I. INTRODUCTION

Extra Options is an amazing **PrestaShop product combination module** that allows you to create global options that apply for all existing products, price impact for each option. Faster and easier to manage than **PrestaShop default combinations**.

***Extra Options** is compatible with PrestaShop 1.7.x and PrestaShop 8.x

II. INSTALLATION

- Navigate to **"Modules / Modules Manager"** > click on **"Upload a module / Select file"**.
- Select the module file **"ets_extraoptions.zip"** from your computer then click on **"Open"** to install.
- Click on **"Configure"** button of the module you just installed to open the module's configuration page.

III. CONFIGURATION

1. General settings

From your installed module list (located at **"Modules/Module Manager"**), find **"Extra options"** then click on **"Configure"** button to open its configuration page.

You will see the options below which is used to manage the display of options on the PrestaShop front office:

Here are a few examples of how the attributes section will be displayed on your PrestaShop online store:

- **Option section title:** Title of the options section on the product detail page

- **"Total options price" label:** The text displays on the product detail page and notifies customers about the total price for their selected options. Example: "Total price for your selected options"

- **Option details:** Title of the selected option list will be displayed on shopping cart page, order confirmation page, order detail and an email sent to customers.

Here is an example of the display on the shopping cart page:

The display on the order confirmation page:

The screenshot shows the 'my store' order confirmation page. At the top, there are navigation links for 'CLOTHES', 'ACCESSORIES', and 'ART', and a search bar with the text 'Search our catalog'. A green checkmark and the text 'YOUR ORDER IS CONFIRMED' are prominently displayed. Below this, a message states 'An email has been sent to the hang@gmail.com address.' The main content area is divided into 'ORDER ITEMS' and a summary section. The 'ORDER ITEMS' section contains a table with the following data:

ORDER ITEMS	UNIT PRICE	QUANTITY	TOTAL PRODUCTS
 The adventure begins Framed poster - Dimension : 40x60cm-Extra options: Gift wrapping	\$39.00	1	\$39.00

Below the table, the summary section shows:

- Subtotal: \$39.00
- Shipping and handling: \$7.00
- TOTAL (TAX EXCL.): \$46.00
- TOTAL (TAX INCL.): \$46.00**
- Tax: \$0.00

The 'ORDER DETAILS' section includes:

- Order reference: OFLBKUMBR
- Payment method: Payments by check
- Shipping method: My carrier
- Delivery next day!

And this is the way option details are shown on "Order detail" on PrestaShop back office:

Showing 1 to 2 of 2 (1 Page)

The color you choose will be shown on front office:

2. Option groups

You can create groups of options and then use them when creating general options or specific options to group options with the same purpose together. So, the options will be displayed on the front office in a neat, more scientific way and also easier for the store admin to manage.

You only need to click on **“Add new option group”**, then fill in the name of the group on the **“Add option group”** popup and select **“How to display extra option”**. Finally, click **“Save”** and you’re done.

3. Global Options

In the configuration page, scroll down and you will see “**Global Option**”. It is the list of options that applies to all existing products in your store.

Extra Options module allows you to add an unlimited number of global options. Start adding a new option by clicking the “**Add new option**” button.

- Enter the option name and description. You can enter option name and description for multiple languages.
- Enable “**Use option (Globally)**” option
- Set the price for the global option: You can select to calculate the option price by a fixed amount or percentage of the product price.
- Change the related options if you want
- Enable “**Display by option group**” if you want to display this option in a group, then choose a group for that option.
- Upload an image for the option
- Finally, enable “**Active**” option and save your settings

Note: To use the “**Check by default**” and “**Required (Global)**” options, you must choose to display the option as a “**checkbox**”. These 2 options will not apply to the “**radio**” type

Edit option

* Name en

Description en

Use option (Globally) On
This option will be applied to all existing products in your store.

How to calculate option price:  

Price \$
The price will be added to the product price if customers select this option.

Apply tax On
Apply the tax rule defined on "Pricing" tab of the product editing page

Apply specific price On
Apply the specific price defined on "Pricing"

Required (Global) Off
Customers have to select this option when purchasing this product

Checked by default Off

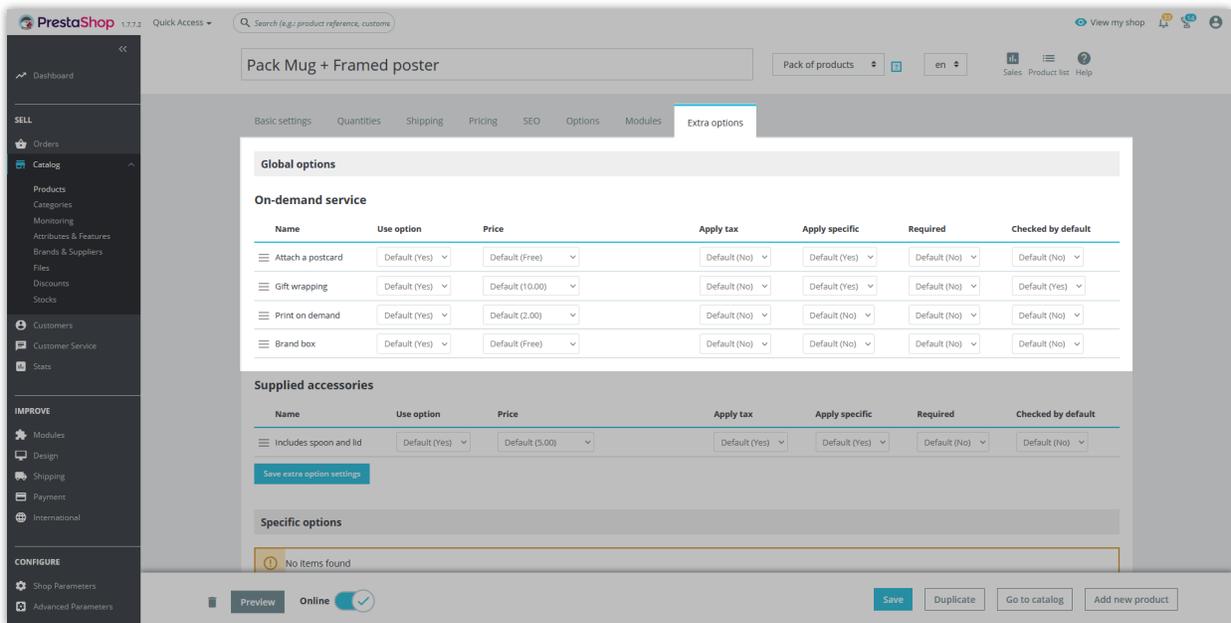

Only apply for the "Check box" type

A new option will be displayed on your back office, and you can quickly edit it directly or click the **“Edit”** button:

Besides, you can edit the global option on the specific product editing page.

Now, see how it looks in the front office:

4. Specific options

Besides creating new global options for all current products in your store, you also can add new specific options for each product.

On PrestaShop back office, open the product editing page of the item you want to add a specific options. Select **“Extra options”** tab then find and click on **“Add specific option”** button.
