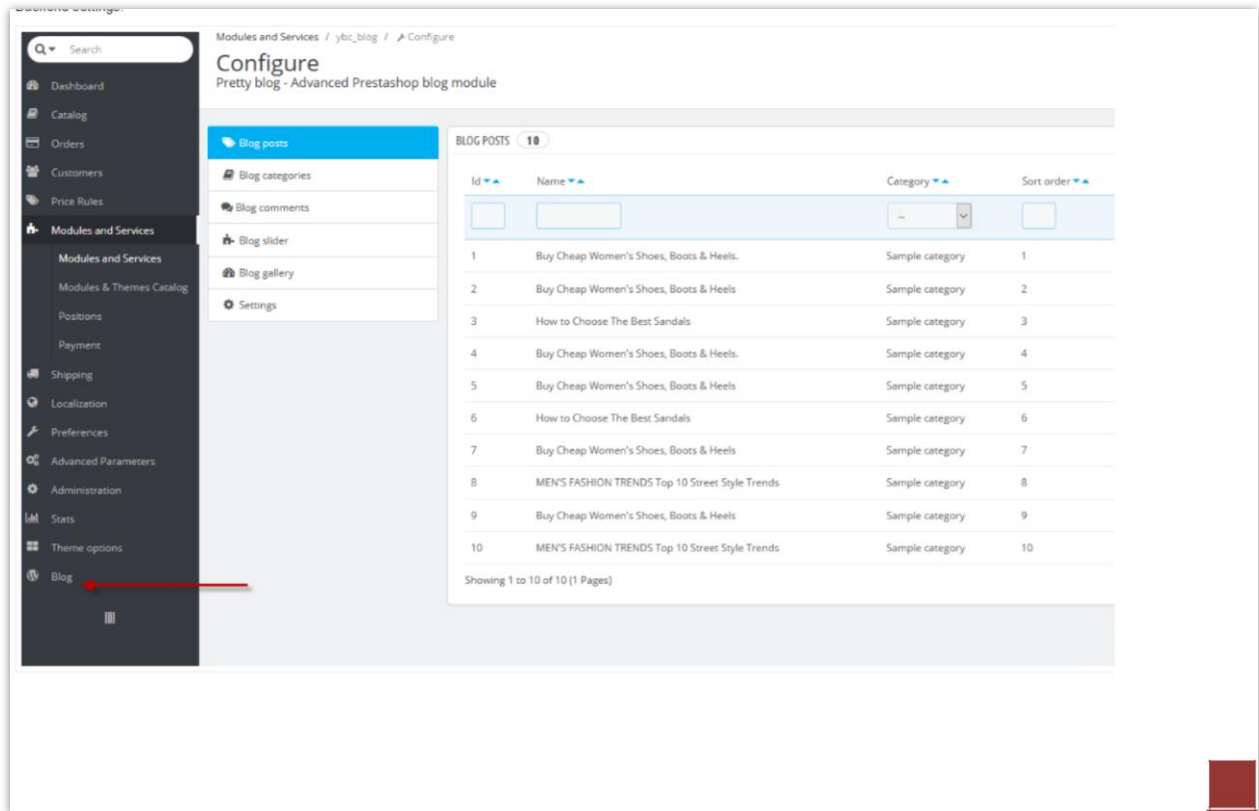

***Note:** Set up your **"notification emails"** from the settings area in the backoffice to receive notification emails when someone comments on one of your blog posts or reports a comment as abused.

***Tip:** To have a link or a menu item to display your blog in the frontend of the website, copy the blog preview link from backoffice and add it to your top mega menu. Settings area gives you many different options for configuring your blog, take some time to check it out.

Front page:

Backend settings, navigate to **Modules / Modules and Services / Installed modules** then select "**PRO blog - All in one package**" from the module list

Settings area gives you many different options for configuring your blog, take some time to check it out.

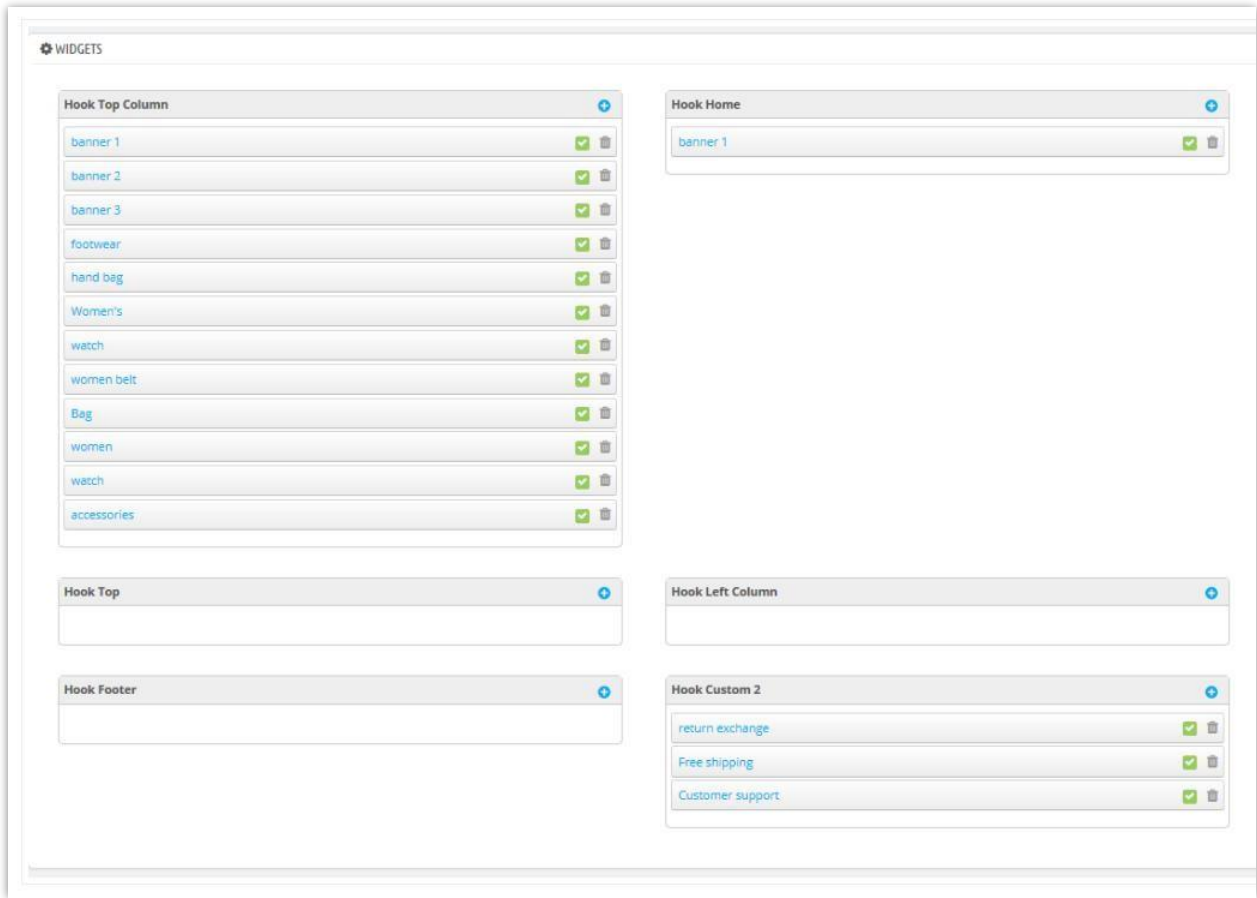

VIII. HTML WIDGETS

First of all you need to understand what widgets are. Widgets are combinations of text and images placed on specific positions (hooks) of the website. With this theme you can create unlimited widgets and place them in different positions of your website.

Let's take a look at our frontend after the installation of the theme. These are the widgets that are available by default:

To manage the module, navigate to **Modules / Modules & Services / Installed modules** then select **"HTML Widgets"** module from the module list

***Note:**

Uploading images with appropriate size to each widget is necessary because the upload of too large images could break the layout of the theme.

Import sample data then replace images/text by your real data to make your site like our demo sites.

IX. HOME SLIDER

To manage the home slider, navigate to **"Modules and services"** the select **"Nivo slider"** from the module list

SLIDES LIST

#1 - Shop with love

#3 - Summer Trend

X. MANUFACTURERS/BRANDS MODULE

To manage this module, navigate to **“Modules and services”** the select **“Manufacturers/brands block”** from the module list.

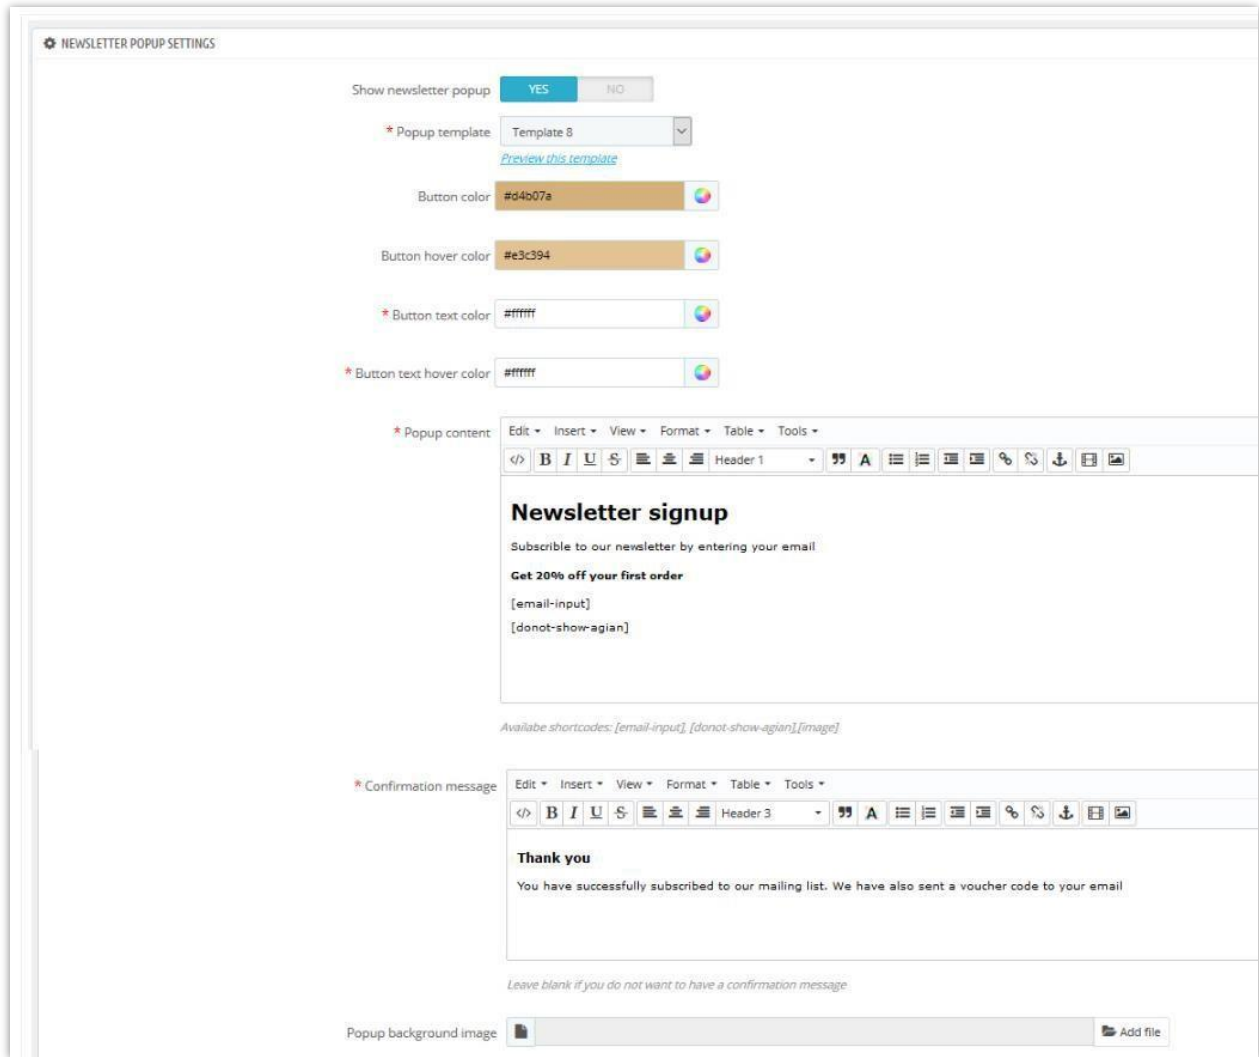

The screenshot shows a configuration window titled "CONFIGURATION" with a gear icon. It contains three settings: "Block title" set to "Our brands", "Number of manufacturers to display" set to "10", and "Show manufacturer name" with radio buttons for "YES" and "NO".

XI. NEWSLETTER POPUP

This “**Responsive newsletter popup**” module allows you to display a newsletter popup form on your website.

The screenshot shows a "NEWSLETTER SIGNUP" popup. It features the text "Subscribe to our newsletter by entering your email." and a promotional offer "Get 100% off your first order" in orange. Below this is an email input field with the placeholder "Enter your email..." and a "SUBSCRIBE" button. At the bottom, there is a checkbox labeled "Do not show this again".

To manage this module, navigate to **Module / Modules & Services / Installed modules**, then select “**Responsive newsletter popup**” from the module list

***Note:** The newsletter popup is disabled by default, however you can enable it from back office by turning "**Show newsletter popup**" on

XII. THANK YOU

Thank you again for downloading our theme and going through this documentation. We hope this document has provided to be helpful and useful in the complete set up of your website.

If you do have any questions for which the answer is not available in this document, please feel free to contact us.
