I. INTRODUCTION

Best Selling Products - A free PrestaShop best-selling product module helps you add a block displaying your store's top-selling products in various positions.

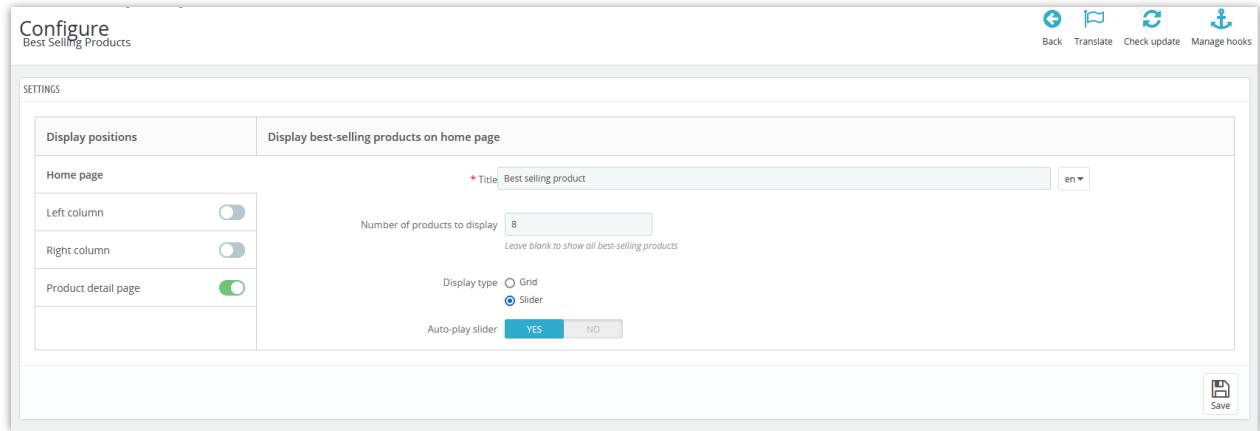

***Best Selling Products** is compatible with PrestaShop 1.7.x

II. INSTALLATION

- Navigate to "**Modules / Modules Manager**" > click on "**Upload a module / Select file**".
- Select the module file "**ets_bestselling.zip**" from your computer then click on "**Open**" to install.
- Click on "**Configure**" button of the module you just installed to open the module's configuration page.

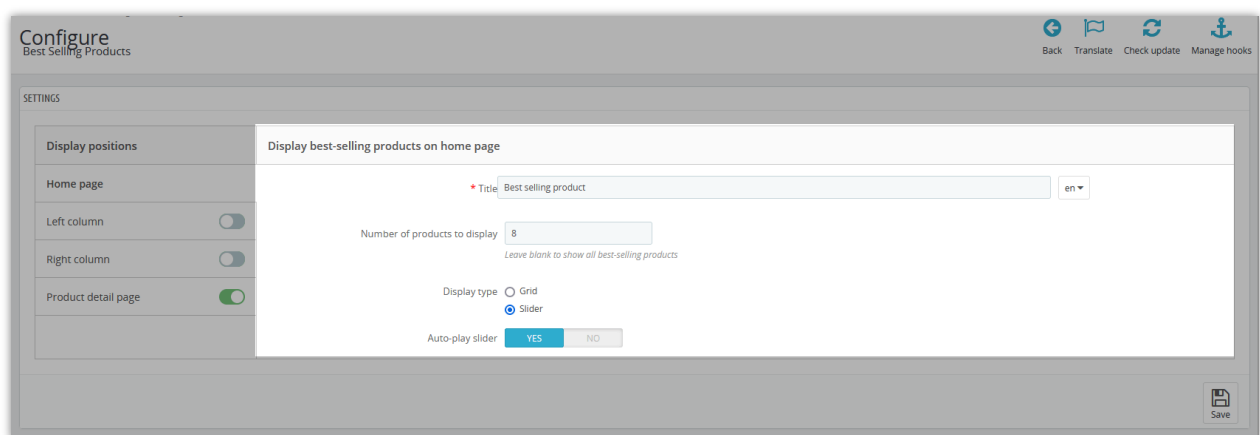

III. CONFIGURATION

From your installed module list (located at "**Modules/Module Manager**"), find "**Best Selling Products**" then click on the "**Configure**" button to open its configuration page.

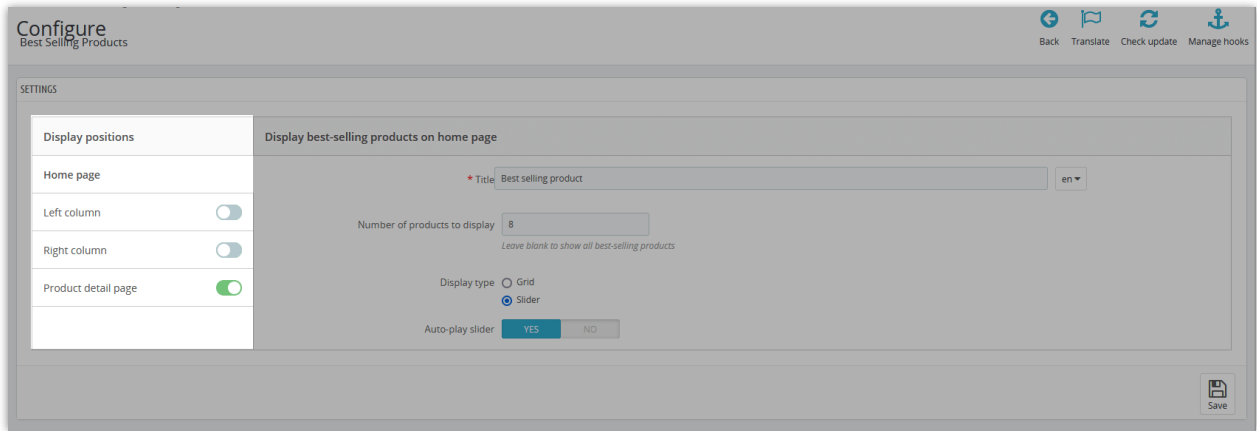

On the "**Configuration**" page, you can easily set up the simple settings to add and display your best-selling products block on the front office:

- **Title:** You are free to customize the title displaying on the top of the top-selling block.
- You also can set up the number of products to display on the block.
- **Display type:** there are 2 types available: *Grid* and *Slider*.
- **"Auto-play slider"** mode: Enable this option if you want to make a beautiful effect for the slider display type, the slider will automatically move to the next product instead of the customer having to click the ">" button.

- The module supports 4 display positions: *Home page*, *left column*, *right column*, and *product detail page*.

Here is an example of a top-selling block on the Homepage:
