I. INTRODUCTION

Product Collections is a product showcase module for PrestaShop that makes it easier for your customers to discover, browse and purchase products in a visual and diverse way.

**“Product Collections” is compatible with PrestaShop 1.6.x and PrestaShop 1.7.x*

II. INSTALLATION

- Navigate to **“Modules / Modules & Services”** > click on **“Upload a module / Select file”**.
- Select the module file **“ets_collections.zip”** from your computer then click on **“Open”** to install.
- Click on **“Configuration”** button of the module you just installed to open the module’s configuration page.
- You can also access to product collections list through **“Catalog”** > **“Product collections”**.

III. CONFIGURATION

1. General settings for collection listing page

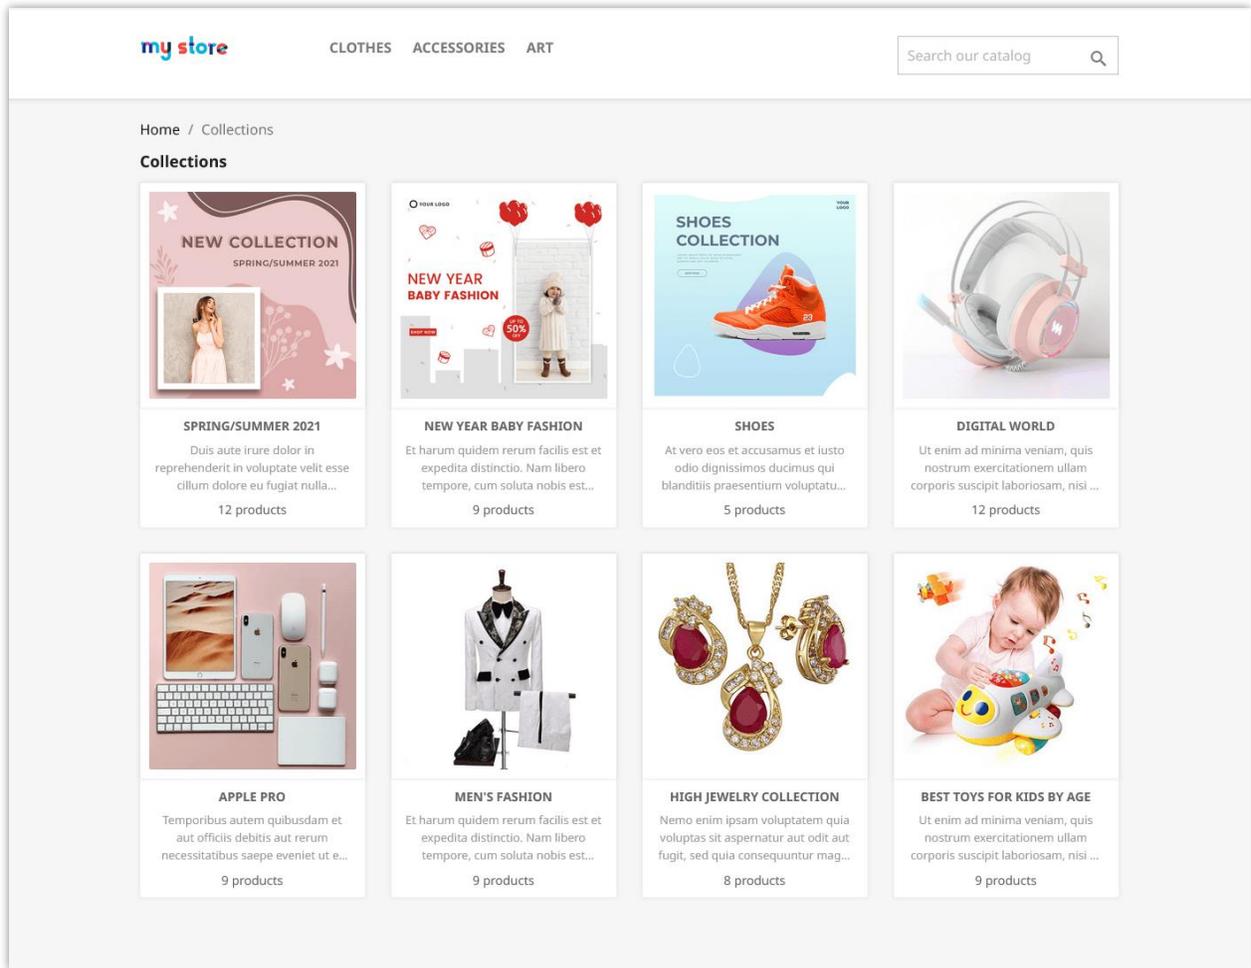

From your installed module list (Located at “**Modules/Modules & services/Installed modules**”), find “**Product Collections**” then click on the “**Configure**” button to open its configuration page.

You will find these options below which will be used to manage product collection listing page.

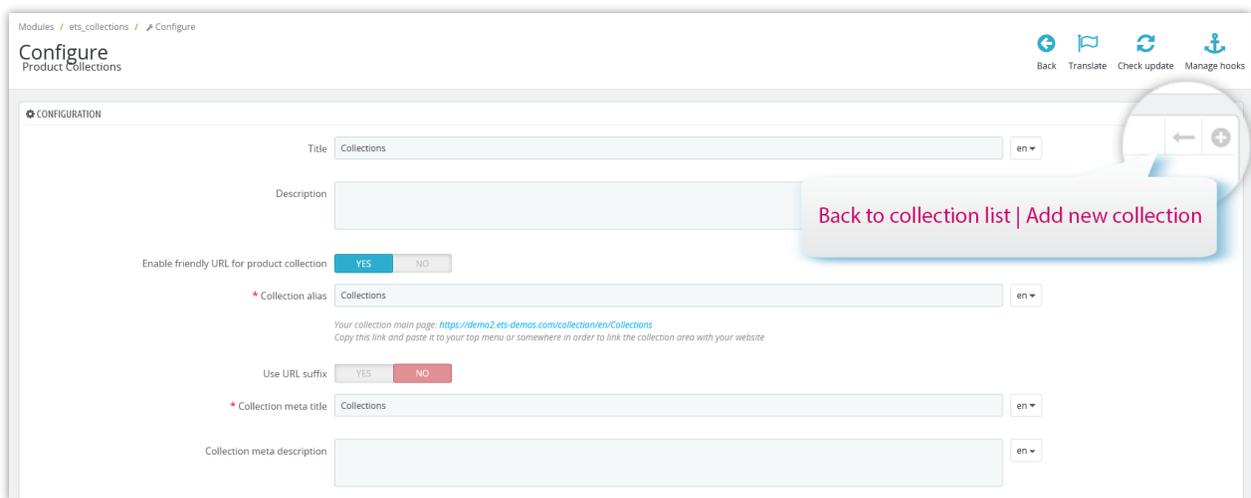

The screenshot shows the configuration page for 'Product Collections' with the following settings and callouts:

- Title:** Collections (Callout: Title and description for collection listing page)
- Description:** (Empty text area)
- Enable friendly URL for product collection:** YES (selected)
- Collection alias:** Collections (Callout: Title and description for collection listing page)
- Use URL suffix:** YES (selected)
- Collection meta title:** Collections (Callout: SEO elements for collection listing page)
- Collection meta description:** (Empty text area)
- Display collection list on home page:** YES (selected)
- Number of collections to display:** 12 (Callout: How collection will display on your home page)
- Enable cache:** YES (selected)
- Cache lifetime:** 24 (Hours)
- Clear cache:** (Button)
- Cache settings for product collections:** (Callout)

Here is an example of product collection listing page on the front office:

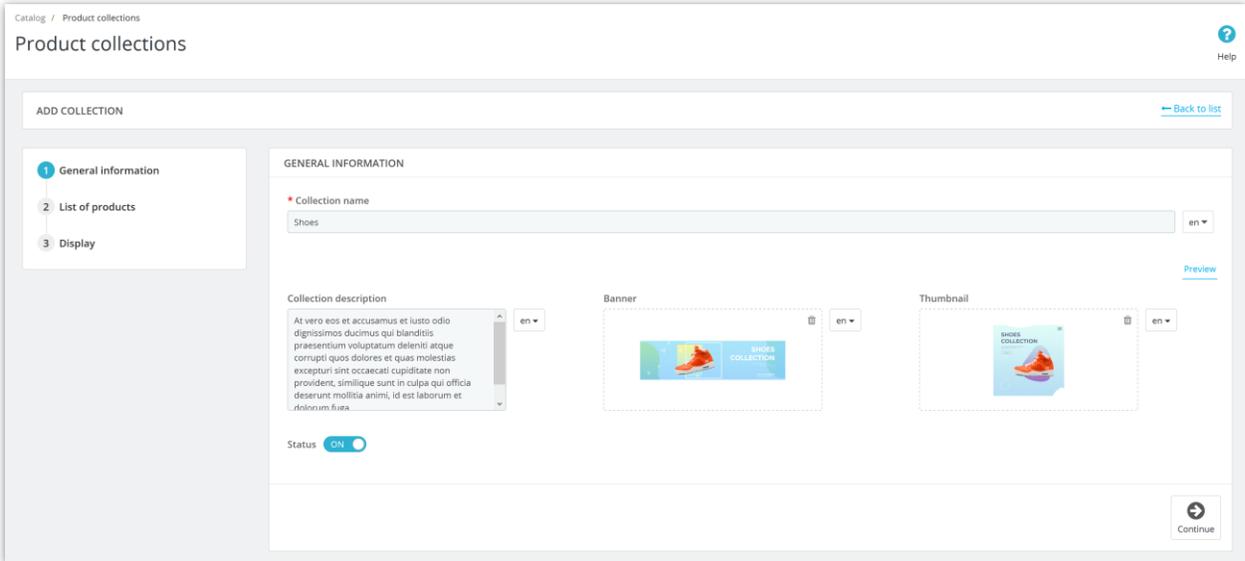

To manage your product collections, please click on **“Back to list”** icon on the top right of configuration page. You can also quickly add a new collection by clicking on **“Add new”** icon.

2. Add new product collection

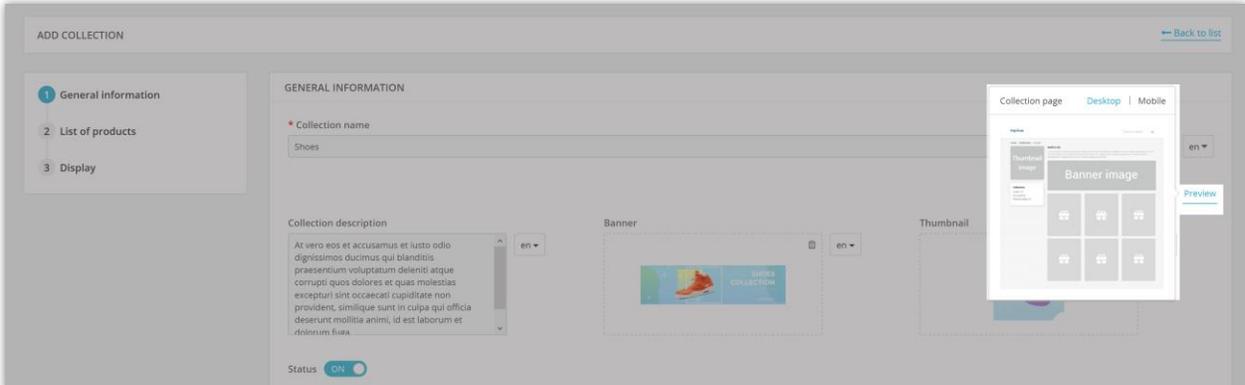

After clicking on “**Add new**” icon, you will be navigated to “**Add collection**” screen.

- On the first step, please enter the general information for your product collection: *name*, *description*, *banner image* and *thumbnail image*. You can enter information for multiple languages.
- Remember to turn on “**Status**” switch to enable your collection.

The screenshot shows the 'ADD COLLECTION' screen. On the left, there is a sidebar with three steps: 1. General information (selected), 2. List of products, and 3. Display. The main area is titled 'GENERAL INFORMATION'. It contains a 'Collection name' field with the value 'Shoes' and a language dropdown set to 'en'. Below this is a 'Collection description' field with placeholder text and a language dropdown set to 'en'. To the right of the description are two image upload areas: 'Banner' and 'Thumbnail', each with a language dropdown set to 'en'. The 'Banner' and 'Thumbnail' fields show a preview of a shoe image with the text 'SHOES COLLECTION'. At the bottom left, there is a 'Status' switch set to 'ON'. At the bottom right, there is a 'Continue' button. A 'Preview' link is located to the right of the banner and thumbnail image upload areas.

- Click on “**Preview**” link to see how thumbnail image and banner image will display on collection page on desktop or mobile device.

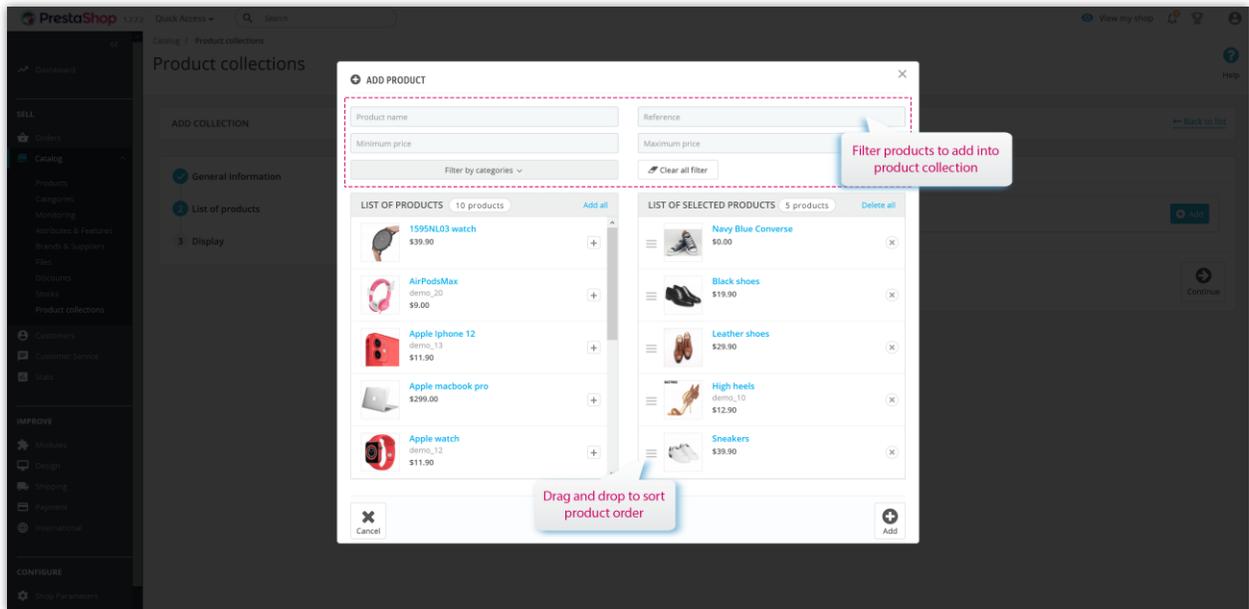

This screenshot shows the same 'ADD COLLECTION' screen as above, but with a preview window open. The preview window is titled 'Collection page' and has tabs for 'Desktop' and 'Mobile'. It shows a grid layout with a 'Banner image' and a 'Thumbnail image' placeholder. The 'Preview' link is highlighted in blue.

- Click “**Continue**” button to proceed to next step.

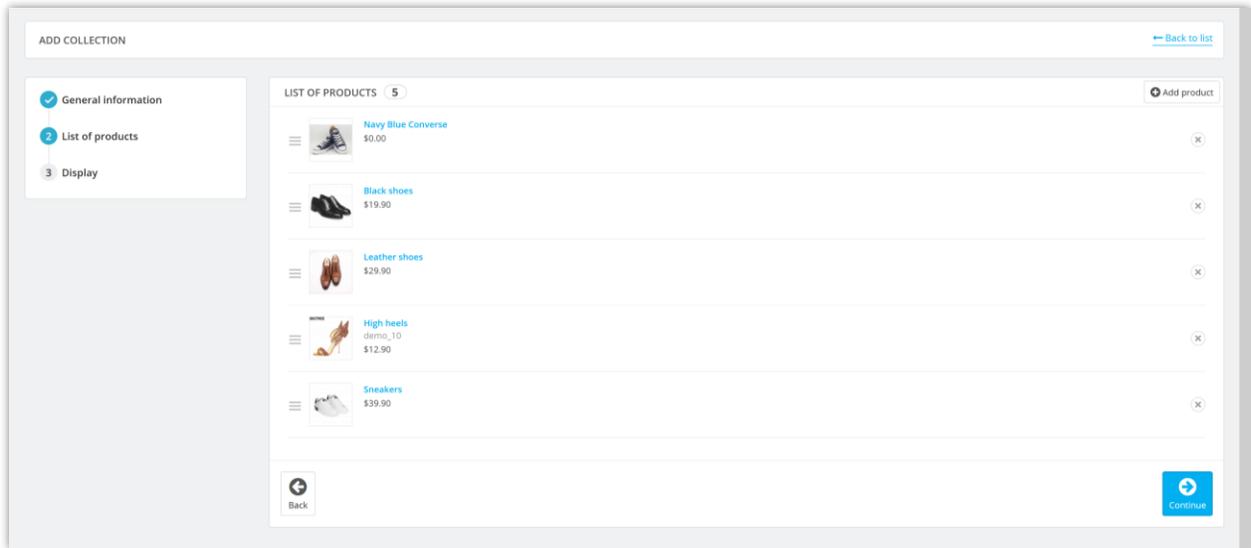

- Click on **“Add”** button to add products into your collection.

- Use the filter to search for products you want to add into collection. Drag and drop product to sort order. Click **“Add”** to finish.

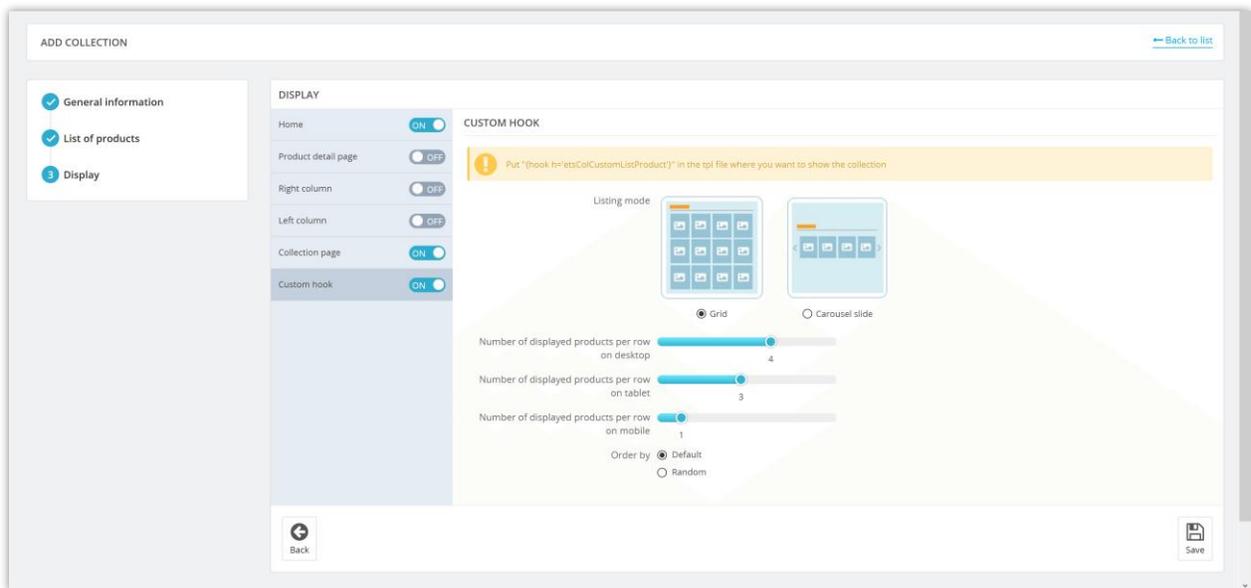

- Click **“Continue”**.

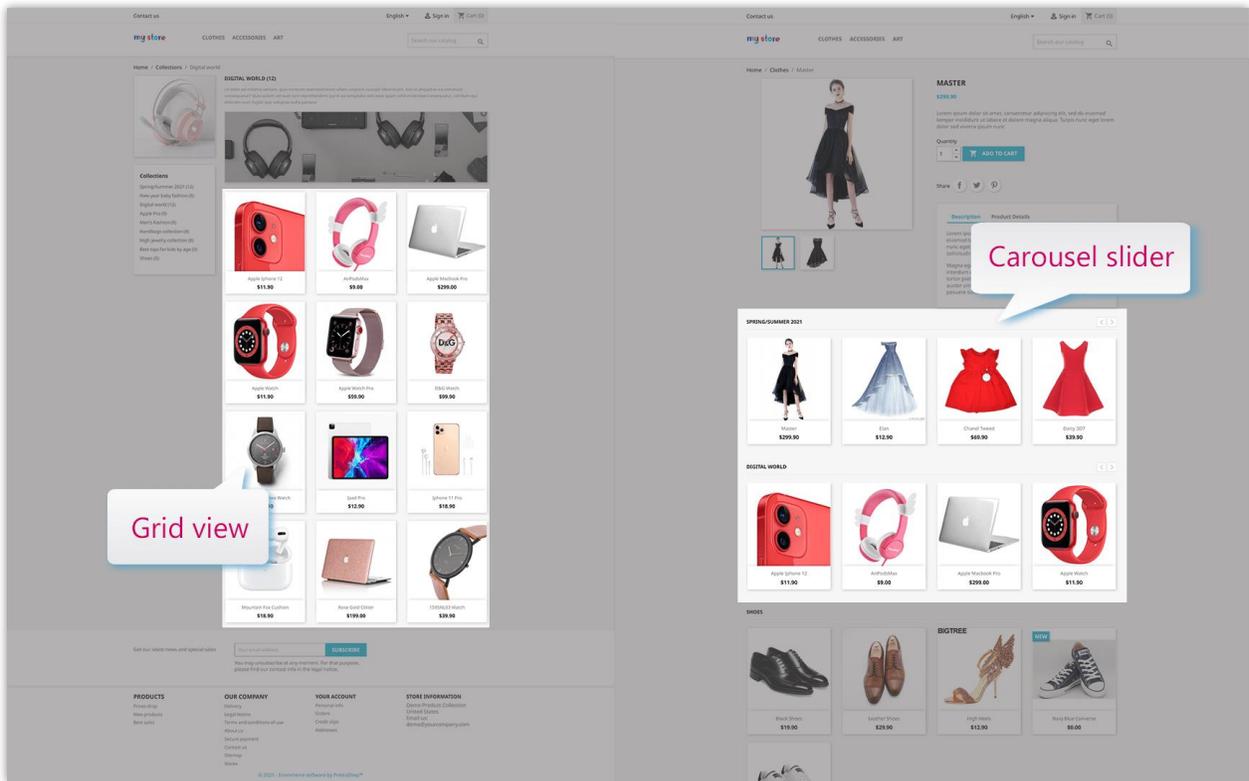

- Select the display position(s) you want your product collection to appear. Our module enables you to display collection anywhere you want using the custom hook.

You can also display product collection on *home page*, *product detail page*, *right column*, *left column*, etc. Turn on the switch next to display position name to enable that display position.

For each display position, you can select *collection listing mode*, *customize the number of display products per row on different device*, *product order*, etc.

- Finally, click **“Save”** button to complete.

3. Product collections list

On the product collections list page, you can view and manage all your product collections.
