I. INTRODUCTION

Revamp your PrestaShop site's user experience with our free custom 404 page module. Say goodbye to bland error pages and welcome a personalized touch to engage your visitors.

This module allows easy customization of images, content, and the addition of "Go to Home page" and "Contact us" buttons, seamlessly aligning your error page with your brand identity. Take it a step further by showcasing relevant product categories, items, or blog posts below the error message, turning user errors into valuable engagement opportunities.

*"Page Not Found" is compatible with PrestaShop 1.5.x to 8.x.

II. INSTALLATION

- Navigate to "Modules / Modules Manager" > click on "Upload a module / Select file".
- Select the module file "pagenotfound.zip" from your computer then click on "Open" to install.
- Click on the "Configure" button of the module you just installed to open the module's configuration page.

III. CONFIGURATION

1. Customize the "Page not found" page

From your installed module list (located at **"Modules/Module Manager"**), find **"Page Not Found"** then click on the "**Configure**" button to open its configuration page. **Page Not Found** module allows you to customize the content of "Page not found" page, replace the default "Page not found" page of PrestaShop.
