A product of ETS-Soft

Contents

I.   INTRODUCTION

WhatsApp Messenger - **PrestaShop Whatsapp integration module** - Integrate WhatsApp messenger service into your PrestaShop website with ease!

* "**WhatsApp Messenger**" is compatible with PrestaShop 1.7.x

II.   INSTALLATION

- Navigate to "**Modules / Modules Manager**" > click on "**Upload a module / Select file**".
- Select the module file "**ets_whatsapp.zip**" from your computer then click on "**Open**" to install.
- Click on "**Configure**" button of the module you just installed to open the module's configuration page.

III.   CONFIGURATION

From your installed module list (located at **"Modules/Module Manager"**), find **"WhatsApp Messenger"** then click on the "**Configure**" button to open its configuration page.

- **Mobile phone number:** The module gives area codes of over 200 countries; all you have to do is select a nation and enter the phone number you used to sign up for WhatsApp.

- You can customize the title display under the WhatsApp icon.
- **The module supports 4 display positions:** Right - center, Right - bottom, Left - center, Left – bottom.

- You can also adjust display position by customizing: *right padding, bottom padding, and left padding.*

- "**Send URL of the current page**" mode: The module support getting the URL of the current page that the customer is viewing into the chat so that the customer can send it to the admin through a Whatsapp message. From there store admin can know what product/category customers are interested in.

- Enable Whatsapp and "**Save**"

Now, let's see how WhatsApp will be displayed on the front office!
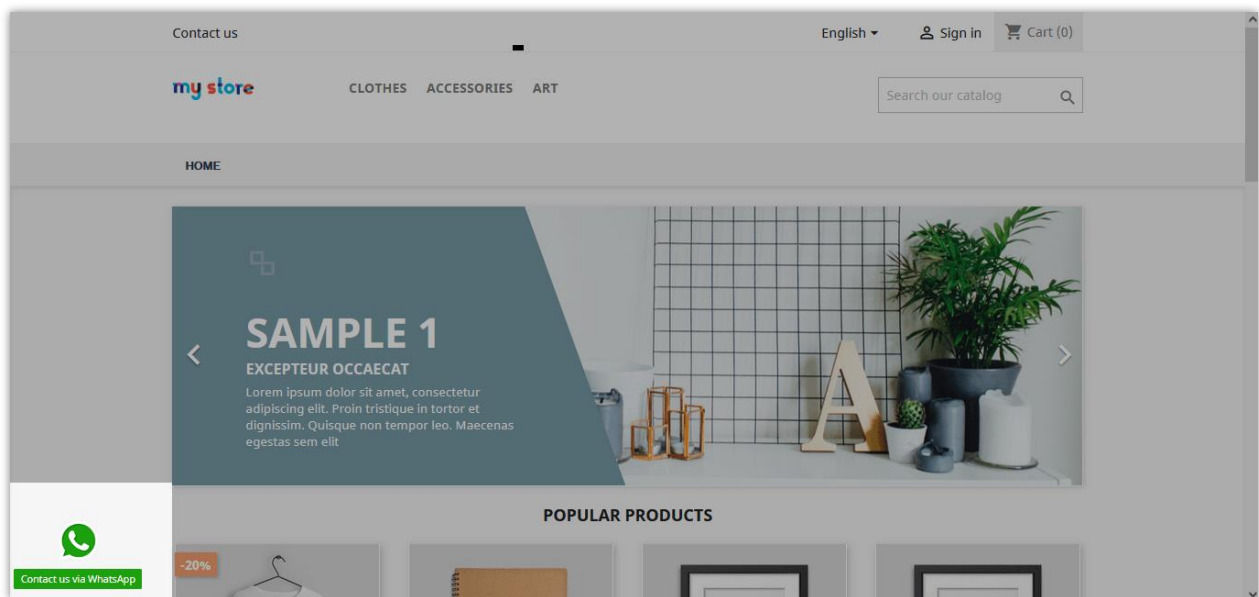

- At "**Right – center**":
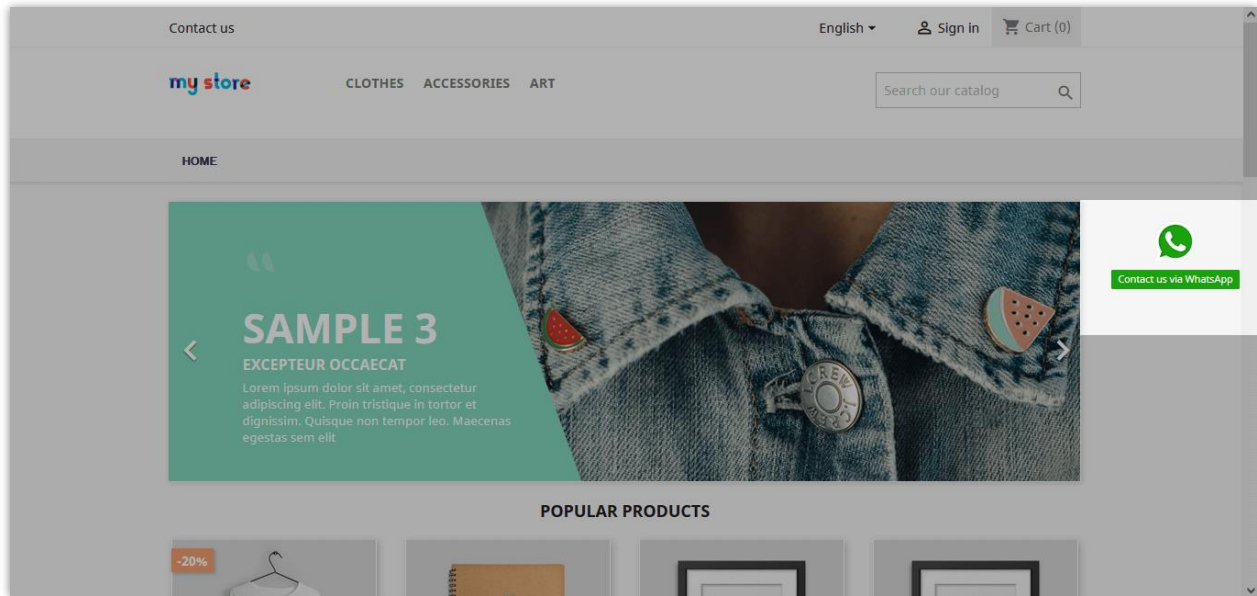

- At "**Right – bottom**":

- At "**Left – center**":

- At "**Left – bottom**":
