I.	INTRODUCTION	3

#### I. INTRODUCTION

**Product Note** is a free PrestaShop product note module that allows you to add and display notes about some specific information of products on the product detail page.

\*"*Product Note*" is compatible with PrestaShop 1.7.x

#### II. INSTALLATION

- Navigate to "Modules / Modules Manager" > click on "Upload a module / Select file".
- Select the module file "ets\_productnote.zip" from your computer then click on "Open" to install.
- Click on "**Configure**" button of the module you just installed to open the module's configuration page.

#### **III. CONFIGURATION**

#### 1. Add a new product note

From your installed module list (located at **"Modules/Module Manager"**), find **"Product Note"** then click on "**Configure**" button to open its configuration page.

**Product Note** module allows you to add an unlimited number of notes for products in your store. Clicking on the **"Add new product note"** to start adding a new one.

• Fill in the required information field: The module provides available tags that you can use to fill in the note, then the module will take the actual value of each product to display on the front office.

For example, with the same tag **[weight]**, product A with a weight of 1kg, product B weights 2kg, the module will update automatically and displayed the note in the product A detail page will be 1kg, in the product B detail page will be 2kg. In addition, you also can make note with any information you need.

## 2. General settings

After adding some of the new product notes, we can search, quickly edit, manage them from the Product note list on the configuration page.

From there, you can easily search a product note by ID, name. Besides, you can also sort them from A-Z, from small to large or vice versa.
